

We are making Baden-Württemberg international

- *Baden-Württemberg International brings business and science to the global markets and positions the state as an attractive location internationally – now and in the future.*

As central location marketing agency for business and science in and for Baden-Württemberg, we see ourselves as an organisation that shapes the future using a proactive and integrated approach and makes a key contribution to the development of a state that is progressive and fast growing in the areas of business and science. Our mission is to make Baden-Württemberg even more visible, attractive and resilient in the face of global competition as a location for business and science, to attract new stakeholders and to strengthen, support and assist local companies and scientific institutions on their internationalisation journey.

We invite you to visit the Baden-Württemberg Pavilion at JEC 2023 in Hall 6 N71.1.

At the joint stand we are represented by 23 innovative companies from Baden-Württemberg. You can find more information about our exhibitors in the digital exhibitor flyer under the following link: [https://bw-i.yve-](https://bw-i.yve-tool.de/public_registration/17309?pw=Ga143411)
