MedApp
Occupational Health Software

What is MedApp?

MedApp created by Advanced Medical Services is an Occupational Health software platform. Our platform is a cloud-based solution designed in collaboration with occupational health professionals. MedApp dramatically reduces administration of common OH daily tasks. MedApp allows Occupational Health departments to easily manage and track all **pre-employment, vaccinations, health surveillance, referrals, encounters & clinic visits** and much more in one efficient, secure platform.

EASY TO USE
Streamline your occupational health workflows and processes, such as scheduling, surveillance, case management, reporting.

EFFICIENCY
Significantly reduces all administrative tasks for the OH team.

ENVIRONMENTALLY FRIENDLY
All information is stored digitally, removing the need to print to paper. This not only reduces your carbon footprint but also reduces costs.

SECURITY
Protect the confidentiality and privacy of your employees' health information in one secure location.

REPORTING / INSIGHTS
Achieve a 360° view of each department / location showing the health of your workforce.

INTEGRATION
No need to manually enter/update employee details on MedApp. We can integrate with or accept an export file from your HR or Payroll system.

PRE-EMPLOYMENT
Candidates can complete pre-employment questionnaires online, remotely. Following review, assessment appointments can be scheduled and managed.

REFERRALS
Fast Referrals to support earlier intervention and return to work.

DOCUMENT SCANNING & UPLOADING
We have processes in place to make all your paper files easily accessible on MedApp.

MedApp helps you to:

- **Pre-Employment** online PEM questionnaires...
- **Streamline** the way you manage your employees' health risks
- **Implement** medical surveillance initiatives
- **Record** all encounters / cases of injured / sick employees
- **Manage** all GDPR requirements

.....all in one efficient secure platform.
