SUSTAINABLE FUTURES WITH PEOPLE & DATA

# TALENT SOLUTIONS

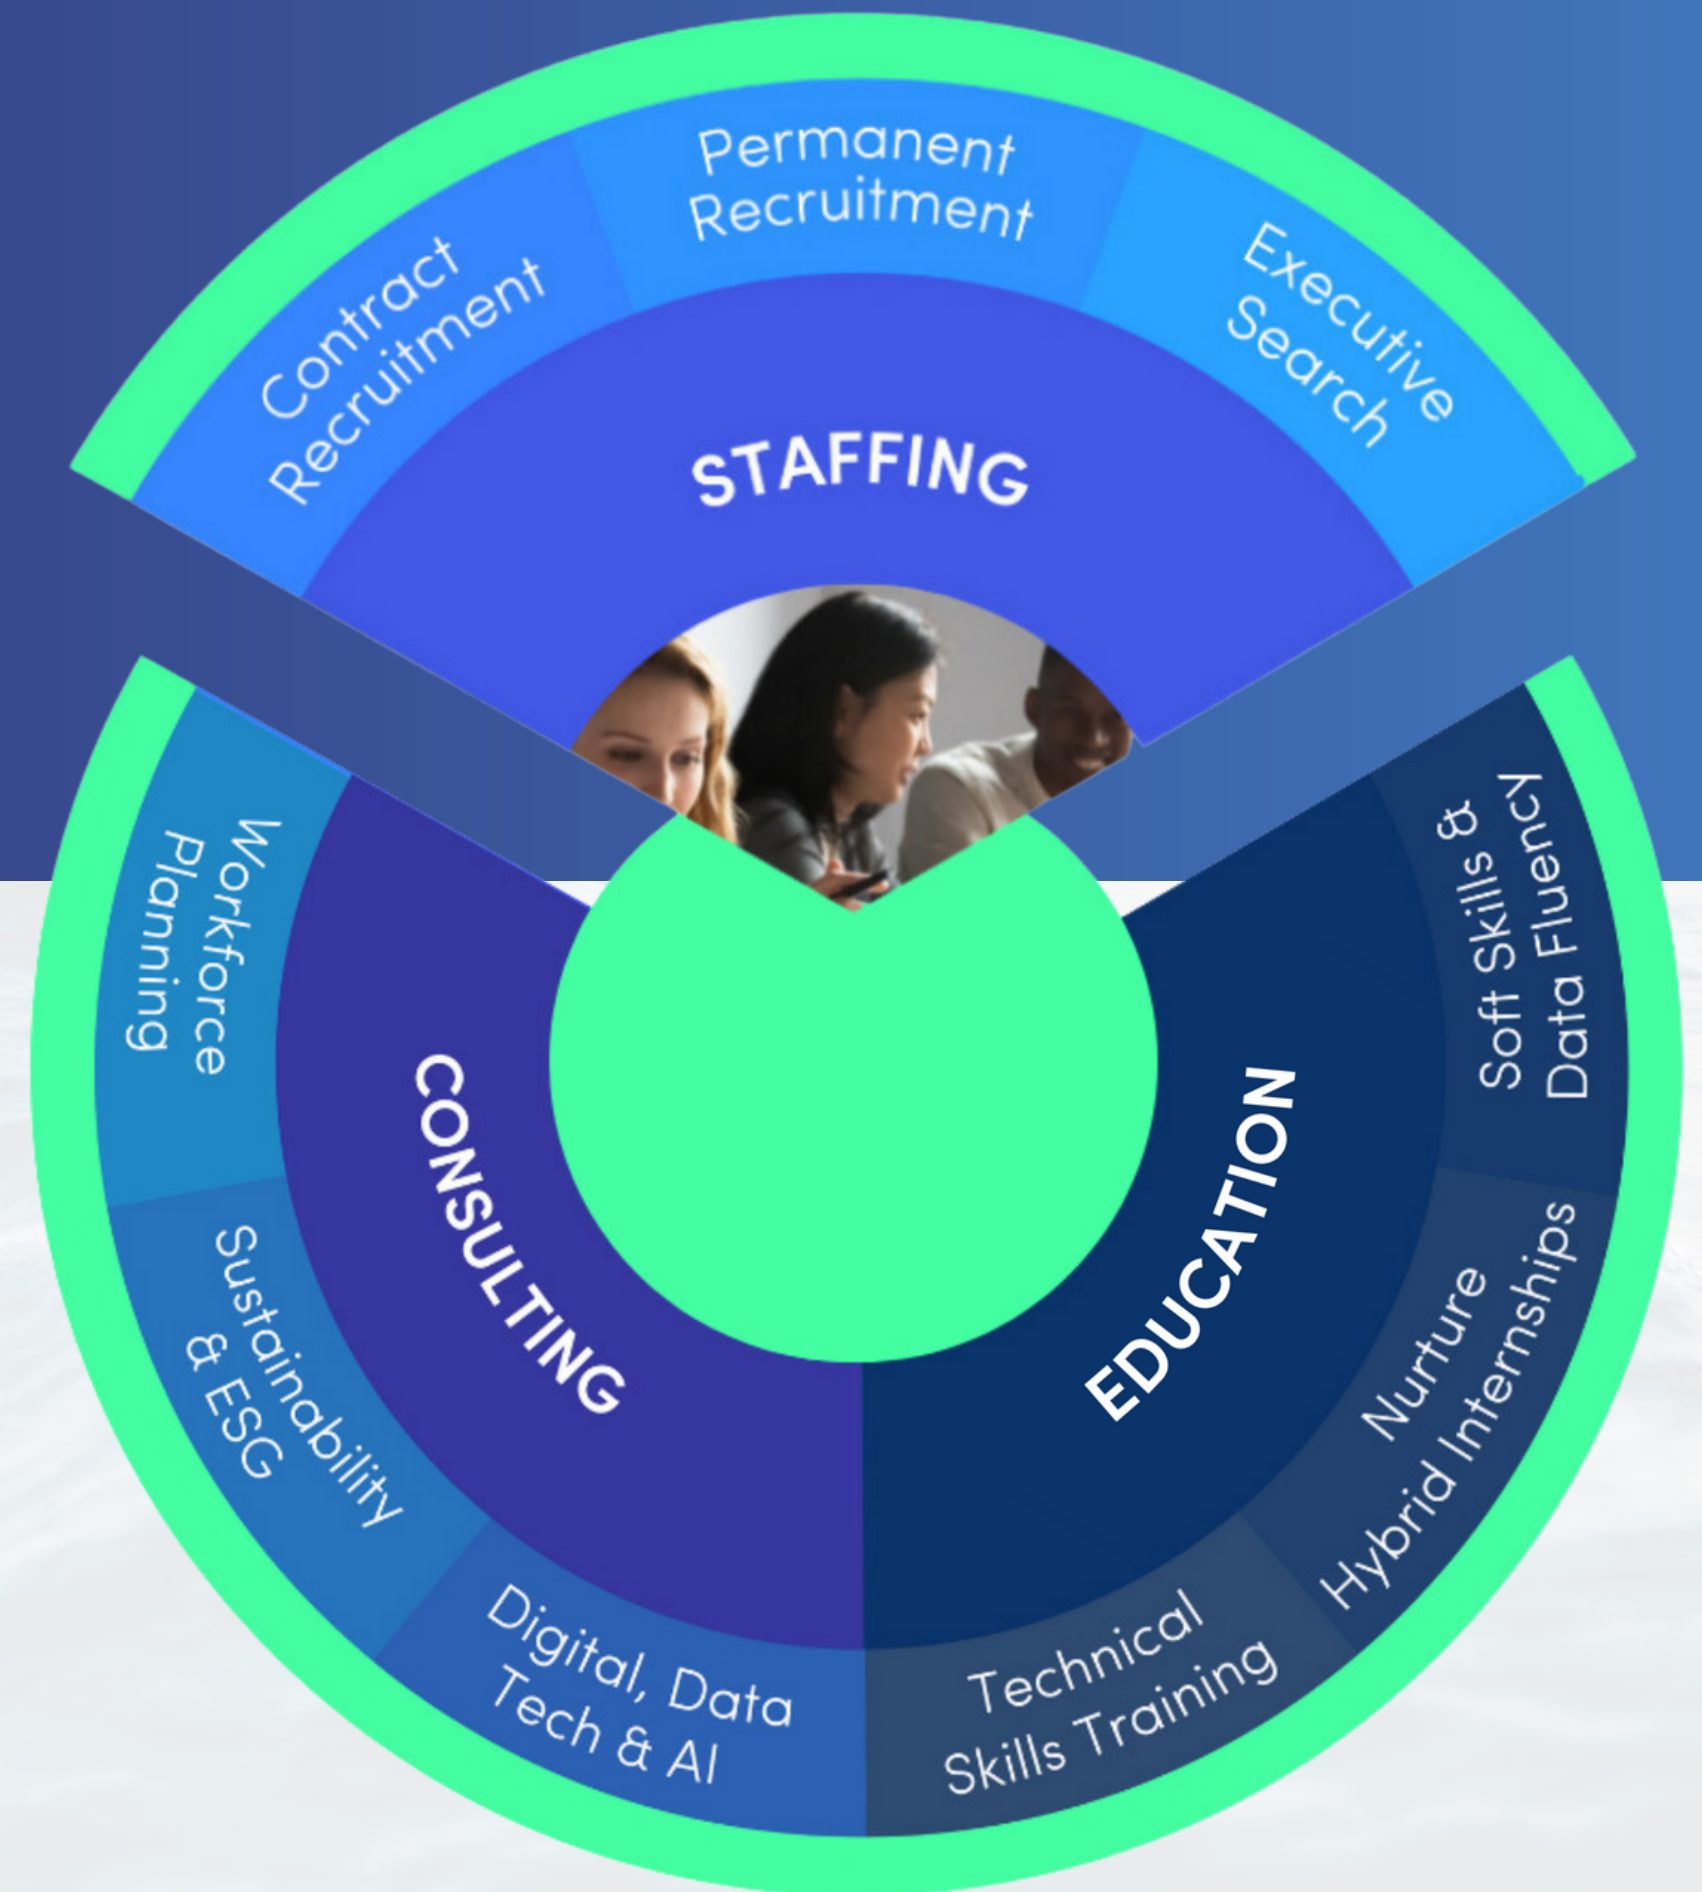

Recruitment with the human touch

## Building Data & Sustainability Teams

Our insight-led, consultative approach supports you to position your roles to attract top talent, even in candidate scarce markets.

We embrace technology to support our consultants to deliver an excellent experience that centres around communication. We use AI for automation of process and to create equitable systems but, not for alignment & selection. That requires the human touch.

Our PEOPLE are niche experts who deliver talented individuals. We have specialists across **executive search, permanent & contract resourcing.**

SUSTAINABLE FUTURES WITH PEOPLE & DATA

# JOB FAMILIES & SKILLS SUPPLIED

We specialise in recruiting and building teams across a number of evolving job families.

In a fast-paced, yet relatively young industry, we offer you our deep insights & advice to ensure optimum alignment with the market.

You have the flexibility to decide how to bridge a skills gap. Contract, Permanent & Executive Search

**Leadership & Change**

**Data Architecture & Engineering**

**Data Management & Data Quality**

**Data Science, BI & Analytics**

**Sustainability in Data**

# SMART INSIGHT COLLABORATION

Strategy, enablement & adoption
