YOUR PEOPLE ARE OUR BUSINESS

WORKSHOP PREVIEW

TEAM DYNAMICS

Do you find that you can get on with some people on your farm, but struggle with others? Is your team struggling to get along too? Is productivity suffering? Or maybe your staff turnover or poor recruitment decisions are costing you time and money? If so, the Team Dynamics workshop will deliver instant improvements to your bottom line.

BACKGROUND

Farming is an intense, fast paced environment where positive teamwork is essential for success. How we communicate with each other has a huge impact on efficiency, effectiveness, profitability and the morale of the team. In this workshop, you'll discover that each of us has a different communication style and behaviour which directly influences how we are perceived by others – and how this can work in your favour or against you. Before you consider how to motivate, lead and inspire your team, you need to know the basics of good communication – and this workshop will show you just how tricky positive communication can be...and the way to make communication work for you and your team.

HOW IT WORKS

The workshop lasts up to 3 hours and is interactive and fun. Everyone discovers their own personality style and those of their colleagues or group in a relaxed and engaging way. All workshop materials are provided including an A5 workbook which includes your personality profile. You'll be able to use the information you've learned immediately!

WHAT OTHER FARMERS SAY...

"Paul's style of delivery ensured that even the most skeptical member of staff enjoyed the workshop and found it hugely worthwhile"

"The workshop helped me understand why my team is struggling to work together - and we also now recognise the type of person we need to recruit in the future to work in our team!"
