£2.50 PLANTS A TREE IN RURAL KENYA

IT ALSO DOES THIS

plant
trees

build
schools

Trees in Kenya grow up to 10 times faster than in northern latitudes, absorbing 1/4 tonne of CO2 in 5-7 years.

The fruit, nuts and medicines from the forest also alleviate hunger and poverty.

Our solid stone buildings replace unsafe mud huts.

They create cool, conducive spaces for learning for young students and adults in the community.

facilitate
education

women's
empowerment

By enabling an adult to study ABC 123, we're able to significantly improve the life a person who didn't have an opportunity to go to school.

Income generation workshops and lessons on permaculture have proved to be life-savers too.

#TreesAreTheKey
to so much more
than mitigating our
climate emergency
when you
plant them with

Some of the most powerful benefits to society in Kenya can be measured via the raft of workshops and empowerment meetings we host for members of our Mothers of the Forest groups.

They reduce social isolation and depression, boost self-esteem and education, improve healthcare and well being. They're even driving down the rates of domestic violence too.

COUNTLESS CO-BENEFITS BEYOND CO2 REDUCTION

Reduce global heating and devastating extreme weather events by planting trees in rural Kenya.

Increase food and water security for the tree planting communities by using organic permaculture growing techniques.

Trees planted in Kenya boost biodiversity, create safe habitats for wildlife and clean the air we breathe, everywhere!

By creating gainful employment to build solid stone classrooms, we're giving the local economy a super-boost too.

**WE'LL CONNECT YOU
WITH YOUR TREES
NO JET REQUIRED**

ADDITIONAL BENEFITS

1 Offset your CO2 and move swiftly towards Net Zero and significantly improve your ESG metrics

2 Enable a richer eco-engagement with your board, stakeholders and workforce

3 Reduce fear and uncertainty about the climate's future and strengthen resilience

4 Validate your commitment to people before profit and facilitate eco-education

5 Lead the way with pioneering, eco-optimism and actions and reduce your eco-anxiety

6 Increase public awareness of your brand by displaying commitment to a healthy planet

business needs to change now so we can create a better future for all of our children

WATCH WORD FOREST IN ACTION

With assistance from Kate Winslet as narrator, learn in 12 minutes how Word Forest is actively mitigating the climate emergency. This short documentary shows the charity in action, planting trees, building schools, facilitating education and supporting a raft of women's empowerment initiatives across rural Kenya.

- 1 MAKE WORD FOREST YOUR CHARITY OF THE YEAR AND ORGANISE A FUNDRAISING EVENT - WE'LL BE THRILLED TO GET INVOLVED AND HELP**
- 2 CONSIDER USING US TO OFFSET YOUR CO2 AS YOU CONTINUE YOUR JOURNEY TOWARDS NET ZERO**
- 3 TOGETHER, LET'S CONTINUE REFORESTING KENYA AND TAKING CARE OF THE AMAZING PEOPLE WHO TAKE CARE OF THE TREES**

All organisations, regardless of size or the services or products they offer have a moral obligation and responsibility to employees, customers and suppliers, to decarbonise and aim for Net Zero.

Let's mitigate the climate emergency by planting fast-growing tropical trees that create a safer future for everyone.

Our lives and livelihoods are dependent upon it.
