

# Gymba® Board

Takes office ergonomics to another level

## Unlike anything else

The Gymba Activation Board is a versatile, revolutionary product designed to improve office ergonomics and it has many scientifically proven health benefits. Its patented cross-flexibility enables walk-like movement which makes it unique and unlike any other product on the market. The Gymba board can also be used as a footrest.

## The perfect addition

The Gymba Activation Board pairs perfectly with a standing desk and it is the perfect addition to have in your catalogue to offer the best, complete solutions for your customers. Consumers are extremely pleased with the product and the feedback we get is very positive from both retailers and consumers. The board is also internationally awarded.

## Product info

The Activation Board is both designed and manufactured in Finland and comes in seven different colors. It is made out of bio-composite and is fully recyclable which makes the board an ecological choice that today's customers value. The board is high quality and is covered by a five-year frame unbreakability guarantee when used as intended.
