WHY CHOOSE US

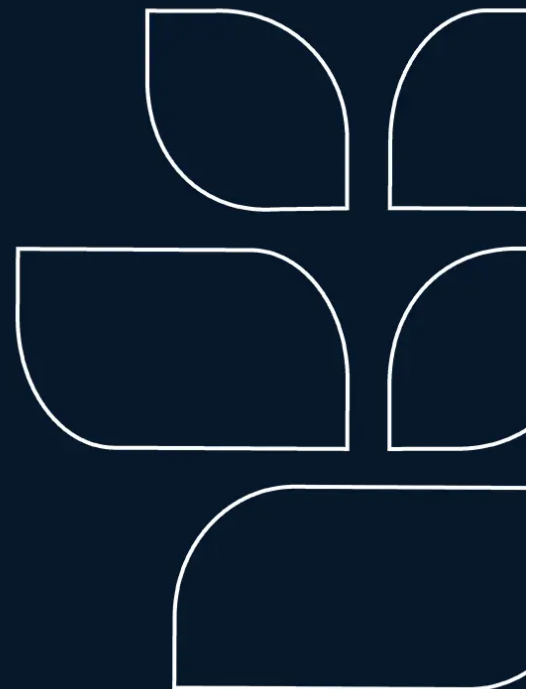

ABOUT US

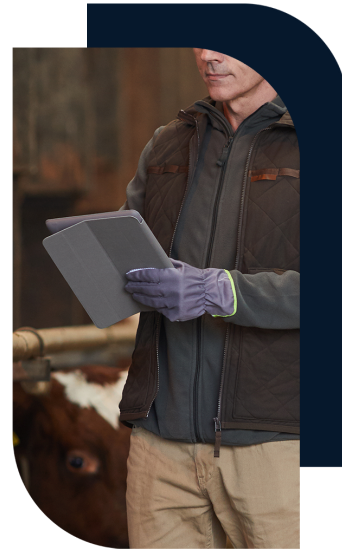

Ceres Rural offers you a full scope of experience-led farming consultancy, technical support and business management. You are provided with independent advice and services from qualified professionals, tailoring unique solutions in line with your specific requirements and means.

You will receive direct access to a lead engagement Partner as a trusted advisor and business partner. Your lead Partner works with a capable yet supervised team, where each member has a defined role in supporting you. Your team will be committed to providing you with smart business solutions, guided by innovation and independent science.

Importantly, Ceres Rural offers you a consultancy firm that is big enough to access expertise on a broad range of agricultural topics, yet small enough to be independent and agile, allowing quick response to new developments, regulations and technology. Ceres Rural is not bound by defined corporate protocols and procedures, you will receive a bespoke, individually customised service that puts your needs first, and continually strives to enhance your business.

OUR SERVICES

OUR SERVICES

Ceres Rural covers a broad range of rural specialisms, from everyday services like farm management, to niche advice like biodiversity offsetting. Our advice is 100% independent – we adopt a flexible and experience-led approach, providing advice guided by science, to deliver measurable and meaningful results for you.
