What's in it for you?

1   **AI, AR & Machine learning – Lessons from the real world**

2   **Digitalization in the control room**

3   **How to drive innovation in the control room**

# 1: AI, AR & Machine learning – Lessons from the real world

Defense

# Defense – More than situational awareness

Utility providers & AI

Control room impact

# Even the most advanced AI needs a human

2: Digitalization in the control room

The traditional control room

# Dynamic control rooms

3: How to drive innovation in the control room

Key factors for innovation

1 **Focus on the operator needs – not the technology**

2 **Challenge your teams to embrace change**

3 **Do you have the right procurement strategy?**

We are here to help the
world work *better*.
