DK Holdings Limited exhibiting at JEC WORLD 2024 at Composites UK Pavilion

DK Holdings Limited, ISO-accredited manufacturer of Precision Diamond Tooling is pleased to be exhibiting at JEC WORLD, the leading International Composites Show.

“We are excited to be back at JEC WORLD in 2024”, Sales & Marketing Manager John Emptage tells us. “Face-to-face networking with our global partners in the Composite industry is vital as it enables us to understand their requirements and develop Diamond tooling solutions to optimise production processes as well as assisting with new projects”, John continues.

“You’ll find us at Composites UK’s Pavilion in Hall 6, Stand S62/T62, for the first time since becoming members in 2023 which we are very much looking forward to. Attending as part of the UK trade community for the composite sector enables us to work with our fellow members exhibiting and share what innovative projects we have in the pipeline for our 65th Anniversary Year. Come and meet the team in Paris in March – Andrew Gentle, Julia Loeser and I are looking forward to seeing everyone there”, John concludes.
