

A large-scale concert stage for Rammstein's stadium tour. The stage is dominated by two tall, slender, black vertical towers that resemble industrial chimneys or smokestacks, each topped with a red light. The background features a large, dark screen displaying a white, stylized logo. The stage is illuminated with numerous red spotlights and beams of light, creating a dramatic and intense atmosphere. The foreground shows the silhouettes of a large audience of people watching the performance.

A LOOK BEHIND THE CURTAIN:
RAMMSTEIN'S STADIUM TOUR
