

About esPattio: The soft seating brand of the South

Transforming workspaces with Light, Colour and Warmth of the South, esPattio brings a humanistic revolution to modern offices and hospitality spaces.

Seville, April 15th, 2025. [esPattio](#) is the innovative soft seating furniture brand from [Forma 5](#) Group, crafted with the mission of infusing workspaces with the **light, colour, and warmth** typically found in the South of Spain. This vibrant collection of **creative, functional, and comfortable furniture designs** represents a departure from the traditional office furniture designs of its parent company, Forma 5. By blending contemporary aesthetics with a humanistic approach, esPattio transforms the ordinary office into an environment that encourages **interaction, collaboration, and inspiration**.

The essence of esPattio lies in its ability to **stimulate and comfort through design**. Each product is thoughtfully created to revitalize workspaces, making them more inviting and conducive to the needs of modern professionals. Drawing inspiration from the South, these designs not only add a burst of colour and life to offices but also create an atmosphere that fosters a sense of belonging and community.

At esPattio, we are very proud to have a [unique chromatic range](#), which captures the essence of the Southern landscapes. Every shade, every nuance, has been carefully chosen to convey the emotions and warmth of this region so rich in tradition and beauty. **Have you ever imagined what an armchair whose structure evokes the majesty of the Alhambra would look like? Or a table with wood lacquered in the deep, enveloping blue of the Atlantic, reflecting the serenity of its waters? How about a chair that recalls the vibrant energy of the 'Albero de la Feria de Abril de Sevilla', with its unmistakable golden colour that evokes the joy and festivity of this famous celebration?** We have managed to bring all this essence of the South through a unique chromatic range that not only decorates but also transmits sensations. Each piece of our furniture is impregnated with the colours that define the light and culture of the South, creating spaces full of life, dynamism and warmth.

By choosing esPattio for your [projects](#), you are not only choosing furniture, but you are also choosing to transform **spaces into inspiring and energetic places**. Each design is a statement of intent: to create environments that **foster collaboration, well-being and creativity**. With esPattio, you bring the **essence of the South** to every corner, offering **modern and human solutions** that turn any work environment into a motivating and welcoming space, reflecting a **new vision of work** that is more inclusive, contemporary and vibrant.
