

# Food & Bio Cluster Denmark

Co-funded by  
the European Union

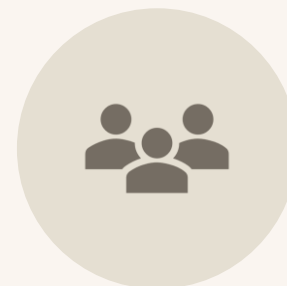

Virksomhedsudvikling  
Danmark

/nnovationsfonden

**A non-profit cluster organisation** working to promote **a sustainable future in bioresources**

**A collaborative platform for research and innovation**, connecting stakeholders across sectors – from businesses and researchers to government agencies and civil society

Provides a framework for **knowledge sharing, collaboration, and joint innovation**, fostering green growth across both land- and sea-based bioresources

**A mission-driven approach** addressing society's greatest challenges, with the aim of positioning Denmark as a global leader in the green and sustainable transition

The Danish Recipe for Green Food Innovation

# Ingredient no. 1
