**40**  
YEARS  
1983-2023

*12V Compressors*

# History

*Allswage UK was established in 1983 to supply the hydraulics industry with high quality and reliable hydraulic hose assembly equipment. Today we offer the largest and most diverse range of machinery in the UK allowing us to work with small hose counters through to OEM assembly plants.*

*Our range extends beyond machinery, for companies looking to take their hose fitting service out on to the road we offer state of the art van conversions, using the latest crash tested racking combined with our high quality machinery you can cut, swage, clean and pressure test up to 2" hoses on-site. For customers looking for a more permanent on site set up, we have the facility to design and build containerised workshops suitable for on and offshore placement.*

*With over 40 years of trading we have a wealth of knowledge about the products and industries we serve. Our dedicated, proactive and dynamic team with over 150 years of experience have the ability to adapt to the ever changing demands our customers have and provide you with a solution; our mission is to provide our customers with the right machine for their application and to do it with a professional and friendly service.*

# 12V Air Compressors

allswage<sup>uk</sup>

Our pumps are entirely made of cast iron for optimum performance and longevity. The rubber feet provide maximum stability along with safe and simple transporting. Operation is fully automatic, including a pressure switch and a relief valve. Overload protection must be reset manually. Quick connections on the air outlet allow for the simple connection with compressed air devices. For professional use only. Built in accordance with CE standards.
