

Botanicals

by Gizzls

We believe that your pet's health and comfort should always come first. Our Botanicals range was developed to provide natural solutions for common dog ailments, without the nasty side effects of traditional prescription drugs.

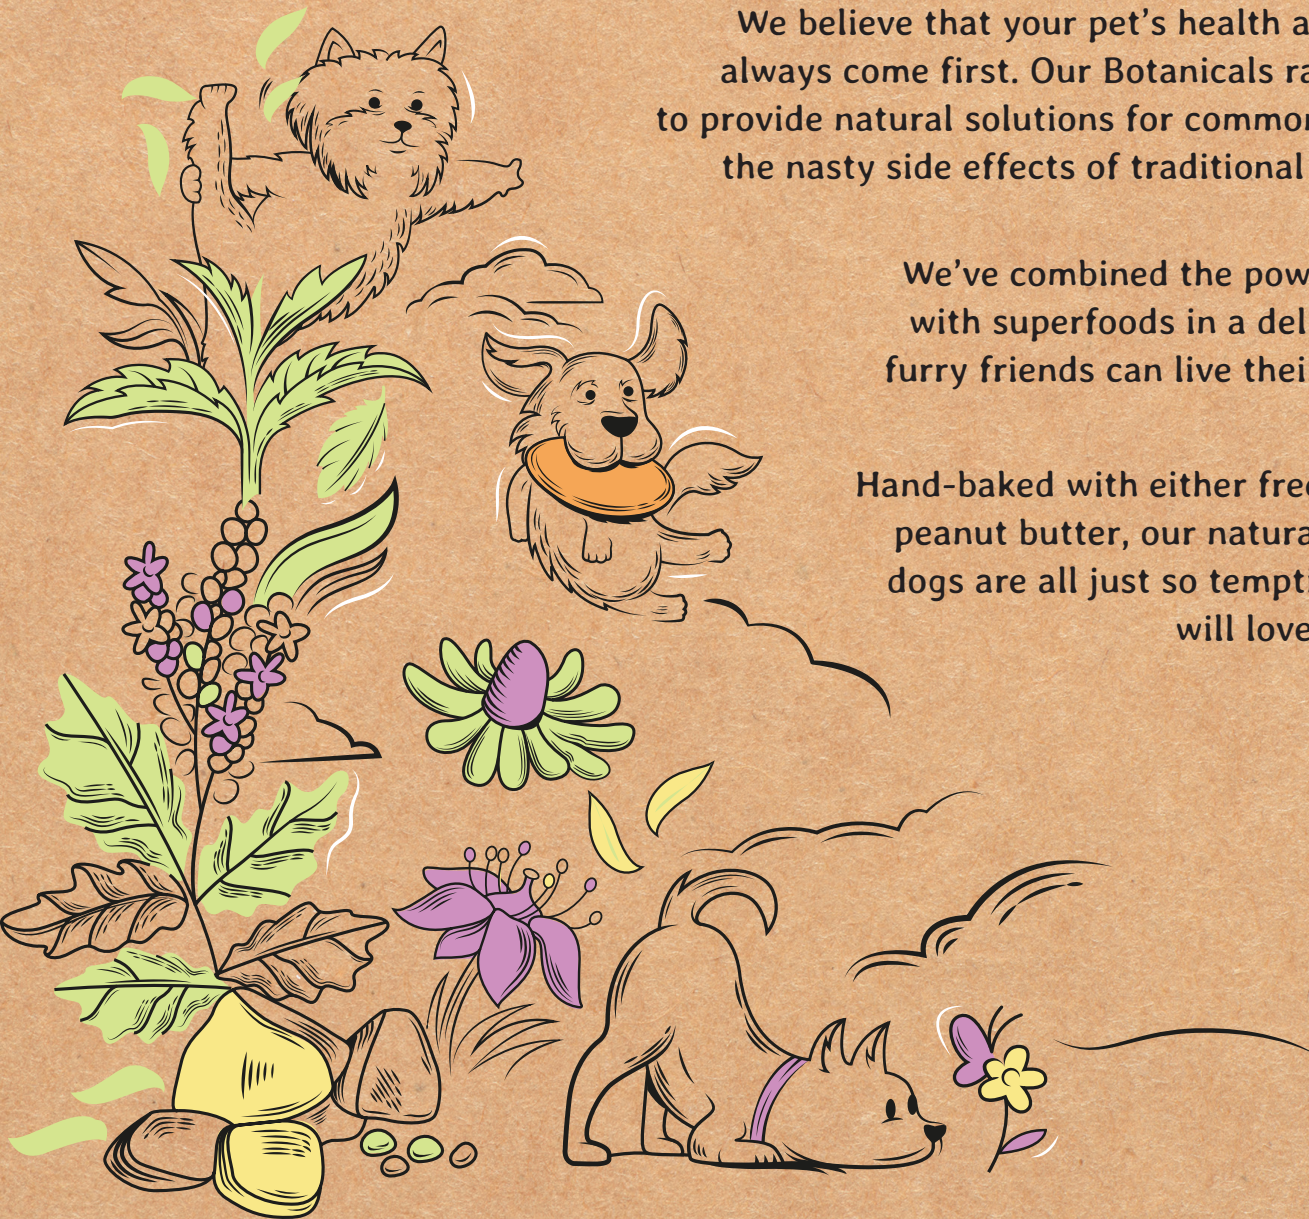

We've combined the powers of adaptogens* with superfoods in a delicious treat, so our furry friends can live their best possible lives.

Hand-baked with either free-range ostrich or organic peanut butter, our natural and healthy treats for dogs are all just so temptingly tasty – your pooch will love them.

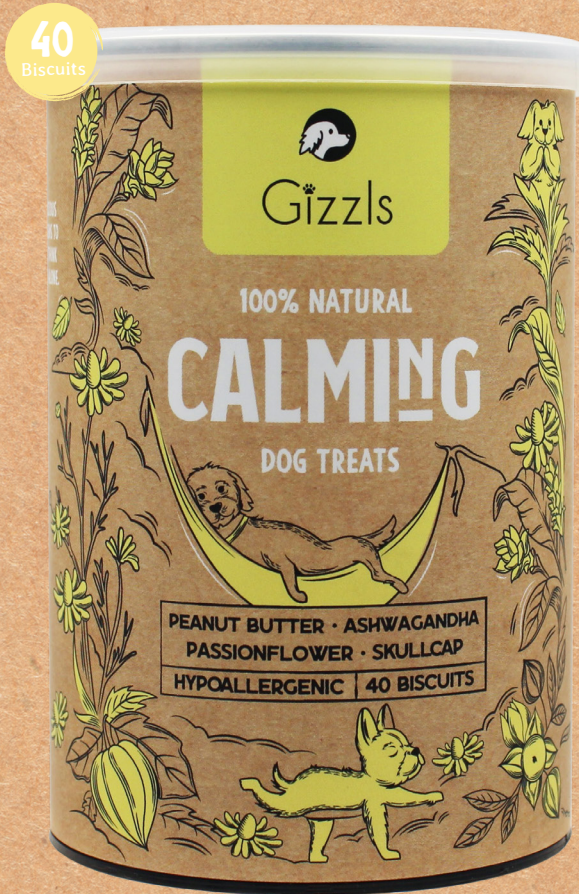

*Adaptogens are amazing little herbs that bring balance to the body and are seen as the superheroes of the herbal world.

They help to increase stamina, strengthen the immune system and improve the ability to withstand and recover from physical and emotional stress.

CALMING DOG TREATS

The perfect treat to help calm stressed dogs. A delicious peanut butter biscuit packed with natural adaptogens to help reduce stress responses in the mind and body. Think vet trips, fireworks, thunderstorms or being home alone.

Peanut Butter

Delicious protein, packed with heart healthy nutrients.

Ashwagandha

Works at a molecular level & reduces the stress responses in the mind & body.

Passionflower

Keeps levels of serotonin & dopamine high in the body. Supports the natural calming pathways within the nervous system.

Skullcap

Provides relief for stressed & restless dogs. Helps the body cope with stressful situations.

Turmeric & Black Pepper

A potent antioxidant which helps prevent oxidative stress.

Omega-3 Fish Oil (with EPA & DHA)

Helps reduce anxiety, depression & hyperactivity. Promotes a shiny, healthy coat & skin.
