

BISLEY BOOSTS WORKPLACE CREATIVITY, COLLABORATION AND PRODUCTIVITY WITH FLEXIBLE DYNAMIC SOLUTION

Leading British office furniture manufacturer, Bisley, has expanded its ever-evolving portfolio with the release of its first ever agile workplace solution, Arches.

Designed to redefine office layouts, Arches empowers workers to take control of their space, physically zoning areas to suit different tasks. By enabling teams to create bespoke work environments on demand, Arches fuels flexibility, sparks creativity, and drives productivity like never before.

Each Arches screen can be customised to suit the needs of the workspace. Available in a colour matched steel frame for a bright pop of colour or a beautifully detailed solid Ash frame for a natural look with exposed wood grain. Complemented with a range of practical, well-designed accessories - including glass 'whiteboards', adjustable canopies, hanging planters, corkboard and colourful PET noticeboards - Arches transforms effortlessly rolling smoothly on its high quality castors. Shape endless spaces from creative hubs for productive brainstorming, dynamic spaces for interactive pinup sessions, to quiet areas for concentration covered with a canopy.

Available in Bisley's signature steel colour palette matched carefully with accessory fabrics and materials bringing rich layers of texture to the range, there are unlimited options to blend Arches seamlessly into any office aesthetic. Choose from muted and sophisticated tones for a calming atmosphere to bold colours that energise a space. The seating and stools designed to beautifully compliment the range are manufactured by our soft seating experts Thomas Montgomery – part of the Bisley Group based in Ireland, ensuring both comfort and style with a first-class finish.

Arches also features a state-of-the-art AV unit as an option within the frame configuration, seamlessly integrating modern technology into its portable design, available in a plug-in or mobile battery option. The addition of a media screen makes presenting in an intimate meeting or workshop quick and easy anywhere in the workspace. Perfect for presentations, workshops, and training sessions, Arches empowers teams to collaborate effortlessly, fostering a more connected workspace and enhancing engagement.

"With Arches, we're redefining how workplaces function—giving teams the power to shape their environment to suit their needs in real-time. Whether its fostering creativity in a brainstorming session, creating a focused space for deep work, or seamlessly integrating technology for presentations, Arches delivers unparalleled flexibility. It's a game-changer for modern offices, empowering workers to collaborate, innovate, and thrive." – Mark Shatford, Design Manager – Bisley

Arches is available through Bisley's sales team for project-based orders. For more information, assistance with configurations and enquiries, contact salesupport@bisley.com.

About Bisley

British furniture company Bisley is a design and manufacturing powerhouse. For over 90 years, Bisley has been creating solutions to meet the evolving needs of our home and workspaces with innovative products made from quality materials. From the humble beginnings of car body repairs in 1931, the company began producing workplace products in the 1940s. Today, Bisley manufactures over 15,000 items per week from its factory in Wales. Bisley products can be bought in over 50 countries, and organisations such as Direct Line, the BBC and PwC trust us to meet their office storage and furniture needs.

Bisley's spirit of innovation comes with a collective knowledge that comes from decades of experience. The company's success is based on an unstinting commitment to enduring relationships, attention to detail, the latest manufacturing technology and nurturing talent. Bisley's 500 employees push the boundaries of manufacturing excellence. An employee ownership trust since 2022, the company has invested more than £80 million in systems and processes since 1989, enabling it to become Europe's leading manufacturer of steel storage, with a third of all UK steel storage originating from Bisley.
