

CLIMATE CHANGE IS HERE, AND IT'S ALREADY ALTERING THE WORLD AT AN ALARMING RATE.

50% of the decarbonization to get to net-zero by 2050 will come from innovations and technologies that are still in their infancy. You need to make the right decisions, right now.

The Cleantech Group is the world's leading authority on cleantech innovation.

The Cleantech Group is a provider of strategic insights with deep knowledge to help you make **crucial decisions faster**

ABOUT US

Together we can build a more **sustainable world.**

Since 2002, our Research, Consulting and Events have propelled opportunities for sustainable growth powered by innovation to thrive in a more digitized, decarbonized, and resource-efficient future.

We help corporate strategy, investors, government and policy professionals, and innovators catalyze sustainable innovation opportunities.

While other research firms evaluate companies and technologies from a distance,
The Cleantech Group's insights come from being in the flow of conversations.

Our focus is on sustainable innovation including enabling technologies in

AGRICULTURE
& FOOD

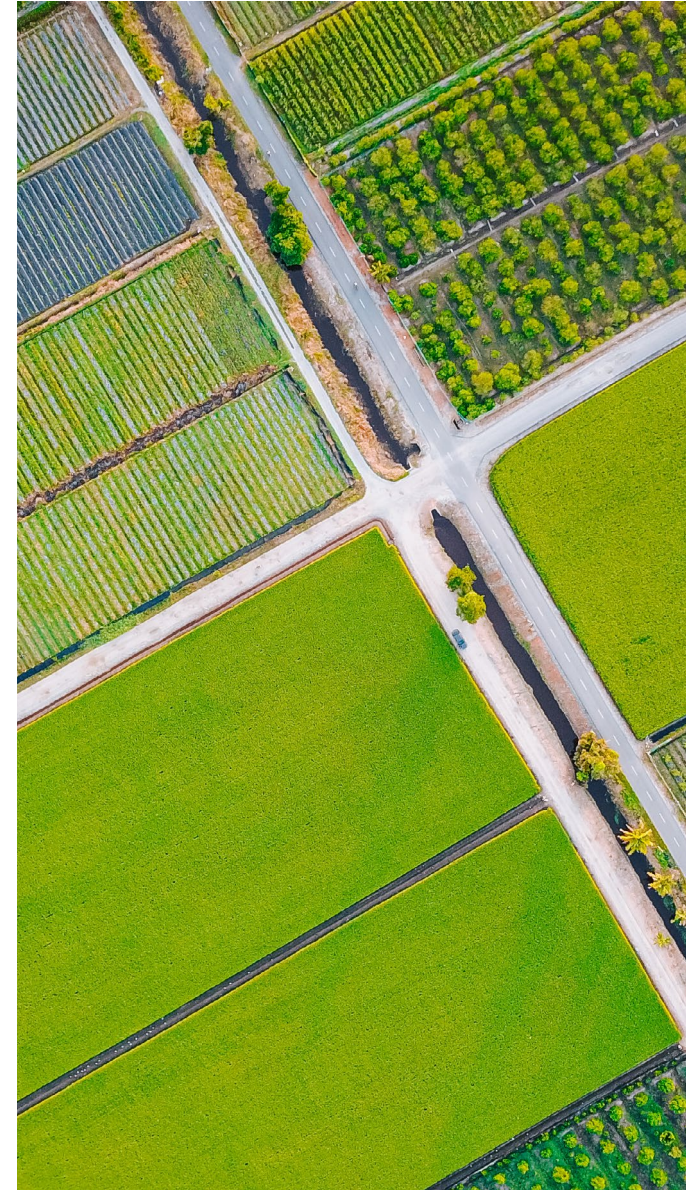

ENERGY
& POWER

MATERIALS
& CHEMICALS

RESOURCES
& ENVIRONMENTAL MANAGEMENT

TRANSPORTATION
& LOGISTICS

WASTE & RECYCLING

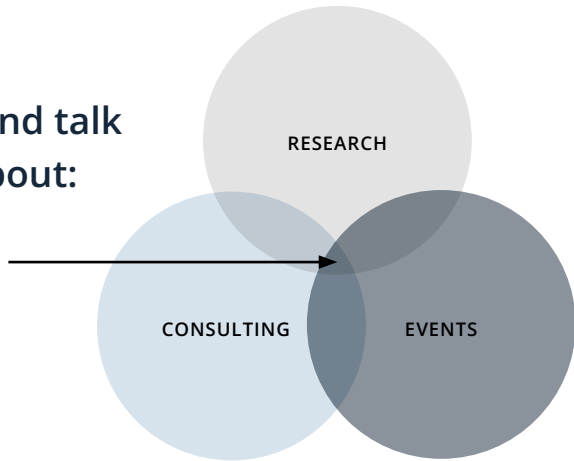

Enriching the **foundation** of your cleantech strategy

The top 5 ways we deliver value:

- 1 Our deep immersion in cleantech.** We are cleantech innovation specialists, rich in insight and bold in opinion. Generalists are often spread too thin. That's not us.
- 2 We are *the* independent authority.** We know that it's intelligence and dialogue that inform excellence in decision-making. Blink and you could miss the idea or the breakthrough. We're plugging you into live opportunities.
- 3 Our proprietary data.** Our Monitor service, powered by i3, includes market data on over 39,000 innovators, 22,000 investors and 60,000 deals. We conduct hundreds of research interviews every year across our ecosystem of entrepreneurs, investors, corporations, and governments. Access it all in seconds.
- 4 We're at the center of a living network.** We are not just data. Our Analysts and Advisors have deep expertise, and we help organizations understand and engage the global cleantech innovation ecosystem.
- 5 We're ahead of the curve.** The future of the cleantech ecosystem is emerging at hyper speed. By the time it's news, it's no longer the future. Being future-ready means having foresight and knowing what's about to happen before it does.

Come and talk to us about:

INTELLIGENCE

Research

The solution to information overload, our research cuts through the noise to monitor the market and deliver the insight you need on the themes central to your goals on markets, innovators, investments, trends, and the future.

Consulting

To de-risk the future and seize opportunities, leaders need to understand the impact the emerging future might have – only when they clearly see what's coming can they plan for the future.

Events

Cleantech Forums empower corporate change makers, investors, entrepreneurs, and innovative stakeholders to forge connections, change the narrative, make deals, and be part of an unforgettable experience.

SELECT CLIENTS

Our clients come from every part of the ecosystem.

CORPORATIONS
