

'Talk of the town...not just desks & storage!'

Gone are the days when you walk a marathon, dragging your clients from one showroom to another, choosing a workstation here and a sofa from there...all the while gritting your teeth into an awkward smile! Not anymore; here at ASSMANN we don't wait for times and trends to change...we instigate it! We are the innovators, the free thinkers, the revolutionaries of our industry!

We don't follow...we make our own paths! In the same way we make all of our own furniture - with passion, dedication and state of the art technology. Who said robots don't have hearts? Ours do! At ASSMANN it's our legacy to continually build on what we have, listen, and give our clients what they need! You want soft seating...done; looking for breakout/agile furniture...got it!
