WELCOME BACK TO THE UK'S #1 DENTISTRY EVENT!

We have some exciting and truly unique features this year, making this an unmissable event—no matter your role in the dental practice, career stage, future aspirations, or clinical interests.

The 300+ exhibitor showcase will feature dental suppliers and manufacturers you won't find at any other major dental event in 2025– miss them here, and you won't see them until at least 2026! They'll be among hundreds of teams presenting the latest innovations, exclusive show-only promotions, and live demonstrations.

Bringing together over 130 of the brightest minds and leading clinicians, this event offers 67+ hours of GDC-compliant, CPDcertified lectures across eight curated theatres. Engage in debates on industry challenges, explore cutting-edge techniques, and discover solutions to grow your practice. Highlights include the ADI Implantology Zone, the BACD Aesthetics Theatre, and world-class speakers such as Professor Brian Cox and Minister of State for Care Stephen Kinnock. Back by popular demand, the Clinical Excellence Workshops offer hands-on training with the latest products, materials, and techniques.

With 8,000+ attendees, this is the UK's must-attend exhibition to hear from the industry's leading voices, save money for your practice, and connect with the entire dental profession under one roof.

REGISTER YOUR FREE PASS TODAY!

dentalshowcase.com #BDIADentalShowcase25

WHY VISIT THIS MARCH

MEET 300+ DENTAL SUPPLIERS.

Your one-stop-shop to meet the experts and discuss solutions to improve your practice and elevate the provision of oral care for your patients.

8 EDUCATIONAL FREE-TO-ATTEND THEATRES.

Don't miss our sponsored areas: ADI Implantology Theatre, BACD Aesthetic Theatre, Chief Dental Officer Zone & Theatre & Solventum Hub and Clarity™ Aligners Lounge

HANDS-ON WORKSHOPS ON RESTORATIVE DENTISTRY.

Exclusive hands-on courses on the clinical application of the latest restorative materials and solutions delivered by leading manufacturers and renowned clinical key opinion leaders.

130+ EXPERT SPEAKERS.

An inspirational line-up of the most talented clinicians and recognised experts from multiple specialities and disciplines in dentistry.

Handle, test and discover new products, equipment, and the solutions available to accelerate your practice. Meet your suppliers and try new equipment before making purchasing decisions for the year ahead.

SAVE £££ & SOURCE THE INDUSTRY'S BEST DEALS OF THE YEAR.

Discover what's new in UK Dentistry and purchase products at the most competitive prices.

NETWORK WITH 8000+ PROFESSIONALS.

Build long-lasting relationships and catch up with friends at the main meeting point of the year in UK Dentistry.

SPEAKER HIGHLIGHTS

The 2025 Education programme brings together the brightest minds and leading clinicians from the dental community and provides an invaluable platform to discuss the industry's biggest challenges, debate the latest techniques and find new ways to grow your practice. Don't miss hearing from some of our key speakers across the comprehensive 2-day programme.

PRODUCTS, OFFERS AND NEW LAUNCHES!

TRIOS 5 Wireless

Exhibitor: **3Shape** Stand: **G29**

This is the scanner that sets a new standard in patient protection and infection control. It is not only hygienic by design, but also smaller, lighter, and designed to fit perfectly in every hand. On top of that, it comes with our new ScanAssist engine for perfect scan results, and TRIOS Share, for ultimate connectivity. Simply hygienic. Simply ergonomic. Simply effortless. Simply TRIOS 5!

Ulticlean 500L

Exhibitor: **B.A International** Stand: **D12**

Dental Scaler & Air Polisher Modern approach for prevention, cleaning and minimally invasive prophylaxis treatments.

- Efficient and comfortable plaque removal
- Dual water supply
- $\boldsymbol{\cdot}$ Comfortable treatment for your patients
- Lightweight, three-section air polishing handpiece for easier cleaning
- Automatic identification of scaling mode
- Range of titanium alloy tips and accessories

Itero Lumina intraoral scanner

Exhibitor: Align Technology Stand: G41

Discover the next generation of digital scanning technology at Stand G41 – the iTero LuminaTM scanner pushes the boundaries of what intraoral scanners can do.

Powered by iTero Multi-Direct Capture[™] technology, iTero Lumina scanners combine multi angled cameras to offer a 3x larger field of view1, allowing you to scan effortlessly at twice the speed2. All of this, together with photorealistic scans thanks to advanced optics, is packaged in a small and light wand for elevated user and patient comfort. Visit the Align Technology stand to try it for yourself.

- Compared to the iTero Element[™] 5D imaging system with tolerance AVE=±0.1 operating at a working distance from 0-20 mm.*
- Compared to the field of view of the iTero Element[™] 5D imaging system, when the iTero Lumina[™] intraoral scanner's scanning distance is 12 mm.*
 *Data on file at Align Technology, as of November 15, 2023.

Micro Smart Single Surgery Dental Suction System

Exhibitor: Cattani ESAM UK Limited Stand: F51

Micro Smart has proven itself to be the most flexible, reliable and powerful single surgery, variable speed suction system available, using only the power required reducing power consumption and heat generation.

- Control the power using the keypad: Digital display informs the user of the amalgam container level,operating temperature, and hours worked for accurate servicing.
- 3 programmable vacuum levels to choose from: Low volume for orthodontics / saliva ejection, Medium volume for conservation procedures, High volume for oral surgery and implantology.
- Wi-Fi connection enables professionals to check the following without leaving the surgery via the free Cattani App: Status (including running hours, machine temperature and current vacuum setpoint), Alarms (including amalgam container level, Servicing and maintenance requirements, Select vacuum level required and Request technical support.

PRODUCTS, OFFERS AND NEW LAUNCHES!

HyFlex EDM OGSF Sequence File System

Exhibitor: **COLTENE** Stand: **E30**

OGSF Sequence The new HyFlex EDM files Designed to be used as a sequence

The HyFlex EDM file system offers a tailor-made solution for fast and reliable preparation of simple as well as complex root canal anatomies. Evidence shows that by applying checklists and following standard procedures, reproducibility and safety are increased. Based on this awareness, COLTENE offers new HyFlex EDM files designed to be used as a sequence with one, straight forward protocol.

The new HyFlex EDM OGSF sequence includes a new Orifice Opener and Glidepath file for opening the glide path, as well as a Shaping file for shaping the root canal over the full length. The defined treatment procedure makes the preparation easy and keeps the learning curve short. Due to the optimized match of tip sizes and tapers, designed in cooperation with Prof. PedullĀ, the files provide a smooth feeling when shifting from one file to another and help you to keep control over the treatment.

- Efficient treatment with high cutting performance
- High fracture resistance and flexibility
- Centred preparation of the canal
- $\boldsymbol{\cdot}$ Only one shaping file Sterile blister
- 2 lengths: 21 and 25 mm

Our team of specialists at Hague Dental have over 25 years' experience working on squat and refurbishment projects. We provide turnkey solutions that are tailored to your individual requirements.

Designers, equipment specialists, project managers, specialists trade teams, and dental engineers come together to deliver your project on time and budget.

Multi-Purpose Heater

Exhibitor: **Deo Dental** Stand: **A40**

This multi-purpose heater has three functions: fast heat mode, standby mode, temperature memory and allat the touch of M (Mode).

The Deo Dental multi-purpose heater is manufactured using medical grade polycarbonate and come with a two year guarantee and is fully recyclable.

Features:

- Digital indicator display
- Accurate temperature control
- Fast heat mode to minimise heating time
- Standby mode to conserve power when not in use
- Temperature memory to automatically recall the last set temperatureÂ
- 4 Different settings for different products (using M) mode
- Removable cover to prevent and reduce heat loss
- Smooth medical grade Polycarbonate wipe clean exterior surfaces for hygiene
- Removable electrical power cord
- Capacity: 550 ml
- CE Approved
- RoHS / EMC / LVD / REACH / cUL

Rhein83

Exhibitor: Implantiem Ltd Stand: K19

The Rhein83 OT Equator system represents a breakthrough in dental prosthetics, offering the smallest and most versatile attachment solution on the market. Engineered for precision and simplicity, it provides implantologists and dental labs with a dependable option for a wide range of clinical applications.

With exceptional retention, easy maintenance, and seamless adaptability across implant systems, the OT Equator is designed to enhance both workflows and patient satisfaction. Its compact design ensures superior comfort for patients while maintaining robust performance.

Join us at stand K19 during the BDIA Showcase to see how Rhein83's OT Equator is revolutionising the dental industry. Let innovation start here!

Ceramir CAD/CAM

Exhibitor: **Directa Dental Group** Stand: **E20**

Ceramir CAD/CAM BLOCKS are a new type of CAD/CAM material. They are manufactured using advanced patented laser sintering technology, creating a single glass phase material embedded in a hybrid matrix. This results in that Ceramir CAD/CAM BLOCKS have the strength of particle infiltrated ceramics (lithium disilicate), the aesthetics comparable of feldspathic glassceramics, but without the brittleness of pure ceramics, and with the flexibility similar to dentin (20 GPa), which reduces tension during masticatory load and creates a shock-absorbing effect, decreasing occlusal stress.

Ti-Max Z95L

Exhibitor: **NSK** Stand: **J50**

NSK's range of turbines and contra angles meet all your restorative needs.

These include Ti-Max Z990 & Z890 high performance turbines, both are balanced and lightweight in the hand to reduce hand fatigue, yet deliver exceptional power and performance, effortlessly cutting through the hardest materials.

For an electric option, the lightweight Ti-Max Z95L 1:5 speed increasing contra angle in combination with a NLX micromotor offers outstanding torque and control for ultimate precision.

These handpieces each come with 3-years warranty as standard, but for NSK iClave (autoclave) users there is an additional year's warranty for free.

See the full range on Stand J50 at BDIA Dental Showcase 2025

T-Top 21Ltr Autoclave

Exhibitor: **Prestige Medical Ltd** Stand: **D38**

The T-Top & T-Edge tabletop autoclaves, offer a complete and reliable solution for instrument reprocessing. Designed to cater to the diverse needs of dental and medical practices, these sterilizers combine advanced technology, efficiency, and user-friendly operation.

Key Features:

- Versatile Capacities: From 21L, 23L, or 27L models to suit the needs of your practice.
- High-Performance Sterilization: Class B cycles ensure thorough and efficient reprocessing for a wide range of instruments.
- Advanced Connectivity/T-Connect: Cloud Based IOT support platform
- Intuitive User Interface: A touchscreen simplifies operation and cycle customization.
- Time-Saving Automation: Pre-set sterilization and test cycles to start at your convenience.
- Compact and Durable: Space-saving design fits effortlessly in any clinic setup while ensuring long-term reliability.
- Comprehensive Compliance: Meets stringent international standards for safety and performance.

Benefits:

- Complete Reprocessing Solution: Ensures your instruments are sterilized and ready for use, enhancing practice efficiency.
- Customizable Options: Multiple chamber sizes and advanced features adapt to your clinic's specific workflow.

PRODUCTS, OFFERS AND NEW LAUNCHES!

SENSE Technology

Exhibitor: Pure Vu Stand: C28

Both the RA and SOL lights are available with our SENSE technology, to control the light with a simple hand movement. I.R proximity sensors detect a hand to turn on, switch between high and low output and turn off. Not touching the light makes a vast difference to hygiene and expediency during clinical procedures.

Biodentine XP

Exhibitor: Septodont Stand: G30

Biodentine XP will ensure an easy and perfect mix thanks to its high-speed mixer and an easy delivery with the Biodentine Gun. The all-in-one cartridges are available in 2 formats (XP 200 & XP 500), depending on the procedure, the depth of the cavity and quantity needed. The ease of use and multiple indications of Biodentine XP from the crown to the root will help dentists every day to treat their patients.

Smartee GS Exhibitor: Smartee Clear Aligners Stand: D10

Smartee GS is an innovative clear aligner system designed to correcting severe Class II and Class III jaw discrepancy. This orthopedic solution is specifically designed to address malocclusions characterized by facial convexity, facial concavity and mandibular deviation. By leveraging its proprietary invisible mandibular repositioning technology, Smartee GS significantly reduces the necessity for invasive procedures such as tooth extractions or facial surgeries. It effectively corrects the jaw discrepancies while simultaneously aligning misaligned teeth, therefore shortening the overall treatment duration.

Amazone and Jumper Balance with Lumbar support

Exhibitor: **Score experts in seating** Stand: **D28**

The Score stools with the unique Score Balance mechanism can now also be equipped with an adjustable lumbar support, which was already possible

for regular forward-rearward Tilt mechanisms. The Balance mechanism creates 360° movement so that the seat follows the body when the point of gravity is changed. It can be easily adjusted to ones preference in movement by simply turning the ring to increase or decrease the resistance. The lumbar support is designed to slot perfectly in your lower back and can be adjusted in height and angle. It helps to keep a good working position during the workday (preventing slouching) and you may also find it nice to stretch your back in between sessions. Try the Amazone and Jumper saddle and the Ergoshape seat on the stand to find out which suits you best and improve your posture.

The SHOFU X-Factor

Exhibitor: SHOFU Stand: F21

An Xtra powerful team for direct fillings: Perfectly coordinated products with easy and efficient application for safe and aesthetic results – for the added plus in the daily practice.

Unbeatable Trio:

- BeautiBond Xtreme: All-in-one universal adhesive with high bond strength, suitable for all etching techniques.
- BEAUTIFIL Flow Plus-X: Versatile, fluoride-releasing hybrid composite in 2 viscosities, perfect for Class I-V restorations.
- Super-Snap X-Treme Polishers: Achieve a flawless finish with our enhanced polishing disks for ultimate patient comfort.

Explore the advantages of these innovative products, designed to simplify your procedures while delivering superior results.

Pearl Al Exhibitor: **Software of Excellence** Stand: **F50**

Software of Excellence is once again setting the standard for innovation and excellence by becoming the first Practice Management System (PMS) provider to deliver Integrated AI to the UK market. We have teamed up with Pearl, a global leader in dental AI solutions, to bring the most advanced dental artificial intelligence technology to practices like yours, before anyone else. Here are just a few benefits of integrating Pearl AI into your practice:

- Establish a Higher Practice-Wide Standard of Care: Implement smart technology to elevate the overall quality of care across your practice.
- Improve Consistency in Clinical Performance: Leverage AI clinical support to ensure consistent and accurate diagnostics.
- Boost Conversion & Patient Retention: Enhance patient communication and build trust through better diagnostic tools, leading to higher conversion rates and patient retention.
- Elevate Oral Health Outcomes: Detect diseases earlier and more accurately, improving overall patient health outcomes.

Postgraduate Dentistry at the University of Birmingham

Exhibitor: University of Birmingham Stand: C71

Learn from leading clinicians, scientists and academics in world-class settings as you benefit from state-of-the-art research facilities, a modern learning environment and cutting-edge technology.

We offer postgraduate programmes in Dental Materials Science, Restorative Dentistry and Endodontics.

The BeVigilant™ OraFusion™ System

Exhibitor: Vigilant Biosciences Stand: D61

The BeVigilant[™] OraFusion[™] System from Vigilant Biosciences promotes early detection of oral cancer by easily identifying the presence of salivary biomarkers associated with oral cancer in 10 minutes or less. The OraFusion System empowers practitioners to be at the forefront of early detection and improve patient assessment accuracy.

3M[™] Clarity[™] Precision Grip Attachments

Exhibitor: Solventum/KCI Medical Stand: G69

Unique 3D-printed attachment system is the first of its kind for clear aligners available exclusively for use with 3M[™] Clarity[™] Aligners.Flash-less bonding reduces steps and chair time — on average, our 3D-printed attachment system saves 12 minutes per bonding procedure.

Excellent stain resistance maintains esthetics for your patients, keeping their smiles clean and clear during treatment.

Each set of attachments is custom designed for each patient using Oral Care Portal, providing more precise results.

Impressive durability and high fracture strength helps the attachments maintain shape integrity.
