

SOIL CAPITAL CARBON

ENROLMENT

via www.soilcapital.com

Arable farms of 100 ha +
(some livestock integration allowed)

YEAR 0

BASELINE ASSESSMENT

based on your farming practices

Discover if you **sequester** or **emit** carbon overall. If you:

SEQUESTER

Maintain or improve your practices according to your Management Plan

EMIT

Improve your practices according to your Management Plan

YEARS 1-5
CREDITING PERIOD

One mySoilCapital assessment per year to quantify **emission reductions** and **carbon storage in your soils**.

Each year, we certify your emission reductions and carbon storage against a **standard baseline for your region**.

Each year, we certify your emission reductions and carbon storage against **your own baseline**.

1 certificate
=
1 T of CO₂e

80% of your certificates are sold each year. You earn a minimum of **£23* per certificate**.

*Our floor price commitment is in Euros. Prices are subject to the prevailing exchange rate at the time.

20% of your certificates are held back for 10 years in the **buffer**.

YEARS 6-10
RETENTION PERIOD

Option to enrol in a new crediting period (Years 1-5)

YEARS 11-16
RELEASE FROM THE BUFFER

Verification that you have maintained your practices by satellite monitoring.

Each year, certificates are released from the buffer 10 years after their generation, if you meet the criteria for preventing losses.
