

Elevate your strategic planning with ESG360°

ESG360° provides a holistic view of the ever-changing ESG landscape and gives its users real-time, decision-useful insights into the impacts of ESG issues on their business and value chain.

01. Measure

Send bespoke questionnaires to the relevant stakeholders to collect emissions data and other ESG metrics to ensure reliable and inclusive data from across your supply chain.

02. Collaborate

Engage your employees, leadership team, suppliers, and customers to improve accountability and promote a culture of cross-functional collaboration and engagement on ESG issues.

03. Analyse

Use expert insights to evaluate the commercial risks and opportunities of each decision to build long-term business resilience.

An innovative strategic ESG platform that goes well-beyond carbon accounting

ESG360° is a powerful, bespoke digital platform, founded on expert knowledge of the ESG landscape. The platform addresses the evolving needs of ESG teams and helps deliver an ESG agenda aligned to the latest ESG developments e.g. ISSB, CSRD.

Materiality

Capture and assimilate ESG issues to understand the factors most prevalent to your business and industry, anchoring them into your corporate strategy.

Net-zero roadmap

Turn data and insights into tangible competitive advantage and understand the impacts of decarbonisation for your business to support long-term resilience.

Scenario analysis

See further down the road to assess and mitigate physical and transition risks, and make informed, proactive short term business decisions.

Stakeholder engagement

Ensure board-level buy in and supplier engagement with holistic oversight and management of ESG data to ensure collaboration and reduce risks.

The result

A progressive, far-sighted, and evidence-based approach to ESG, incorporating and balancing the full spectrum of business needs.

ESG360° provides a clear view of ESG risks and opportunities, while pursuing a strategic, profitable commercial agenda.

ESG360 has helped us adopt a more collaborative, strategic and commercially aware approach to ESG, providing us with the intelligence and tools to better steer our ESG agenda.

Director of ESG,
FTSE 250 company
