SUSTAINABLE FUTURES WITH PEOPLE & DATA

ARE YOU AWARE?

HOW LONG HAVE YOU GOT TO TRANSFORM?

RISKS

ESG is a part of Sustainability. It's roots are in the investment markets but, finance has a very loud voice. It's outlining regulation demands quality, consistency, and audibility. Misuse of data in sustainability means risk and risk equals loss of revenue & fines!

REVENUE

51%

of economic growth is vulnerable & being eroded

RELATIONSHIPS

85%

of your emissions are in your supply chain. Also the % of consumers making sustainable choices

REGULATION

2024

marks the start of mandatory carbon data collection

DELIVERING SUSTAINABILITY

Staffing, education & consultancy

Company Overview

Eden Smith is a PEOPLE business with data & sustainability at our core. We work with business & data leaders to support enterprise transformation that enables organisations to be 'future fit'.

Our people-focussed approach embeds value, at every stage, as we work with you to engage, deliver and transfer knowledge. We do this by leveraging both data & sustainability.

Our products and services across staffing, consulting & education can be deployed individually or, as part of a package of strategy, enablement and adoption.

BE FUTURE FIT

Collaboration & partnerships are key to creating sustainable supply chains, systems & processes

ARE YOU STILL USING AN OLD OPERATING MODEL?

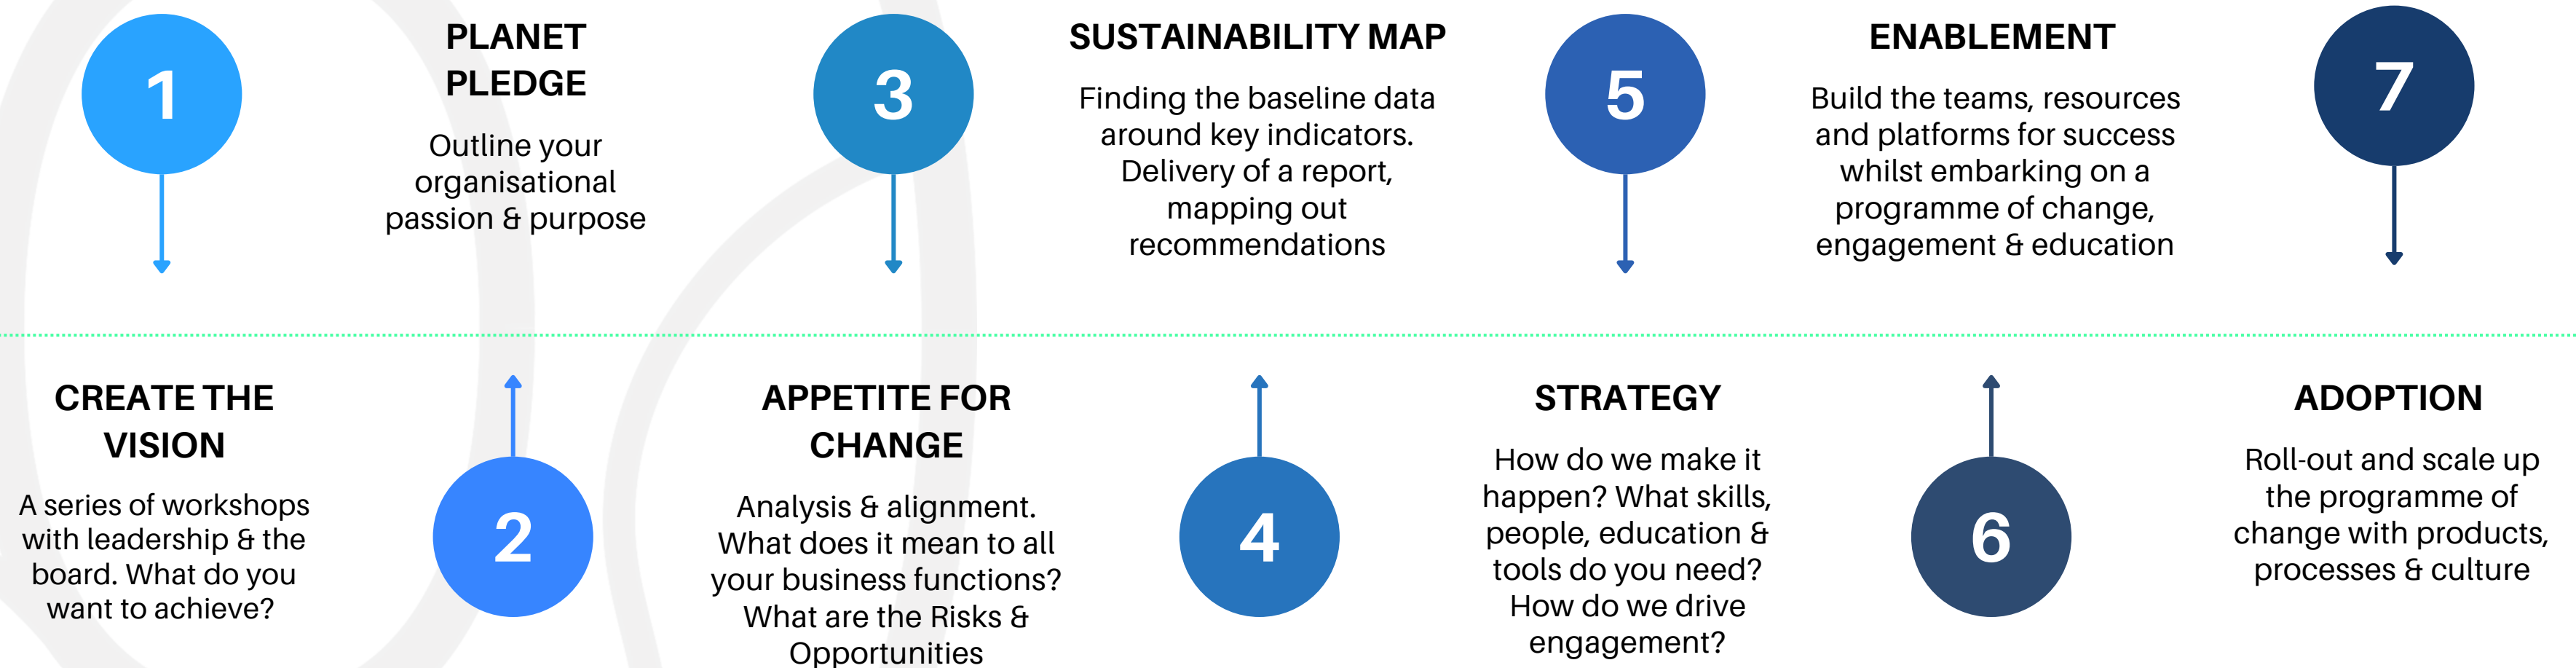

Concept Zero partners with your organisation and takes a 'future fit' approach to reviewing & understanding your purpose, processes & performance.

By understanding your starting point, and your goals, we can help define a path that prepares you for regulatory compliance and value impact.

We help you navigate the current state of permanent disruption, with a plan that moves through vision, strategy, enablement & adoption. A plan that weaves it's path throughout your organisation to protect your value and innovate into the future.

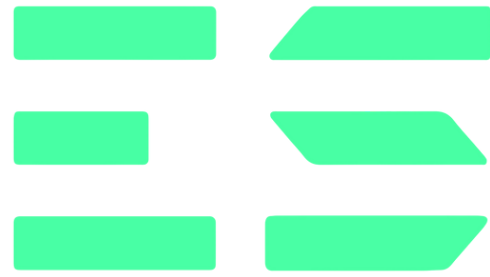

STEPS ALONG YOUR JOURNEY
