

Stand number
A56

We're exhibiting

17-19 September 2024 - FIL, Lisbon, Portugal

GSE EXPO EUROPE
BY THE GSE COMMUNITY FOR THE GSE COMMUNITY

www.gse-expo-europe.com

As part of our ambitious increasing footprint globally and to support existing clients we will be exhibiting on Stand A56 at the GSE EXPO 17-19 September 2024 in Lisbon, Portugal.

We envision a workplace that is efficient, connected, and safe through the development of wireless duplex communication systems.

With dBD's wireless systems, users can communicate untethered around the aircraft at ranges up to 150 metres.

This allows ground staff, engineers, inspectors, and pushback handlers to carry out their tasks uninterrupted.

By integrating wing-walkers and pushback tractors into their own communication chat network, safety risks can be reduced.

Come and meet David O'Connell our MD, Dimitri Balidis our Sales and Marketing Head together with Samantha Blackwell.

To book a time slot please email SBlackwell@dbdcommunications.co.uk

We looking forward to hosting you!

Why choose us?

Our wireless communications equipment has been manufactured since 2002 and we have a solid reputation for high-quality equipment and support.

Our engineers can develop customise products to increase your airside operational efficiency.

Each product is designed to reduce risk and improve engineering and maintenance efficiency.
