

One Tribe ECØS™: Sustainable Events. Made Simple.

Transform your events with our Emissions Calculation Offset Solution. Measure, offset, and report emissions while unlocking new revenue streams—all with zero complexity. Join industry leaders embracing sustainable event management.

The Event Industry Speaks: Sustainability Is Now Essential

72%

Expect Sustainability*

Participants expect event organisers to prioritise environmental responsibility

64%

Prefer Green Events*

Attendees would choose events with lower carbon footprints

81%

Demand Transparency*

Want organisers to provide more clarity on climate impact

88%

Responsibility Matters*

Believe events should take accountability for environmental impact

"We know we need to act on climate. We just don't have the tools to do it right."

— Event attendee, Innovation Zero 2025

"Sustainability is no longer a nice-to-have. It's something we ask about before signing up."

– Exhibitor, Confex 2025

* Based on the responses of 500 event exhibitors, surveyed at Confex 2025 and Innovation Zero 2025

Meet ECØS™ : The Emission Calculation Offset Solution

Built for organisers and exhibitors who want to take credible climate action, without added complexity

ECØS™ is a plug-and-play solution that helps you measure, offset, and report emissions across your event, while turning climate action into a new revenue stream.

Measure Emissions

Comprehensive calculation of stand, travel, logistics, and energy usage

Verified Offsets

Carbon neutrality through high-integrity climate projects

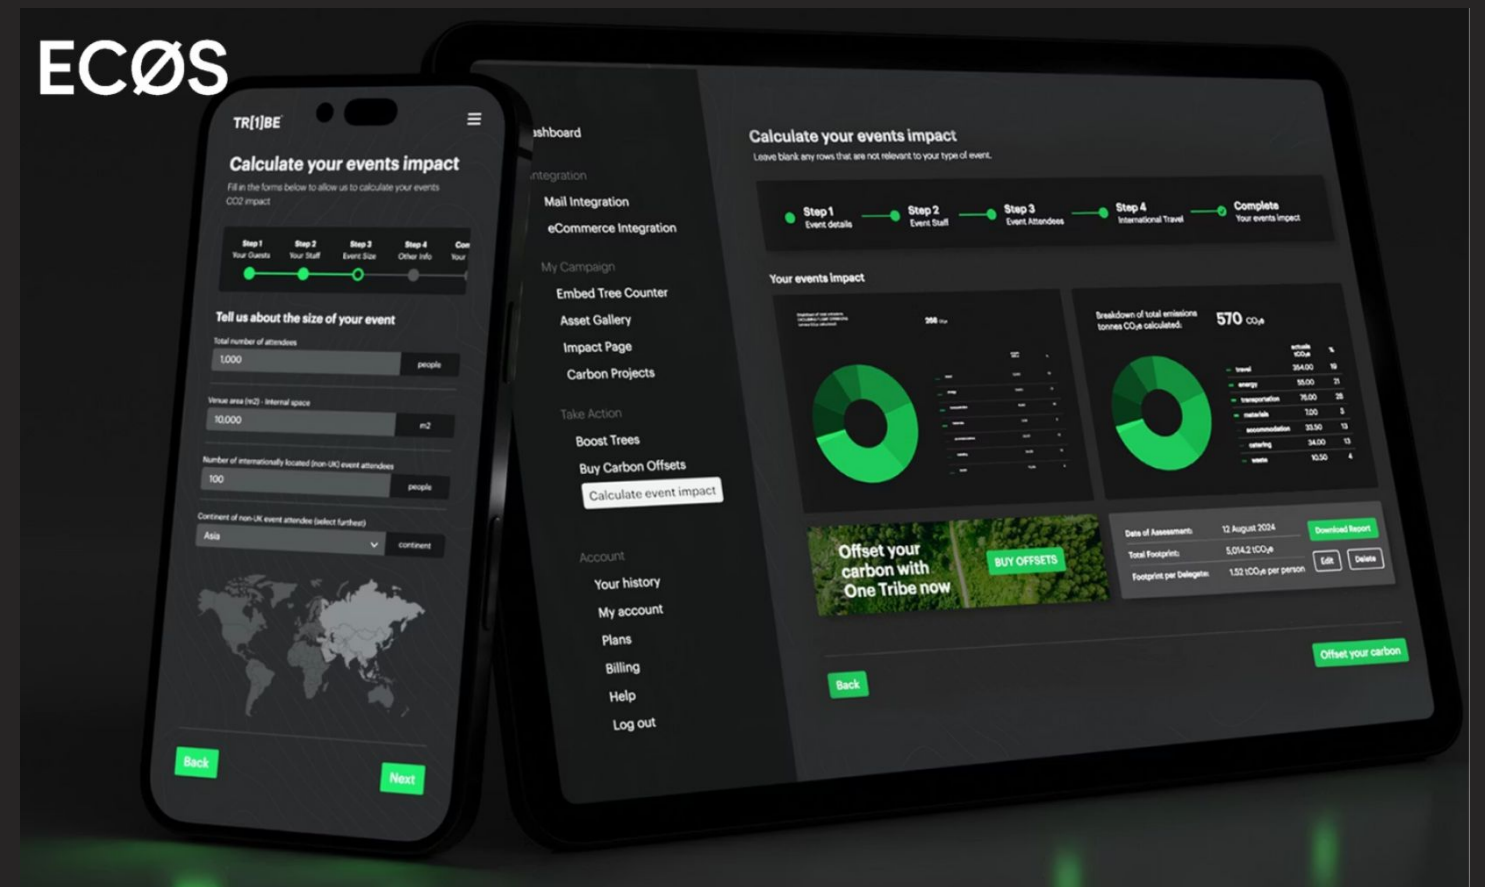

Carbon Certificates

Branded, shareable documentation for exhibitors

New Revenue

50/50 revenue share on every booking

How ECØS™ Works: Simple for Teams. Seamless for Exhibitors

Step 1: Integration

ECØS™ is added to your exhibitor booking or registration process with no tech overhead or disruption to your existing workflow.

Step 3: Certification

Verified offsets are applied, and carbon certificates are issued. Exhibitors and sponsors receive branded, shareable reports aligned with leading standards.

Step 2: Calculation

Emissions are calculated with our trusted third-party carbon accounting partner, ensuring full transparency, rigorous methodology, and accuracy.

Step 4: Results

You receive valuable insights and new revenue, with no extra administration required. Earn a share from each booking while delivering measurable climate impact.

We manage the process. You deliver the results.

Confex Turned Climate Intent Into £37K in Projected New Revenue for 2026

"As the flagship event for the industry, we wanted to lead on sustainability, not just talk about it. Partnering with One Tribe and using ECØS™ made it easy to measure, report, and offset our footprint across the entire event.

It was simple, fast, and helped us deliver real impact."

- Jack Newey, Confex CCO

With ECØS™, Confex made sustainability measurable and profitable, leading the industry by example. With ECØS, event organizers can diversify income, align with audience values, and strengthen financial performance — all through verified climate action.

- **Certified Impact**

Carbon certificates issued to every exhibitor

- **£37,000+ Revenue**

New income projected to be generated through exhibitor bookings for 2026

About One Tribe: Make Your Climate Action Count

One Tribe helps organizations turn climate intent into measurable action. We believe carbon action doesn't have to be complicated.

We support emissions measurement, offsetting, and reporting across **events**, **e-commerce**, and **business operations**.

We build solutions that make climate leadership simple, credible, and impactful — helping businesses act fast, prove results, and build lasting trust.

 We are one of only **27 organizations globally approved by ICROA**, the international body setting the standard for high-integrity carbon offsetting.

Our mission:

To empower businesses to lead on climate — with solutions that drive real-world impact, support global climate goals, and inspire trust.
