

**Viaduct presents 'Viaduct House' at
Clerkenwell Design Week**

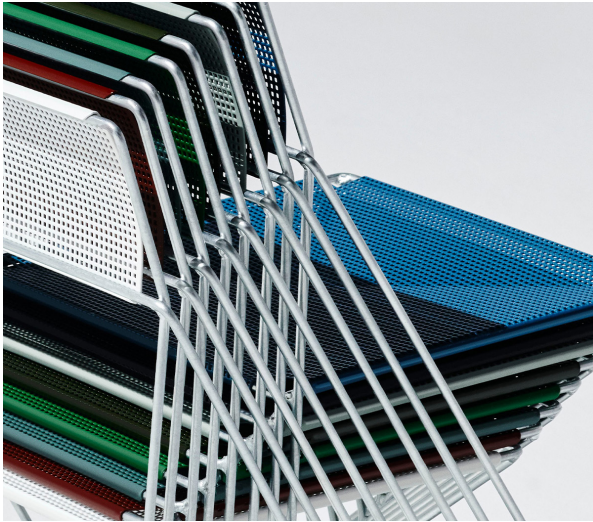

20-22 May 2025

Taking place in Viaduct's Clerkenwell showroom, 'Viaduct House' reimagines contemporary work and communal spaces, through a curated selection of furniture and lighting. The result is an environment that feels both calming and grounded with distinctive details adding depth and versatility.

Making its UK debut, the new Hay Palissade Cord collection introduces a sense of open-air relaxation, complementing co-working, hospitality, and lounge settings that balance refined aesthetics with everyday functionality. Rich textures and natural materials enhance warmth, while sculptural statement pieces anchor the space, reinforcing the exhibition's fresh yet enduring appeal. Designed for adaptability, each piece transitions seamlessly across different settings, showcasing a lasting relevance.

Featuring products from Hay, Acerbis and New Works, Viaduct will also celebrate new releases from designers David Thulstrup, Marc Morro, and Luca Nichetto.
