

CONFERENCE PROGRAMME

21ST INTERNATIONAL CONFERENCE & EXHIBITION ON LIQUEFIED NATURAL GAS (LNG2026)

Doha, Qatar | Qatar National Convention Centre
2-5 February 2026

Conference at a Glance

Sessions and Locations

SESSIONS

- Inauguration
- Closing Ceremony

Technical Programme

- Technical Paper Sessions
- Panel Discussions on Commercial Topics
- Discovery Hub (Posters)

Executive Programme

- Plenary Sessions
- Spotlight Sessions

Breaks and Networking

- Coffee Breaks
- Lunches
- Networking Functions

LOCATIONS

- | | |
|-------------------|---------------------------------|
| ❧ Conference Hall | ❧ Technical Programme Theatre A |
| ❧ Auditorium 1 | ❧ Technical Programme Theatre B |
| ❧ Auditorium 2 | ❧ Technical Programme Theatre C |
| ❧ Exhibition Area | ❧ Technical Delegate Lounge |
| ❧ Al Shaqab | ❧ Executive Delegate Lounge |

Conference Programme Overview

Tuesday, 3 February 2026

08:30 - 09:15	PL02 - Ministerial Session	Conference Hall
09:15 - 09:30	Break	
09:30 - 10:30	PL03 - LNG: The Backbone of a Low-Carbon Future	Conference Hall
10:30 - 12:00	TP01 - LNG Markets, Industry Evolution and Demand Drivers	Technical Programme Theatre A
	TP02 - Reducing Environmental Impact in the LNG Value Chain	Technical Programme Theatre B
	TP03 - Operations, Best Practices, Process Safety	Technical Programme Theatre C
10:45 - 11:45	SP03 - LNG Markets, Industry Evolution and Demand Drivers	Auditorium 1
	SP04 - North America's Gas Market on the Rise (TBC)	Auditorium 2
12:00 - 13:00	Lunch	
13:00 - 14:00	PL04 - Beyond Transactions: Achieving Success Together: Cultivating Strategic Partnerships in LNG	Conference Hall
14:00 - 15:30	TP04 - Project Execution and Project Updates and Case Studies	Technical Programme Theatre A
	TP05 - Commercial, Finance, Contracts	Technical Programme Theatre B
	TP06 - Gas Processing, Liquefaction and LNG Storage and Regas Terminals	Technical Programme Theatre C
14:15 - 15:15	SP05 - EU Emissions and ESG Regulations: How do they Impact on LNG Trade? (TBC)	Auditorium 1
	SP06 - Fuelling the Future: Navigating the Evolving Landscape of LNG Project Financing (TBC)	Auditorium 2
15:30 - 15:45	Break	
15:45 - 17:15	TP07	Technical Programme Theatre A
	TP08	Technical Programme Theatre B
	TP09	Technical Programme Theatre C
17:15 - 18:45	Reception for Technical Delegates	Technical Delegate Lounge

Conference Programme

Tuesday, 3 February 2026

08:30 – 09:15

PL02 – Ministerial Session

Location: Conference Hall

Speakers:

H.E. Saad Sherida Al-Kaabi, Minister of State for Energy Affairs, State of Qatar, President and CEO, QatarEnergy
Shri Hardeep Singh Puri, Ministry of Petroleum and Natural Gas, Republic of India
 Representative from United States of America

Moderator:

Francine Lacqua, Bloomberg Television

09:15 – 09:30

Break

09:30 – 10.30

PL03 – LNG: The Backbone of a Low-Carbon Future

Location: Conference Hall

As the global energy landscape continues to evolve, LNG stands at a critical juncture in addressing the energy trilemma—delivering reliable, affordable, and lower-carbon energy. While its role is interpreted differently across markets, LNG remains central to energy transition strategies worldwide. This session brings together LNG industry leaders to explore key imperatives for the sector’s continued relevance and growth:

- Proving LNG’s Long-Term Value: Positioning LNG as a dependable, cost-effective, and cleaner-burning fuel to meet today’s energy demands while supporting the transition to a low-carbon future
- Enabling Renewable Integration: How flexible LNG supply and infrastructure can support grid stability and complement the intermittent nature of renewables
- Enhancing Market Competitiveness: Exploring innovative commercial models, supply chain efficiencies, and cost-reduction strategies to maintain LNG’s edge in transitioning markets
- Maximizing Infrastructure Leverage: Repurposing LNG terminals, storage, and logistics capabilities to enable emerging low-carbon fuels like hydrogen and ammonia
- Technology as a Catalyst: Examining cutting-edge technologies that are improving LNG’s operational efficiency, safety, and environmental footprint—ensuring its role as a sustainable energy solution.

Speakers:

Mike Wirth, CEO, Chevron
Yukio Kani, CEO, JERA
Meg O’Neill, CEO, Woodside
Shaikh Nawaf S. Al-Sabah, Deputy Chairman and CEO, Kuwait Petroleum Corporation

Moderator:

Charles Riedl, Executive Director, Center for Liquefied Natural Gas

10:30 – 12:00

TP01 – LNG Markets, Industry Evolution and Demand Drivers

Location: Technical Programme Theatre A

Speakers:

Dr. Amal Al Mazrouei, Senior Researcher, Emirates Center for Strategic Studies & Research (ECSSR)
Anne-Sophie Corbeau, Global Research Scholar, Center on Global Energy Policy, Columbia University
Dr. David Ledesma, LNG Consultant & Senior Research Fellow, Oxford Institute for Energy Studies
Akos Losz, Senior Gas Analyst, IEA

Moderator:

Ahmad Hassan Al-Sulaiti, LNG Train Asset Manager, QatarEnergy

10:30 - 12:00

TP02 - Reducing Environmental Impact in the LNG Value Chain

Location: Technical Programme Theatre B

Speakers:

Khalid Al-Kuwari, Chief Marketing & Shipping Officer, QatarEnergy LNG
Dr. Aisha Al-Sarihi, Research Fellow, National University of Singapore
Dr. Paul Balcombe, Senior Lecturer, Clean Energy, Imperial College London
Dr. Julio Friedmann, Chief Scientist, Carbon Direct

Moderator:

Olivier Denoux, Chief Technical Officer, Elengy

10:30 - 12:00

TP03 - Operations, Best Practices, Process Safety

Location: Technical Programme Theatre C

Speakers:

Fahad Al-Salman, Director, Operational Excellence, Saudi Aramco
Dario Giordano, HSE Director, SAIPEM
Peter Wilkinson, Founder, RiskWise Solutions
Dr. Satyajit Satapathy, Principal Engineer, BakerRisk

Moderator:

Timothy Truong, Sr. LNG Technology Manager, Bechtel Energy

10:45 - 11:45

SP03 - Seas of Change: LNG Shipping in an Evolving Energy Landscape (TBC)

Location: Auditorium 1

Despite the obvious requirement to support growing LNG trade, the LNG shipping industry faces a complex mix of challenges that will define its future. What are the key issues driving the sector's transformation and what are the short- and long-term strategies needed to maintain a competitive edge? This panel session brings together some of the shipping industry's top voices to discuss:

- How do LNG shipowners and operators balance long-term regulatory compliance with operational feasibility?
- What impact do LNG demand fluctuations have on freight rates, trade routes, and long-term contracts?
- How can the LNG industry attract talent and leverage AI, blockchain, and automation for greater efficiency?
- How can the industry provide investors with confidence that LNG shipping will provide stable, long-term returns?

Speakers:

Abdullah Al-Sulaiti, CEO, Nakilat (TBC)
Mark Cunningham, Chief Executive Officer, Kpler (TBC)
Andy Dacy, MD & CEO, J.P. Morgan Global Transportation Group (TBC)
Chung Kisun, CEO, HD Korea Shipbuilding & Offshore Engineering (TBC)

Moderator:

Maria Angelicoussis, CEO & Owner, Angelicoussis Group (TBC)

10:45 - 11:45

SP04 - North America's Gas Market on the Rise (TBC)

Location: Auditorium 2

With the North American gas market projected to grow by over 30% in the next decade, investments across the value chain are set to accelerate as industry players position themselves for new opportunities. This session will explore:

- The evolution of the North American market, from rising data centre demand to expanding LNG exports
- Key investment opportunities across the gas value chain
- The impact of North America's evolving market on global gas and LNG dynamics

Speakers:

Greg Ebel, President and Chief Executive Officer, Enbridge (TBC)

Dan Amman, President of ExxonMobil Upstream Company and a Vice President of Exxon Mobil Corporation (TBC)

Anatol Feygin, EVP & CCO, Cheniere Energy (TBC)

Freeman Shaheen, President, Chevron Global Gas (TBC)

Moderator:

Charlie Reidl, Executive Director, Center for LNG (TBC)

12:00 - 13:00	Lunch
13:00 - 14:00	PL04 - Beyond Transactions: Achieving Success Together: Cultivating Strategic Partnerships in LNG

Location: Conference Hall

The LNG industry's success is built on a foundation of diverse partnerships, ranging from buyer-seller relationships to joint ventures and government collaborations. Our panel of experts will delve into:

- How different types of LNG partnerships have evolved and are evolving to create long-term value
- Strategies for fostering innovation and addressing industry challenges through collaborative partnerships
- The role of strategic alliances in enhancing market resilience and adapting to changing global energy demands
- Ways in which partnerships between industry participants and host governments can drive sustainable growth in the LNG sector

Speakers:

Chairman of either Sinopec/CNPC (TBC)

Kenichi Hori, Representative Director, President and Chief Executive Officer, Mitsui (TBC)

Choi Yeon-Hye, CEO, KOGAS (TBC)

Jack Fusco, CEO, Cheniere (TBC)

Lorenzo Simonelli, CEO, Baker Hughes (TBC)

Moderator:

Dan Murphy, CNBC (TBC)

14:00 - 15:30	TP04 - Project Execution and Project Updates and Case Studies
---------------	---

Location: Technical Programme Theatre A

Speakers:

Dr. Eman Al Shammari, Engineering & Projects Advisor, Kuwait Integrated Petroleum Industries Company (KIPIC)

Dr. Philip Hagyard, Senior LNG Project Consultant, KBR

Tony Attah, Former CEO, Nigeria LNG

Madhav Acharya, Principal Program Manager, IFC – LNG Infrastructure

Moderator:

Dominique Gabelle, Vice President, Early Engagement, TECHNIP ENERGIES

14:00 - 15:30	TP05 - Commercial, Finance, Contracts
---------------	---------------------------------------

Location: Technical Programme Theatre B

Speakers:

Jason Feer, Global Head of Business Intelligence, Poten & Partners

Khalid Al-Kuwari, Chief Marketing & Shipping Officer, QatarEnergy LNG

Peter Abdo, Global Head, LNG Origination & Structuring, Uniper Global Commodities

Steven Miles, Partner, Baker Botts LLP

Moderator:

Andrew Walker, VP LNG Strategy and Communication, Cheniere Energy

14:00 - 15:30	TP06 - Gas Processing, Liquefaction and LNG Storage and Regas Terminals
---------------	---

Location: Technical Programme Theatre C

Speakers:

Pier Lorenzo Dell'Orco, CEO, OLT Offshore LNG Toscana

Murray Julian, Business Development Director, Hoegh LNG

Masaru Sasaki, Executive Officer, Engineering Division, JGC Corporation

Dr. Philip Hagyard, LNG Process Specialist, KBR

Moderator:

Javid Talib, Principal, JHT Consulting LLC

14:15 - 15:15	SP05 - EU Emissions and ESG Regulations: How do they Impact on LNG Trade? (TBC)
---------------	---

Location: Auditorium 1

EU regulations on emissions and ESG related matters continue to evolve and are expected to have significant impacts on LNG trade, regionally and globally. This session brings together industry experts to explore:

- How evolving regulation of CO2 and CH4 emissions will impact LNG flows into the EU and beyond, potentially creating a two-tier LNG market
- Whether the EU's approach will be adopted outside of Europe and the implications this would have
- Whether the EU's wider ESG regulations will have unintended consequences for security of gas/LNG supply in the region

Speakers:

Cristian Signoretto, Director, Global Gas & LNG Portfolio and Deputy COO, Natural Resources, ENI and President of Eurogas (TBC)

Catherine MacGregor, Group Chief Executive Officer, ENGIE (TBC)

Charlotte Wolff-Bye, Chief Sustainability Officer, PETRONAS (TBC)

Dr. Markus Kamieth, CEO, BASF (TBC)

Moderator:

Xi Nan Partner, Rystad (TBC)

14:15 - 15:15	SP06 - Fuelling the Future: Navigating the Evolving Landscape of LNG Project Financing (TBC)
---------------	--

Location: Auditorium 2

In ever-evolving global energy landscape, LNG project financing faces new challenges and opportunities in both established and emerging markets. This session brings together leaders from across the industry to:

- Assess the current attractiveness of LNG investments in light of shifting geopolitical dynamics and market conditions
- Explore innovative financing strategies and commercial arrangements to support project development
- Evaluate how project financing approaches impact the affordability of natural gas, particularly for consumers in emerging economies
- Discuss the influence of ESG considerations and the energy transition on LNG project financing and development

Speakers:

Jonathan Westby, Senior Vice President, LNG, JERA Global Markets (TBC)

Hamed bin Zayed Al Nahyan, CEO, ADIA (TBC)

Tatsushi Amano, Global Head of Energy & Natural Resources Finance Group, JBIC (TBC)

Fatema Al Nuaimi, CEO, ADNOC Gas (TBC)

Moderator:

Kristy Kramer, Head of Gas and LNG Consulting, Wood Mackenzie (TBC)

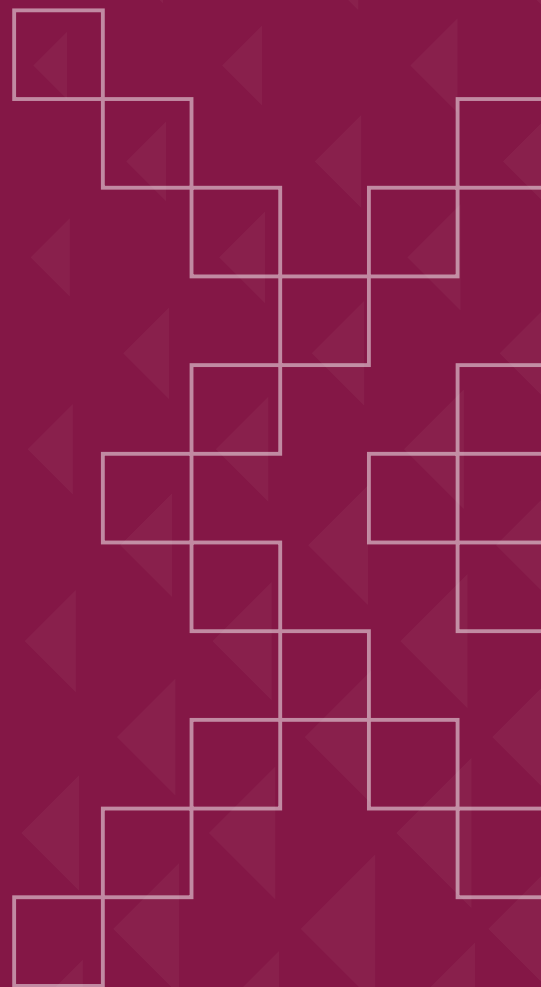

15:30 - 15:45	Break
