Exhibitor Concerns: Leads and Engagement

Challenge 1

Concerns about the
number of leads captured

Challenge 2

Anecdotal feedback
and requests for better
conversations

Why do they feel this way?

Exhibitors lack auxiliary metrics that paint the complete picture of their performance.

Lead count

|||||

What about

- Aisle Traffic?
- Number of Visitors?
- Engagement?
- Time spent?

Organizers need to provide metrics like the following.

Aisle traffic and booth visits for each zone

Dwell time and attendee energy

Average number of leads captured

Additional data and metrics paint a better picture of the show value.

Reporting Data

Each exhibitor receives a report based on their booth location. These reports include key statistics and recommendations.

Awareness

Number of Aisle Impressions

Traffic

Number of Booth Visits

Opportunities

Average Number of Leads Scanned

Engagement

Dwell Time and Attendee Energy

Boost Revenue

Retention

Demonstrate ROI to facilitate renewals

Easy Add-On

Justify price changes and offer new packages

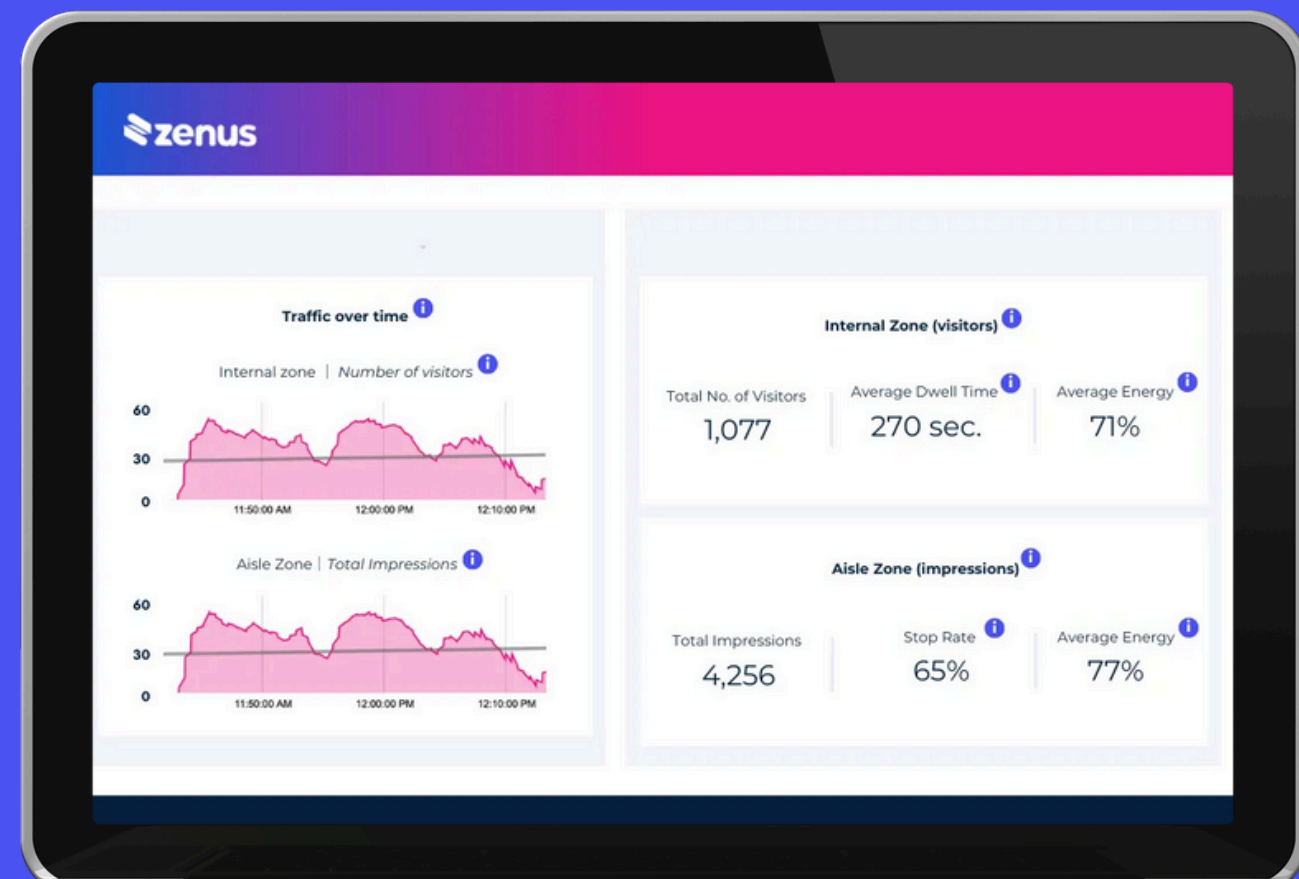

Stand-Out

Differentiate to gain new exhibitors

The event sales team has informed conversations with sponsors and exhibitors to facilitate renewals and add new accounts.

Simple Process. Big Impact.

The information is also available via a real-time dashboard.

Pre-show

Review the floor plan to determine sensor placement.

On-site

An AI sensor is set up every few booths to collect data.

The sensors analyze traffic, dwell time, and energy.

Post-show

Zone reports and insights are shared with exhibitors.

An internal report is privately provided to the organizer.

Deployment Logistics

Installation takes 12-15 minutes when a (regular) power socket is available

Key Specifications

- Zenus AI Box & High-Resolution Sensor
- 4G internet / WiFi connectivity
- 1-2 Megabytes per hour transmitted
- Offline mode with backups and database auto-sync
- Alerting system with email and text notifications
- Uninterrupted Power Supply (UPS) for up to 1-hour of operation

**Trusted.
Safe.

No personally identifiable information is captured.

Video is never recorded, stored, or transmitted.

All data is aggregated and anonymized to comply with GDPR and CCPA.

The background is a solid pink color. It features several abstract geometric shapes: a blue diamond in the top-left corner, a light blue square to its right, a white semi-circle in the top-left corner, a white circle in the top-right corner, a white semi-circle in the bottom-left corner, a light blue semi-circle in the bottom-right corner, and a blue semi-circle in the bottom-right corner.

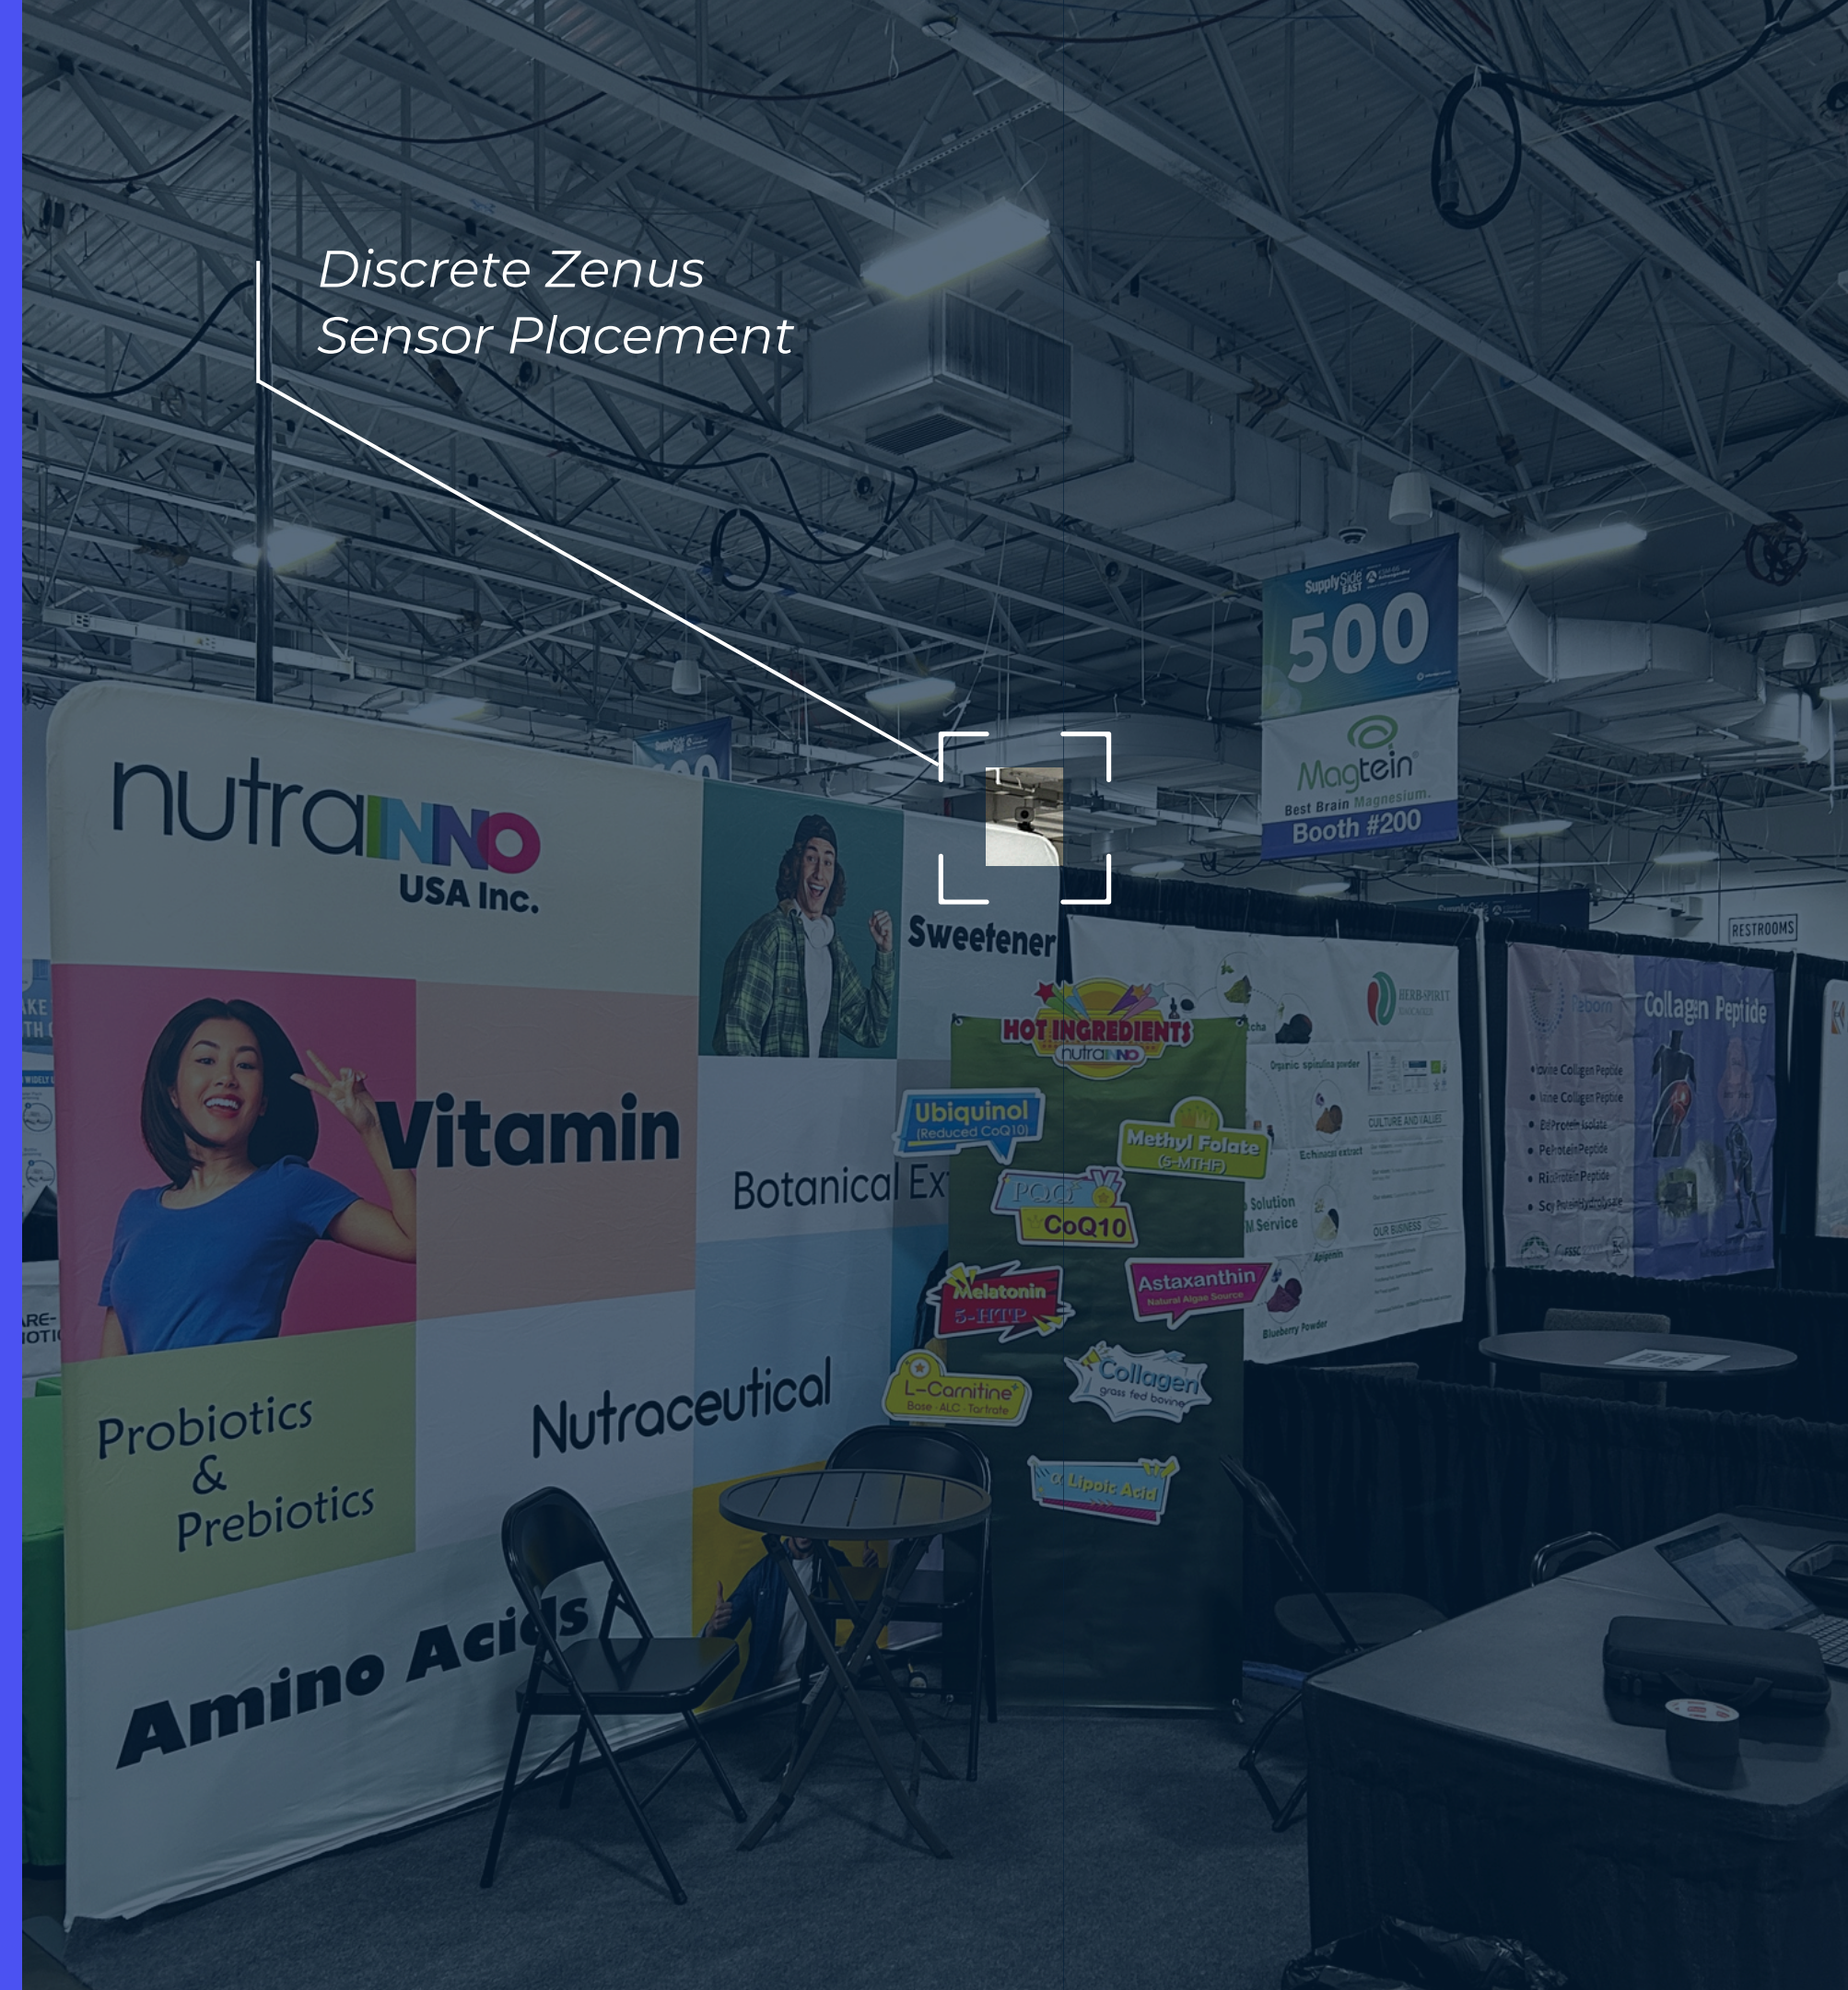

Case Study:

2024 Trade Show

2024 Trade Show Case Study

Overview

- **Size:** 300 Exhibitors
- **Location:** New Jersey
- **Date:** Spring 2024
- **Client:** For-Profit Organizer

2024 Trade Show Case Study

Challenges

- Justify Price Increases
- Address Exhibitor Objections
- Minimize Exhibitor Churn

2024 Trade Show Case Study

Solutions

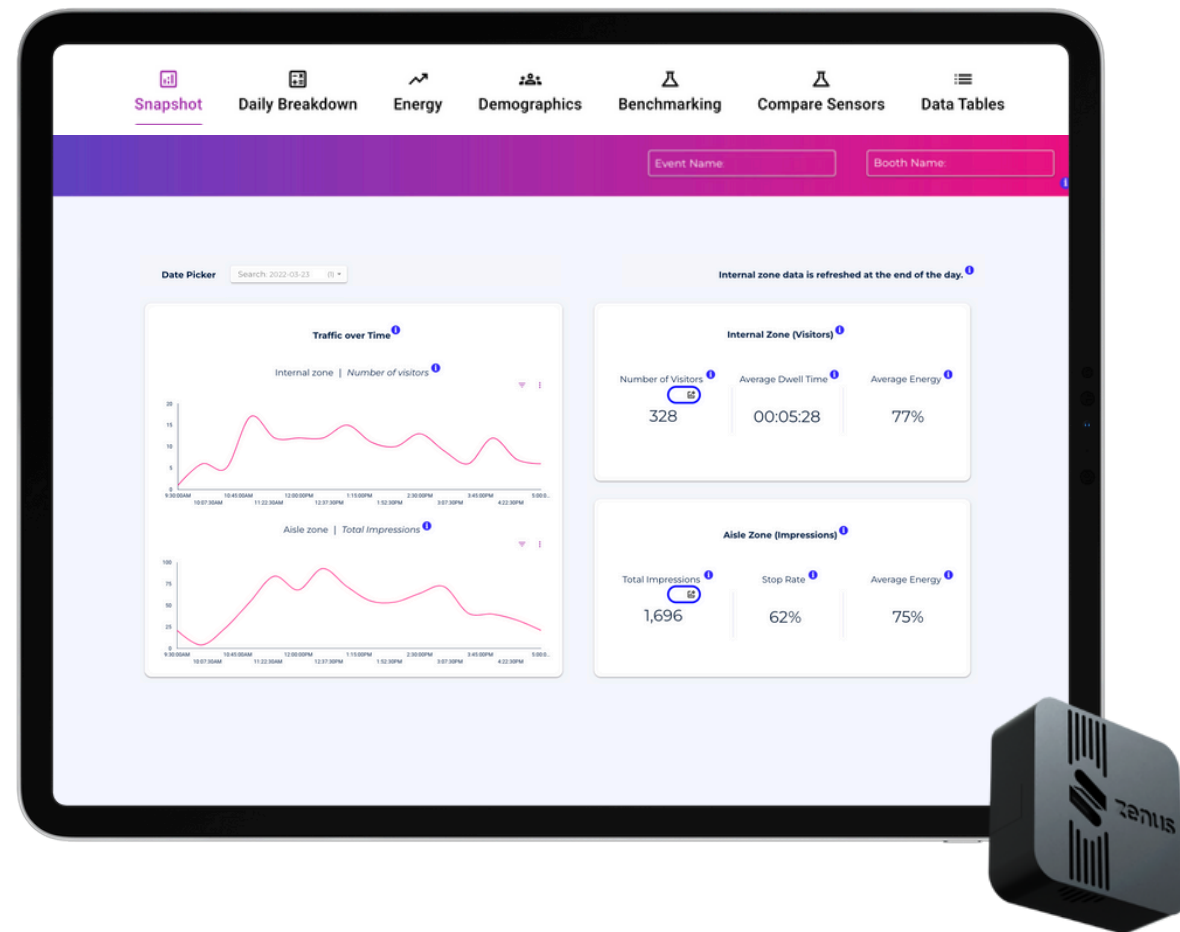

- Divide the floor plan into zones
- Install sensors in a grid to sample data
- Combine lead capture data

Event floor divided 12 zones

2024 Trade Show Case Study

Deliverables

- Report for each exhibitor with average zone performance
- Comparison data to highlight space for improvement
- Analytics to communicate the show impact
- New metrics and benchmarks to build upon

2024 Trade Show Case Study

Results and Insights

Sample Insights

Small booths
had the lowest
cost per lead

Large booths
captured the
most leads

Booths near the entrance
saw higher aisle traffic
but moderate leads

Booths on edges
captured the
most leads

Results

- Exhibitors loved the experience and requested receiving the same data at the next show
- The sales team used the insights to renew existing exhibitors and close new accounts

The Full Impact of Exhibitor Investment

Ethical facial analysis measures the behavior and experience of attendees at your show in fine detail and at a large scale.

- Show Floor
- Show Features
- Sponsor Areas
- Booths & Activations
- Aspects of Booths

Without data, your exhibitors have a hard time justifying further investment and improving.

With data, you are in a position to consult and be a true partner.

Incorporating data into exhibitor and sponsor packages can be an effective way to boost retention and expand into new accounts.
