

Agricultural Compliance

We do the paperwork.

You go farming

From the 1st of January 2024 regulations continue to protect the environment and animal health and welfare. Compliance is monitored by the existing statutory bodies and farms and land will be inspected to ensure that rules are being followed.

Our dedicated team will provide you with expert advice and bespoke agricultural compliance paperwork to ensure that you abide by the complex requirements.

By taking away the stress of completing rigorous, but necessary paperwork, you can be secure in the knowledge that your documents will be processed accurately and efficiently.

Our services:

Field Application Reports

We provide clear, detailed application reports that are guaranteed to pass any RPA or EA inspection.

NVZ Records

As compliance can be difficult to calculate, we make sure you comply with all the rules and provide complete NVZ records ready for inspection.

Rented Land Records

Comprehensive records provided for rented and farmed land which will be required by the landowner in the event of an inspection.

Soil Erosion & Manure Risk Maps

Our dedicated mapping department produce soil erosion and manure risk maps which are an integral part of cross compliance.

Attendance at Inspections

We ensure that all the required documentation is available and up to date and can attend RPA and EA inspections on behalf of our clients for an additional charge.

Farmyard Audits

A complete audit to ensure compliance with SSAFO regulations and that care is being taken to avoid pollution. Offered free as part of our service.

This service includes farm visits*, dedicated advisors, and industry-leading insight into all areas of farming.

* For an additional fee
