## Who we are

The Global Signage Alliance is the **global not-for-profit industry** association **dedicated to promoting the different signage solutions** that its members offer. The GSA Members, all users of digital signage solutions based on the **Samsung Smart Signage Platform (SSSP) including Samsung MagicINFO**, are dedicated to **exchanging ideas, and sharing information and experiences to promote and increase the adoption of future-proof digital signage solutions.**

## What we do

With a strong participation of key industry stakeholders including solution providers in the areas of signage as a service, hardware distribution, software solutions, installation, integration and development services, and end-users (such as retail chains, corporates, educational institutes, healthcare, banking, etc.), the GSA combines the forces of all members to help realize the next generation of digital signage.
