

The Meeting Pod Co manufactures its products on the Isle of Wight in the UK using recycled materials, installing a stunning range of contemporary office and outdoor pods providing private meeting space and breakout areas in open plan working and leisure environments.

Their modular design enables 2-person meeting pods to connect together providing 4, 6, 8 persons for larger pod sizes, with a full range of accessories such as tables, back panels, lighting and full glass acoustic enclosures. Each pod has the option to be made completely bespoke through colour and fabric changes, allowing the creation of a total unique space at competitive pricing. The Meeting Pod Co looks to maximise the most out of space available. Changing the way, we work, their unique acoustic foam interiors absorb background noise providing a flexible, semi or fully enclosed working space encouraging innovation, collaboration and ideas creation.
