

AUTOMATE & MANAGE FINANCED EMISSIONS FOR TRANSITION FINANCING

The banking sector globally faces increasing regulatory pressure. Meeting rising expectations and global sustainability standards requires enhanced climate disclosures. Navigating this landscape can be complex and costly for banks. Our software, Zero, streamlines climate disclosure and decarbonization processes, empowering banks to meet compliance efficiently. Zero unlocks opportunities for sustainable financing and improved sustainability performance.

- ✓ Measure & Analyze Assets' Emissions In line with PCAF
- ✓ Engage with investee companies
- ✓ Project Financed Emissions and Set Net Zero Targets
- ✓ Optimize your Financed Portfolio
- ✓ Identify opportunities for Transition Financing and Sustainable Investment

UNPARALLELED ANALYTICS FOR FINANCIAL INSTITUTIONS

- Emissions per asset class & industry
