

Tailored to your workforce

Bespoke E-learning

While our ready-to-use courses offer quick and effective way to get started, sometimes your training needs are unique. With bespoke course development, you can create learning tailored to your workforce.

From site inductions to safety campaigns, our experts partner with you to design training that's relevant, engaging and impactful, reflecting your industry, workforce and goals.

Benefits

- ✔ **Unified learning** – Reinforce your brand and culture across every touchpoint
- ✔ **Flexible delivery** – Deploy your way, without disrupting existing systems
- ✔ **High engagement** – Visually rich courses that improve learning retention
- ✔ **Quick deployment** – Rapid turnaround: training ready in days, not weeks
- ✔ **Train anywhere** – Train teams offshore, onsite or remote
- ✔ **One solution for all needs** – Deliver all training types with less duplication

Features

- ✔ **Branded learning** – Branded courses that match your training identity
- ✔ **Seamless deployment** – Flexible delivery through Chorus or your own LMS
- ✔ **Seamless migration** – Effortlessly move from legacy content without downtime
- ✔ **Mobile accessibility** – Fully optimised for smartphones, tablets, and desktop
- ✔ **Expert collaboration** – Work with Chorus subject matter experts or your own specialists to create accurate, credible content
- ✔ **Visually engaging content** – Interactive visuals, animation and scenario-based learning that reflect your operational environment
- ✔ **Multi-purpose training** – Suitable for site inductions, control of work, safety campaigns, procedure training, and new equipment roll-outs

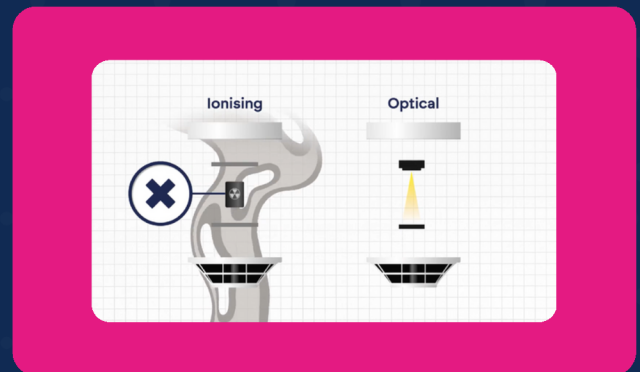

Site and procedure training

Deliver engaging, location-specific inductions and interactive modules that bring company procedure to life.

Control of work and equipment readiness

Tailored training on critical aspects of work control – from isolation procedures and risk assessments to the safe use of new tools and equipment.

Safety and compliance campaigns

Keep safety front of mind with ongoing awareness campaigns and compliance-focused learning.

Culture, wellbeing and sustainability

Offer a variety of learning experiences that engage employees and support a proactive workplace environment.

Sector-specific technical training

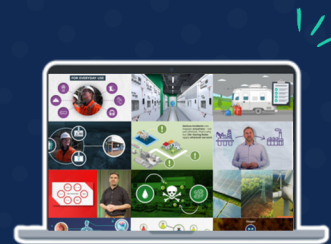

Build technical competence and confidence with training that covers everything from hazardous substances to renewable energy safety.

We'll build it for you

Our courses are designed to be engaging and impactful, reflecting your industry, workforce and goals. Our team of experts will help you develop digital learning in a format and delivery method that works for everyone. Some options include:

- Film and animation
- Gamification
- Augmented and virtual reality
- 3D modelling
- Adaptive learning
- Virtual classroom

Create your own academy

Customise your own academy with your own brand, using your own logo and corporate colours. You can shape a branded learning environment that feels familiar and engaging. Perfect for delivering your bespoke content, monitoring progress and supporting ongoing development.

Translation and language options available

With a range of translation and language options, Chorus makes it easy to deliver consistent, inclusive training across global teams.

Our courses can be fully translated, or subtitles can be added to English courses. We work with a range of external translation agencies to ensure clear and accurate content across all languages.
