

DUNA CORRADINI AT JEC 2024 (L24 H5)

SUSTAINABILITY AND TECHNICAL PERFORMANCE FOR YOUR COMPOSITE SOLUTIONS

Polyurethane foams, liquid systems, adhesives and epoxy resins, combining technical performance, sustainability and ease of application: this is what DUNA-Corradini stands for, since 1957.

Thanks to the **technical expertise, R&D investments and cutting-edge products** manufactured in 4 plants worldwide (Italy, USA and UAE), the DUNA Group is able to support the Composite industry in its most challenging international projects.

At JEC 2024, DUNA will present international professional with its latest solutions, developed to anticipate the clients' needs and with utmost attention to the Environment. On our Stand, visitors will find **CORALIGHT600®**, the new **SUSTAINABLE high density PUR boards made by UPCYCLING** of secondary products, **DUNAPOL® T**, the renewed range of **STYRENE-FREE high density** polyurethane systems for the **structural reinforcement of laminates**, the **CORAFOAM® high density PUR and PIR foams** (80-600 kg/m³) for modeling and prototyping, and the **BLACK CORINTHO® tooling boards'** range.

From 5th to 7th May, visit us at Booth (L24 H5): please book your appointment [here](#)
