

Calipso

Lounge collection

Ethimo and **Ilenia Marelli** interpret new habits for outdoor living by creating attractive new 'uninterrupted' solutions; furniture which brings a new sense of wellbeing to the concept of modularity.

Unrestricted, modular solutions: a more authentic reflection of contemporary living, which allows spaces and boundaries, indoor and outdoor, to be redefined.

The **Calipso** collection, elegant and minimal, is the result of thorough compositional and stylistic research, seeking not just a new modularity and expressiveness for furniture, but also a new dimension of wellbeing capable of creating 'made-to-measure' refined settings.

Comfort, aesthetics, personalisation and freedom of layout thus express the new outdoor project by **Ethimo** and **Ilenia Marelli**.

"I envisioned Calipso as a versatile design with minimalist, elegant lines. A 'system', whose modular spirit enables the creation of multiple flexible, reconfigurable solutions, ideal for integrating into a wide variety of outdoor settings". Ilenia Marelli explains. "It ranges from the simplest of layouts, such as a linear sofa or peninsula, through to a 'system' for the contract world with potentially endless possibilities, in terms of both length and layout. The truly special thing about the concept is that all the elements resting on the oversize teak base are 'free floating', so that they can be moved according to taste and desire, offering the possibility of having a free space next to the seat, to be used as a top or to be completed with an accessory surface".

ETHIMO

OUTDOOR DECOR

Calipso is offered in three different modules (120x120 cm, 180x120 cm, and 240x120 cm), each of which consists of a base made with natural teak slats, in varying sizes. The aluminium frame is particularly discreet, so much so that the lounge seats appear to be 'floating'.

The soft cushions are available in three sizes (100x100 cm, 170x100 cm, and 200x100 cm) and are 'free' of the base they rest on, which is larger than the cushions themselves in order to allow the utmost freedom in positioning each element, according to need. The back rests are also unattached, and to ensure the body is correctly supported they use a special system of support, thanks to the inner padding which combines different densities of rubber. Decorative cushions and armrests are available to enhance the seating.

Calipso is available in the colourways of melange white and blue.

To complete the lounge collection, there are coffee tables with aluminium frames and either an oval top (140x65 cm) or round top (Ø 52cm). The table tops are in *Ice White* or *Emperador Extra Brown* ceramic stone. The table top of the round version only is also available in glazed lava stone. As well as the coffee tables and seats, it is also possible to add a practical tray in the same material as the oval tops.

Calipso offers a new way to enjoy outdoor living with quality, flexibility, style and comfort, effortlessly meeting the needs of residential spaces as well as the more sophisticated requirements of contract and hotel settings.
