

We are excited to announce that, due to our remarkable growth over the last few years, we are expanding!

We opened our Clerkenwell showroom a few years ago, located in the beating heart of London's interior design district. As our Clerkenwell showroom has been such a success, we are opening a brand-new regional showroom location in Bristol, where we are based. A great space for all our customers, dealers, associates, and team members based in the Southwest to use and enjoy. We'd love for you to visit our beautiful new space, and we are thrilled to invite you to come along and see our product range in person.

Visit us to find exciting, newly released products and discover unique innovative materials including our very popular coffee tabletop composed of 100% recycled CDs.

Our experienced team can't wait to help inspire your next project by guiding you around our specifically designed working environments and zoned workspaces, helping you bring your vision to life. We would love to show you our product range in more detail and offer advice and answers to your design needs. We pride ourselves in our sustainability, so make sure to speak to our team about our Climate Positive products, accreditations, and practices.

Learn about our vast product range in more detail, including the innovative materials and processes we use to create our unique, UK-manufactured, quality products. Conveniently situated centrally within the Southwest, and open Monday to Friday, arrange your appointment today to browse our contemporary furniture designs.
