- Formerly SVP, Product at Emerald Expositions

Agenda

eshow

- The World is Changing
- The Three Forces Reshaping Discovery
- The New Discovery Framework
- Three Immediate Actions

What was the last **substantive engagement**
you have had with an **AI chatbot**?

Personal or Professional?

What was it like?

How did it impact you and what you were trying to achieve?

eSHOW

The World is Changing

I need a volunteer

The World is Changing

TODAY | 2025

Search for events

Compare 3-5 options

Manually register

Book hotel

Book travel (flight)

Add to calendar

FUTURE | 2027

AI analyzes objectives

Compares using personal +
company data

Auto-registers + books
everything

Manages calendar + sets
meetings

She never visits event
website

*"Today is the **worst** AI will ever be."*

AI Task Capability: Doubles every 7 months

Your Event Planning Cycle: 12-15 months

Your 2027 event will compete against AI *that is 3-4x more capable than today*

The Three Forces Reshaping Discovery

What's your #1 concern

— about AI's impact
on event marketing?

A

Losing visibility
in search

B

AI recommending
competitors instead

C

Not knowing how to
optimize for AI

D

Not enough budget/
resources to adapt

E

AI replacing human
decision-making
entirely

The Wake-Up Call

40.1% ← Reddit

23.5% ← YouTube

26.3% ← Wikipedia

= 89.9% of where AI gets its facts

Source: Semrush analysis of 150,000 AI citations

The **New Discovery** Framework

OLD FUNNEL (2023):

NEW FUNNEL (2025-2027):

Three Immediate Actions

1

Build Presence Where AI Learns

- Reddit (40%)
- YouTube (23.5%)
- Wikipedia (26%)
- And stay flexible

2

Create Content AI Can Cite

- Stats
- Expert quotes
- Structured docs
- Discussions

3

Track your AI Visibility

- Set up tracking
- Monthly checks
- Measure & iterate

The question isn't whether AI will change event discovery.

It's whether YOUR event will be discoverable when it does.

Good event organizers optimize for today.
Smart ones prepare for tomorrow.

The eSHOW logo is located in the top left corner, featuring the word "eSHOW" in white lowercase letters inside an orange rounded rectangle.A woman with dark hair, wearing a black blazer over a white shirt, is smiling and looking down at a smartphone she is holding with both hands. She is wearing a watch on her left wrist and a necklace. The background is a blurred office setting.

eSHOW

Imagine
It's 2027...

Discussion:

An AI agent is deciding
between **YOUR** event...
and three competitors
—in **2 seconds**—
without visiting any websites

- *What data does it use?*
- *Where does it find it?*
- *How do you win?*
