

STEM ECOSYSTEM CASE STUDY

SHURE

coodart

SHURE

coodart

For more than 90 years, Shure Incorporated has developed best-in-class audio products that provide high-quality performance, reliability and value. Our history of innovation and expertise in acoustics, wireless technology, networked audio systems and digital signal processing, enables us to deliver seamless, transparent audio experiences.

www.shure.com

coodart was created out of belief that technology for consumers was getting simpler, yet for companies it was getting more complex, expensive and even more difficult to use. Our vision has always been that technology in companies should be as simple and easy to use in the office as it is to use at home.
