

CompositesNL at the JEC World 2025.

The Dutch composites trade association organises the NL Pavilion with 18 leading companies on 200 m<sup>2</sup> in Hall 5 booth numbers F107 and F117. The Dutch are presenting their innovative composite ecosystem with a large variety of lightweight solutions.

New is the presentation of NXTGEN equipment for automated and digital production processes. On the NL pavilion there are daily presentations and panel discussions in morning and afternoon sessions of 30 minutes. Inspiring, Innovative and Interactive.
