ABOUT GOVWARE EVENTS

GovWare Conference and Exhibition has grown into a key fixture in the cyber landscape and event calendar for Singapore and the region. Our success is evident through the continual expansion in government and private sector engagement and support, as well as the unparalleled quality participants from across APAC and other regions such as Australasia, North America and the UK. GovWare Conference and Exhibition has been featured as the industry trade event of Singapore International Cyber Week (SICW) since 2016

The GovWare platform also offers multi-channel touchpoints to deliver more timely and accessible engagement opportunities through targeted in-person activations such as the **GovWare Focus Series**, as well as our suite of **digital solutions**. Our commitment lies in bringing you the voice of the industry, the perspective of the users, and the experience of the leaders. And to them we carry your message of relevance and value.

"Collaborative platforms such as the SICW and GovWare serve as critical channels for regional alliance, especially as Asia continues to be one of the hardest-hit regions when it comes to cyber threats and breaches." *- Kevin O'Leary, Field Chief Security Officer Asia Pacific, Palo Alto Networks at GovWare 2019*

"Cybersecurity has never been more vital to Singapore's future, and GovWare has championed this important cause since the early days, long before it was the critical issue it is today. At FireEye, we appreciate the diversity of organisations and perspectives that GovWare delivers, and that's one of the reasons why FireEye experts have traveled to Singapore from around the world to speak every year for the past several years. Gatherings like this are critical to provide opportunities to exchange ideas and raise awareness about important cyber security challenges. We wish GovWare continued success in its next 25 years!" *- Eric Hoh, President for Asia Pacific and Japan, FireEye at GovWare 25th Anniversary*
