

Volan Smart Meeting Sensors are provided to assist with contact tracing measures while you are attending your sessions. Please ensure you are wearing the device for all organized meetings and as directed for evening social events. The sensors will be mandatory for all organized functions.

The sensor has been sanitized, charged and is ready to wear. For meetings lasting longer than two days, please use the USB charging cable to charge overnight to restore battery charge.

At the end of your last meeting, please return the Sensor to the Volan information table in the foyer.

Our Privacy Pledge

The highest level of privacy possible is the driving force of Volan's design

- No personally identifiable information is stored on the sensors
- Random ID numbers are assigned for locations, sensors and sites
- Sensors automatically disconnect outside of the geo-fenced areas
- Volan Technology does not have any access to personally identifiable information

Please see the Volan Technology Team for any additional questions, or visit our website at: volantechnology.com
