Beautiful unfinished  
and pre-finished solid  
construction wood flooring.

# Collections

## 128 Havwoods Boutique

A unique collection of products including popular classics and limited-edition choices.

## 132 Havwoods Bespoke

When standard products won't do, our bespoke options are literally endless.

## 140 Magna

Magnetic-backed wood flooring for commercial use.

## 144 Vertical

Wood cladding, veneers and fluted decorative panels.

## 156 Elevate your floor

Matching profiles will add the right finishing touch and a luxurious look to your project.

## 166 Install and protect

Everything you need to love and care for your wood floor installation, ensuring you can enjoy it for years to come.

## 174 Making the grade

Explore all the key features, grading, patterns and surface finishes that contribute to our unrivalled flooring collection.

A bowl of colorful jelly beans sits on a wooden table. The table surface is decorated with large, overlapping geometric shapes in blue and yellow. The text 'Seeing things differently' is overlaid in a large, white, serif font.

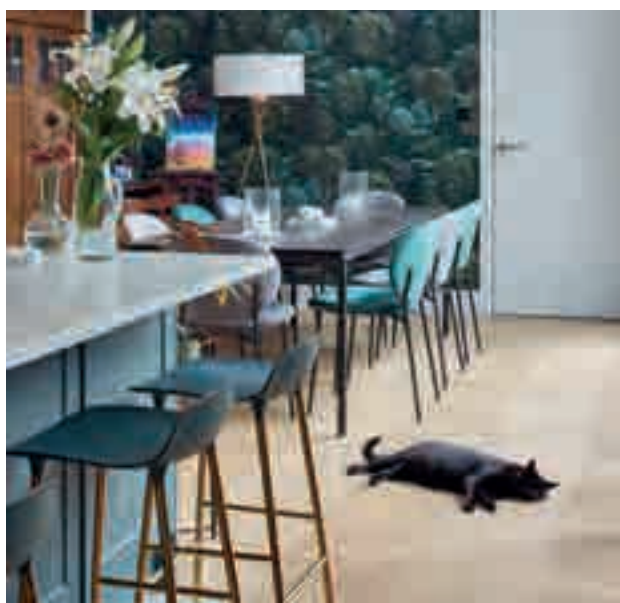

# Seeing things differently

Colour and pattern play a critical role in interior design decisions, our new colour families allow you to select a product or pattern with ease.

# Vanilla

Vanilla wood flooring is like a creamy latte, it's the colour of a warm, inviting cup of milky coffee on a lazy morning.

# Blonde

Blonde wood flooring offers the tone of a sun-kissed beach, it's the colour of sandy dunes and golden sunsets.

# Honey

Honey wood flooring is like a ray of sunshine, it's the colour of golden fields, and warm sunbeams.

# Auburn

Auburn wood flooring is reminiscent of warm flames and autumn leaves, of rich caramel, and of flaming embers.

# Brunette

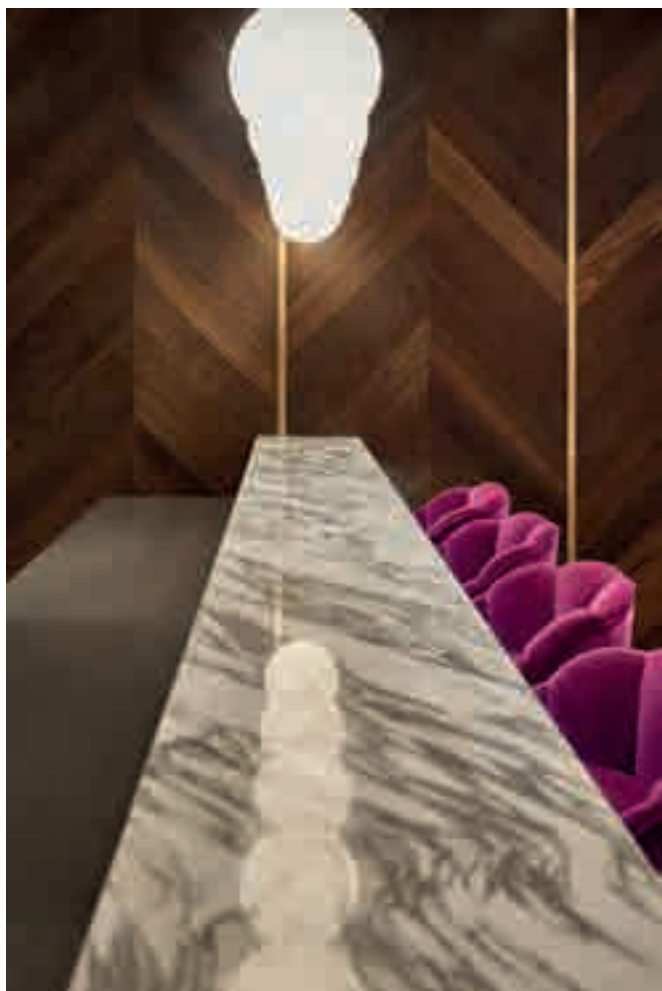

The colour of a cosy lodge in the woods, brunette wood flooring is like a warm, thick blanket; it is familiar and reassuring.

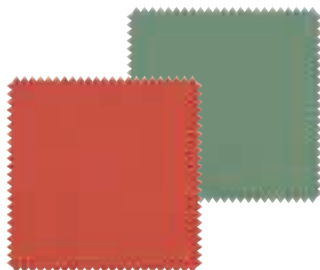

# Cocoa

Cocoa wood flooring is like a rich, dark chocolate, it's the colour of a decadent truffle, smooth and indulgent.

# Platinum

Platinum wood flooring is like a shining star, it's the colour of moonlit nights and glistening snow.

# Silver

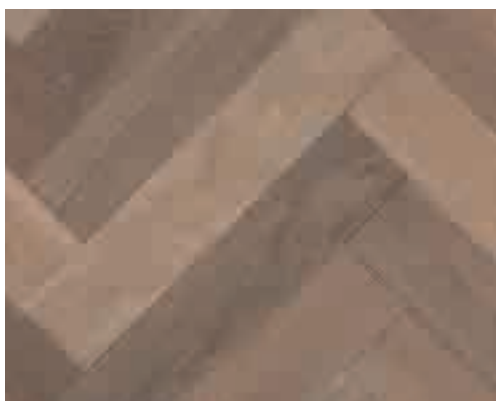

Silver wood flooring with its cool grey tones, gives the appearance of a misty dawn across the landscape.

# Smoky Grey

Smoky grey wood flooring offers the variation and intrigue of a stormy sky, with its ominous shadows and emotive dark clouds.

# How can we help?

No matter which sector or industry your project lands within, our dedicated sector teams are solution specialists and are on hand to support all your project requirements. Havwoods offer decades of combined experience and are passionate about timber.

With an unrivalled product range and extensive UK stock holding, Havwoods are uniquely positioned to support your immediate and long-term project requirements. Contact the team today and see how Havwoods can support you.

Truly majestic in every sense of the word, these hand finished grand planks offer unrivalled grandeur.

HAND GRADE

## Understanding Hand Grade

Prestigious and magnificent are the best terms to describe our superb Hand Grade collection. With planks of up to 4 meters long and almost 0.5 meters wide, this collection offers a surface that is truly unique.

Each of these giant planks are hand finished by skilled carpenters, who seek to highlight the beautiful natural characteristics of timber whilst adding further layers of texture and intrigue. A hand sample really cannot do this product justice, it really needs to be seen to be believed, so we recommend a visit to one of our showrooms to discuss this product with our experts.

Hand Grade is Cradle to Cradle® (Bronze) and FSC® certified, and what's more the entire collection is suitable for use over underfloor heating. Hand Grade is a luxury, high quality, high performance, pre-finished engineered board of triple layered construction, within a nominal 6mm wear layer of European Oak, 23mm multilayer plywood core and European Oak base.

Multi Layered Engineered  
European Oak; Sculptured  
Surface; 1-Strip Pattern;  
UV Oiled Finish; Tongue &  
Groove; 4-Sided Rounded  
Edge; FSC® Certified

Thickness	23/4-6mm
Width	280-480mm
Length	2000-3900mm
Grade	Rustic

The image shows a warm, rustic interior, likely a bar or restaurant. The walls and ceiling are made of reclaimed timber with mixed-width boards. The ceiling has a grid of recessed lighting. The walls are adorned with framed pictures and artwork. A dark wooden bar is visible in the background. In the foreground, there are wooden tables and chairs, some with metal frames. A tall, dark wooden shelving unit with glass doors is on the right, displaying various decorative items. The overall atmosphere is cozy and inviting.

Genuine reclaimed timber, with its mixed-width boards, will add warmth and intrigue to any hospitality space.

The image shows the interior of a rustic restaurant or cafe. In the foreground, there are several wooden tables and high-backed leather chairs with metal frames. The tables are arranged in a way that suggests a communal dining space. The walls are made of rough, textured stone, and the ceiling features exposed wooden beams and hanging pendant lights. In the background, there is a bar area with shelves holding various bottles and a large potted plant. The overall atmosphere is warm and cozy, with a focus on natural materials and vintage-style decor.

RELIK

## Reclaimed timber was at the heart of transforming this Victorian home into a cosy and welcoming pub.

### **Beck**

RECM2120

Lake View Garden Bar & Restaurant was a project undertaken by designer Rita Millat to turn an 1843 Victorian house into a cosy and welcoming pub.

The design brief was to create a Lake District pub with a modern twist that would make everyone feel at home. The design concept was to use an industrial style reusing and upcycling some of the house's key features such as beams and pillars, creating a place that people would remember and come back to. One of the challenges faced in the project was the structure of the house.

The internal walls were removed to open the space and make it bigger, requiring reinforcement with steel beams.

The Havwoods product used in the project was Beck Rustic from the Relik collection, chosen for its aged wooden appearance. The flooring added character and depth to the space, creating a memorable and inviting atmosphere. Adding warmth and a welcoming touch the aged wooden flooring helped to create the cosy and at-home feeling that was desired in the design brief, making it the perfect fit for the modern industrial style of the pub.

## Opulent heavy veined marble, stunning artworks and high-end fixtures combine with eclectic Versailles timber panels.

### **ANTIQUE VERSAILLES**

HW1591

Situated in the inner-city Sydney suburb of Potts Point, this stunning home is the result of a brief that challenged designer Tamsin Johnson to explore the architectural, interior design and styling elements to create a seamless cohesion between old and new.

Having travelled throughout Europe and previously called Melbourne home, the terrace's owners the owners wanted to combine elements of their former urban lives with the iconic elements of life in Sydney.

Additionally, the home needed to be suitable for their young family, while also catering to their love of entertaining.

Overall, the brief required a pairing of a European inspired pied-à-terre to an inner-city Sydney terrace, without compromising on the homes unique heritage qualities.

## A palatial inspired pattern

The Versailles pattern is a flooring design classic. Owing its name to the fabulous Palace de Versailles, one of the world's great building projects where intricately patterned wooden floors replaced the old marble ones, the Versailles design consists of squares held together by what appears to be an interwoven mesh of wood strips, all within a wood frame.

The individual component parts that make up the Versailles pattern ensure that each panel is entirely unique. Additionally, the grain of the timber runs in different directions for each piece, which provides visual interest and intrigue from whichever angle you are viewing the floor.

All of us.  
As individuals  
and as  
organisations are  
responsible for the  
environment  
we live in.

Sourcing materials from sustainably responsible sources has never been as important as it is today. Our actions influence three elements of sustainability: economy, society and environment.

Sustainability belongs to us all.

Venture Plank includes a number of product families that allow for patterns to be combined across the interior.

## VENTURE PLANK

## Warm brunette herringbone blocks adding sophistication and a contemporary style to this residential interior.

### **ARENA HERRINGBONE**

HW3003

The design for this project was brought to life with the help of Havwoods' Luxury Residential team in defining and executing Atelier's design vision. The aimed was to create a minimalist and modern design reflecting luxury and sophistication while keeping the eco-friendliness of the property in mind.

The products selected for the project were Amazon Prime, Arena 13 Rustic, and Arena Prime Herringbone. These products were chosen for their exceptional quality, durability, and sustainability

accreditations. The use of high-quality, eco-friendly products from Havwoods, combined with the expertise of the residential supported the creation of a space that was not only functional but also stylish and welcoming.

The outcome of the Gloucester Walk project was a beautiful and functional design that perfectly captured the essence of a modern and luxurious London property. The use of Havwoods' flooring products added to the overall design, providing quality and sustainability to the space.

# Herringbone: Timeless Elegance

Herringbone wood flooring is a beautiful design choice. The herringbone pattern offers a timeless elegance, it has been used in flooring for centuries, and its classic, elegant look has stood the test of time.

The zigzag pattern of herringbone flooring creates a unique texture that adds depth and dimension to a room. The alternating pattern of the planks, combined with the dramatic way in which light reflects across the block creates a sense of movement that can make a space feel more dynamic.

Herringbone flooring can work with a variety of interior design styles, from traditional to modern. It can also be used in almost any room, and because the herringbone pattern draws the eye, it can help to anchor a room and create a focal point.

Herringbone flooring is available from Havwoods in several dimensions, from the traditional solid parquet blocks found in Gold Leaf, to the similarly small intricate blocks of our Italian Collection, with larger blocks showcased in both Venture Plank and Henley, lastly our oversize herringbone in Pureplank offer our largest format version of the pattern.

Thickness	21/6mm
Width	300mm
Length	2000-3000mm
Grade	Rustic

A photograph of a modern interior space, likely a home office or living area. The room features dark, possibly navy blue, walls and a ceiling with exposed industrial-style pipes and recessed lighting. The floor is made of light-colored wood. In the foreground, there are dark, rectangular blocks or partitions. In the background, a large window with a black frame looks out onto a city at night. A blue sofa is partially visible on the right side of the frame.

Both functional and  
aesthetically striking,  
the small format  
blocks inject character  
throughout the home.

## Refurbishing a dark, dreary workspace into a sophisticated, avant-garde style boutique office.

### **PALLIDO - BLOCK**

HW16002

The brief for the transformation of this office space in Queensland included the inclusion of high end materials and bespoke finishes.

Archway selected Havwoods HW16002 Pallido herringbone to feature as the flooring throughout as it delivered the perfect high end feel, coupled with a sense of luxury and elegance, without completing with the rest of the space but rather complimenting it beautifully.

The building itself was quite dark and the addition of a natural element such as timber for the flooring helped to lighten the space as well as to add natural warmth to a dark and moody palette.

The office furniture pops custom made soft, luxurious blue velvet accents that pair perfectly with the warm tones of the Pallido herringbone timber flooring.

Walnut, with its rich  
wooden hues and  
intricate pattern, help  
to reflect the natural  
light beautifully.

## V COLLECTION

HERRINGBONE

CHEVRON

PLANK

## Warmth with Walnut

In this edition we have introduced a new Walnut family of products (page 105) which combines two different sized herringbones with a new chevron and a new plank. This family means that you can now combine Walnut by using different patterns in each room or alternatively adding a plank border around the edge of your pattern of choice.

Walnut has a rich brown, red tone which develops some cooler golden tones over time. The grain pattern is quite striking with rich variation between grown rings and sapwood. It is one of the lowest density hardwood species so considerations need to be made when looking at higher traffic areas.

A modern interior space featuring a grand piano, large windows, and a kitchen island with a sink, illustrating the use of FSC-Certified wood products. The room has a warm, minimalist aesthetic with light-colored walls and ceiling, accented by dark wood beams and pendant lights. A large window provides a view of the outdoors, and a Christmas tree is visible in the background.

Pureplank offers  
a breadth of FSC-  
Certified choices in  
plank, herringbone  
and chevron.

# The stunning transformation of this coastal fort combined angular chevrons with the signature circular structure.

## ROANNE - CHEVRON

HW2020

The Northern Ramparts, Fort Corblets in Alderney, set on the coast of the Channel Islands is a flooring project that involved the complete re-flooring of approximately 300 square meters.

Soup Architects, led by Architect Max Babbé, was approached to design an accessible replacement dwelling for the existing timber and stone structures which were beginning to deteriorate due to the harsh Atlantic weather.

The goal was to replace and combine the fragmented structures with a new, high-quality dwelling that was sympathetic to its historic setting. The design brief needed a beautiful and functional wooden floor throughout.

Special consideration was given to the fact that the building was circular and therefore had no straight lines where the parquet was to meet the wall.

This was the first time the team had worked with Havwoods, but they chose to work with the company based on the recommendation of Dominic Ash, who designed the kitchen and all the interior woodwork.

The chosen product was Roanne Classic Chevron from the Havwoods PurePlank Collection. This product was chosen for the project because of the way it looked and felt offering excellent value, as well as being FSC® (FSC-C009500) certified timber. The end result was a beautiful and functional wooden floor that added to the aesthetic appeal of the building.

## Classically chic chevron

Records show examples of chevron patterned floors dating all the back to the 1600's in France, and much like it's far less eccentric counterpart Herringbone, it has seen a real resurgence within interior design.

The pattern consists of V-shaped lines that are arranged in a zig-zag fashion, creating a captivating and eye-catching effect. The “arrows” draw the attention of the eye through the space, offering a unique visual intrigue.

The scale of each chevron plank can change the overall look of the room, with smaller intricate dimension helping to make small spaces look bigger, and large spaces to look expansive. The larger format chevrons found in our Pureplank range, are ideal for those looking for a real statement floor, and it's enduring popularity means it will never go out of style.

A photograph of a modern interior space. The background is a large, light-colored wooden wall with a vertical grain. A white, angular architectural element is visible at the top. In the foreground, a metal handrail with a wooden grip runs along a tiled floor. The floor consists of large, light-colored square tiles. The lighting is soft and even.

Versatile and stylish,  
our Boutique range  
offers many a twist  
on an old classic.

## Combining clean lines, geometric patterns and elegant curves with a neutral sophisticated palette.

### **Bespoke Diamond**

The White House project in Hertfordshire is a new build 5-bedroom house designed by Roar Architects and with interiors led by Dusek Design Associates.

The team sought to create a contemporary family home with clean lines and curves, with the flooring as a key aspect of the overall scheme.

Havwoods Bespoke flooring provided a combination of both quality and customisation.

The panels were produced off-site, allowing for a controlled factory environment, and ensuring that the finish was of the highest standard.

The result was a beautiful, high-quality flooring solution that perfectly complemented the design and architecture and added a touch of elegance and sophistication to the interiors.

With its superior finish, the completed installation provided the owners with a flooring solution that they could enjoy for years to come.

## When standard products won't do

Sometimes your requirements cannot be filled by our standard products. While our range is extensive, we at the same time understand that at times you need something more. We are proud to be able to fulfil your bespoke wood flooring requirements.

You can have your ideal floor of any size, colour or pattern. You may start with one of our standard products or even an external option that is giving you the overall look you are after. Our team can then work with you to refine the primary characteristics of the product to meet your exact needs.

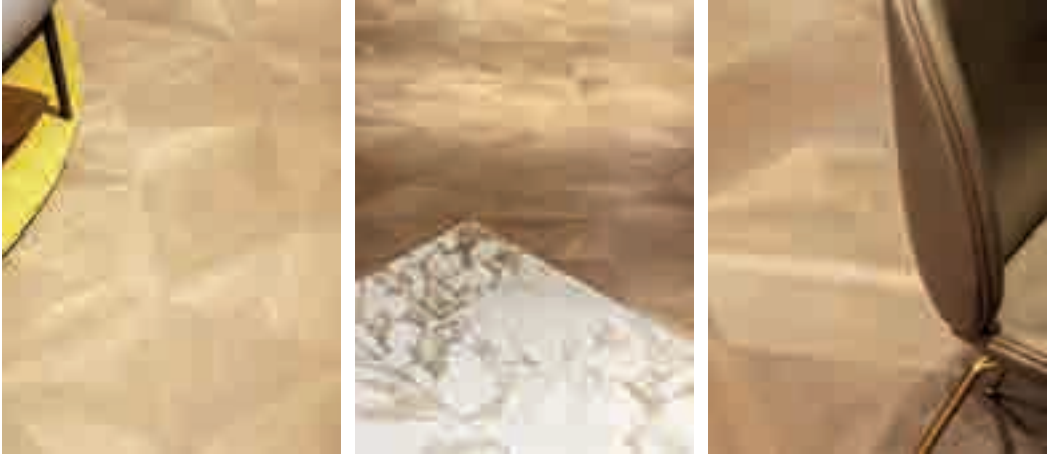

We may be able to modify:

- Width or length of the planks
- Thickness of the product to meet desired build-up
- Grading of the top layer
- Certification requirements
- Specific patterns or matching planks
- Custom design panels
- Surface texture and finish

## Bespoke patterns, panels & designs

If you would like to opt for something truly unique then we can make the pattern of your dreams a reality. No matter the shape or complexity of design we will work with you to deliver a practical, yet impactful wood flooring solution.

If your project requires additional levels of accreditation then this is something we can offer on many of our products including FSC®(FSC-C009500), PEFC™ (PEFC/16-37-1417) or Cradle-to-Cradle™ Certified products.

Please note due to the production process involved in creating your perfect wood floor there is a minimum order level (approx. 100m<sup>2</sup>) and a slightly longer delivery times compared to stock items.

A modern office interior featuring a large, multi-level staircase with a dark metal frame and glass railings. The ceiling is dark with exposed pipes and modern lighting fixtures. In the foreground, a person is sitting on a low, dark-colored ledge with green cushions. Another person is visible further up the stairs. The floor is made of light-colored wood. The overall atmosphere is contemporary and professional.

Once installed our  
Magna products are  
indistinguishable  
from conventional  
wood flooring.

## Magna<sup>®</sup> raised access flooring

Magna raised access flooring is the perfect solution for workspace and other commercial areas where there's a requirement to access the underfloor services.

Magna flooring reduces downtime for refurbishments and is significantly faster and easier to install than using glue or underlay. The flooring can be sanded and maintained just like any other Havwoods' flooring. Individual planks or entire areas can be removed and replaced exceptionally easily thanks to the magnetised system which carries a lifetime guarantee.

## PROFILE

## PROFILE FROM HAVWOODS

Havwoods' range of T and end sections, ramps and stair nosing are specially produced to complement the entire flooring collection. In addition to this a flush nosing is available for the Pureplank collection.

The hardwood profiles are not simply stained to suit but textured, oiled and white oiled where appropriate. They are indeed produced to match the selected flooring as closely as possible. All profiles are also available unfinished or prefinished with a light oak lacquer.

At Havwoods we care about your wood flooring, which is why we have introduced HAVCare, a complete guide to your wood flooring care and maintenance. With the right care and products your wood flooring will last a lifetime.

## ACCESSORIES

*The key to a great floor installation is having the right tools for the job. You've chosen the perfect floor, so why not ensure you've got the perfect adhesive to bond it down.*

# The Perfect Bond.

## Why is it important to have the right adhesive?

Different types of flooring have different requirements when it comes to adhesives. The key to a quality install that will stand the test of time, is choosing an adhesive that has the required bond strength and flexibility. If the adhesive used doesn't have a suitable level of strength and flexibility for the floor covering, natural movement in the floor itself could cause the installation to fail.

Not sure which adhesive you need?

We've highlighted what each of the Marldon adhesives can be used for to help you decide. If you're still not sure, a member of the team will be able to advise you.

With such an  
extensive product  
range it is important  
to understand the  
key product features.

## MAKING THE GRADE

# The beauty of timber is that each and every plank is unique.

There really is no other material that matches the natural variation and beauty of wood. Although other surfaces try to mimic timber, it is only ever a poor imitation of the intricate details that grow within this sustainable source.

Learn more about our  
sustainable products  
**Scan the QR code**  
[Havwoods.com/uk/grades](https://www.havwoods.com/uk/grades)

# Here are the five typical flooring grades you will find.

## Prime

Prime grade has few, if any knots, and these will be of minimal size. There will also be a minimal amount of sapwood and filler, if any at all. The colour of the filler is intended to complement the natural structure of the wood, where features such as knots contrast with the surrounding timber, and it may vary from batch to batch. There will be a relatively small amount of colour variation in the timber itself.

## Select

Select grade will have a mix of almost prime boards with other planks which have more knots of a limited size. Expect some variation in tone from heartwood and sapwood as well as small checks (cracks across the growth ring). There will be some filled elements, such as broken knots. The colour of the filler is intended to complement the natural structure of the wood, where features such as knots are in contrast to the surrounding timber, and it may vary from batch to batch.

### Classic

Classic Grade floors show the natural variation of timber without allowing some of the more characterful features in more rustic grades. Planks with very few knots will be mixed with some planks containing larger knots or checks (cracks across the growth ring) which may be filled. Variation between tone from heartwood and sapwood can be expected but is controlled. The colour of the filler is intended to complement the natural structure of the wood, where features such as knots are in contrast to the surrounding timber, and it may vary from batch to batch.

### Character

Character grade will include both heartwood and sapwood and allows a wider range of colour variation. Knots are larger and you should expect checks (cracks across the growth ring) and possibly some end shake (cracks between the rings). The colour of the filler is intended to complement the natural structure of the wood, where features such as knots are in contrast to the surrounding timber, and it may vary from batch to batch.

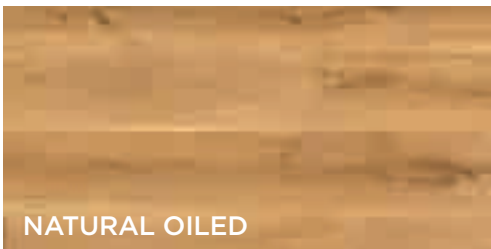

### Rustic

Known as either natural or rustic grade this allows a virtually limitless size and number of knots. Heartwood will be used, there will be colour variation, sapwood and filler; you should also expect checks (cracks across the growth ring) and possibly some end shake (cracks between the rings). The colour of the filler is intended to complement the natural structure of the wood, where features such as knots are in contrast to the surrounding timber, and it may vary from batch to batch.

# Timber products often include enhanced natural characteristics.

## Sapwood

Sapwood is the living part of the tree through which water and sap flow. It is always lighter in colour than the heartwood and certain fuming, smoking and colouring processes emphasise the sapwood since it doesn't react to such treatments to the same degree. (The effect of these treatments on planks containing sapwood is shown left) By definition sapwood contains more moisture, however this is no cause for concern since all Havwoods' timber has been carefully dried and its stability is ensured when supplied in an engineered form.

Some characteristics of wood are purely natural and these are explained below.

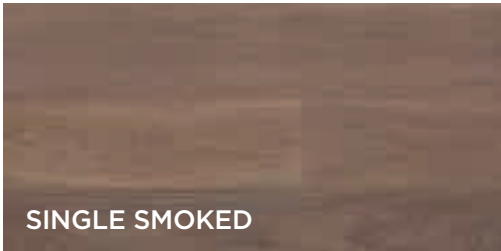

### Knots & fillers

A knot is either the base of a side branch or a dormant bud around which the grain flows. A knot is sometimes replaced by filler and this may be of various colours: white, grey, brown and black are shown here.

### Medullary rays, checks & shakes

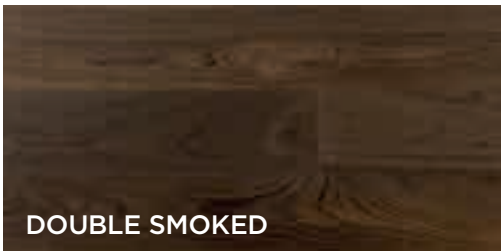

These white, ribbon-like medullary rays are an indication that the plank has been crafted from quarter-sawn timber. Checks and shakes usually occur at the end of a board and may be cut off.

### Smoking & Firing

Smoking and fuming are essentially the same and refer to a process whereby the hardwood is exposed to ammonia gas for 24 (single) or 48 (double) hours. The colouration is surface deep only.

Unlike staining, smoking reacts to the chemical composition of the individual plank, so the ultimate shade will vary. This variation is considered an asset, however if you prefer a more even tone we suggest you consider choosing stained rather than smoked wood.

Fired products are treated in a vacuum, sometimes for several weeks, and the dark colour runs throughout the lamella providing a genuine visual alternative to tropical hardwoods.

# Pattern plays a pivotal role in the appearance of any floor.

## 1 Plank

This is sometimes known as plank, strip or boards and is available in a variety of different lengths and widths. Each offering a unique look and feel.

## 2 Herringbone

This traditional parquet style remains as on trend today, as it always has.. The blocks may be laid in single or double patterns, or if they are the correct proportion alternate pattern options.

## 3 Chevron

One of the more visually impressive patterns combines geometric angles with directional flow. Our chevron pattern floors have a 45° angled point, and the alternating rows deliver a stunning two-tone aesthetic.

## 4 Versailles

Owing its name to the fabulous Palace de Versailles, one of the world's great building projects, the Versailles design consists of squares held together by what appears to be an interwoven mesh of wood strips, all within a wood frame.

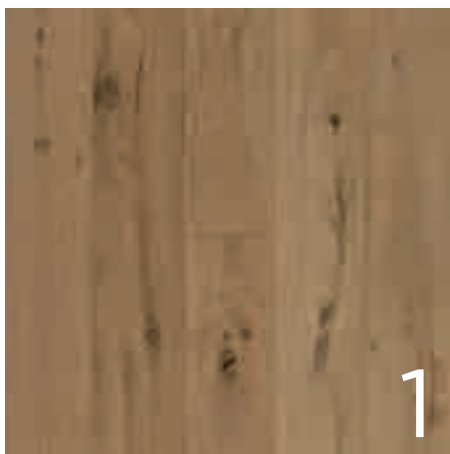

## 5 Mansion Weave

A more complex and endless pattern, mansion weave is particularly effective in larger rooms.

## 6 Bespoke

If you are looking for something a bit different, then we have a host of panel and pattern variations that can be produced to order.

## MAKING THE GRADE

# Your choice of finish will affect the overall sheen, durability and maintenance.

## Unfinished

Allowing you to be the artist, this is a completely natural surface, without treatment. It's up to you to finish how you wish. Unfinished timber can include different grades of character so all you have to do is re-sand the surface once installed and create using the blank canvas.

## Lacquered

This is normally a polyurethane coating that covers the pores of the wood and forms a hard, resilient surface, protecting it from dirt and moisture ingress. A good quality lacquer will protect a wooden floor for anything from 12 months to 6 years, depending upon the amount of foot traffic.

## Oiled

Oil penetrates deep into the wood and brings out the true beauty of both the color and grain, as well as providing protection for the floor. In addition to providing a natural look, oiled floors lend themselves to being spot repaired in the event of surface damage.

## UV Cured Hardwax Oil

Combining the wear advantages of a lacquer with the subtlety of oil, this finish is micro-porous, water-repellent, dirt-, wear-, and stain-resistant against wine, beer, cola, coffee, tea, fruit juices and milk. It will not crack, flake, peel or blister.

## Valour UV Cured Hardwax Oil

Valour is a film-forming oil that allows the surface to be layered like a lacquer but retains the appearance and characteristics of an oil. It provides increased scratch and impact resistance and offers the hardest wearing oiled finish in our range.

## MAKING THE GRADE

## Solid T&G

Traditional solid hardwood flooring, not suitable for use over underfloor heating.

## 3-Layer Engineered Click

Hardwood top layer with a softwood core, and balancing back pull layer. Supplied with a click-system profile.

## Multi-Layer Engineered T&G (19-21mm nominal)

Hardwood top-layer with a marine ply engineered backing. Suitable for use with underfloor heating and can be used as a structural floorboard.

## (P) Multi-Layer Engineered T&G (19-21mm nominal)

Hardwood top-layer with a Eucalyptus and Poplar ply engineered backing. Suitable for use with underfloor heating and can be used as a structural floorboard.

## Multi-Layer Engineered T&G (10-14mm nominal)

Hardwood top-layer with a marine ply engineered backing. Suitable for use with underfloor heating but cannot be used as a structural floorboard.

## (P) Multi-Layer Engineered T&G (10-14mm nominal)

Hardwood top-layer with a Eucalyptus and Poplar ply engineered backing. Suitable for use with underfloor heating but cannot be used as a structural floorboard.

## HDF Engineered Click

Cost effective and super sustainable 0.6mm wear layer high pressured attached to a HDF core and comes with an integrated cork-backing providing acoustic improvements as well as built in underlay for quicker install.

## 3-Layer Engineered T&G

Hardwood top layer with a softwood core, and balancing back pull layer. Supplied with a tongue and groove profile.

## 2-Layer Engineered T&G

Hardwood top-layer with a softwood backing made from individual staves to aid stability and must be fully bonded to the subfloor.

## MAKING THE GRADE

We

HavSeal™ recognises

take it

responsibly sourced products

further

HavSeal™ is our own seal of approval taking even further measures ensuring sustainable and responsible procurement within our supply chain. The HavSeal seal of approval is awarded to those products that exceed the already high standards needed to ensure entry into our portfolio. Not only do we consider the origin, the legality and sustainability of each of the products, but we also take into account the energy that goes into production of the product, the chemical content of the product as well as the mill's commitment to re-using its waste.

The Gold Seal is awarded to the products coming from mills that show an extreme passion and proactive approach to ecological benefits such as reusable heating for local communities, the powering of wind turbines, financing the re-introduction of animals into the forest areas and commitments to replanting forest and woodland areas such as the Forest Stewardship Council®, FSC®.

The Green Seal award is given to the products that offer extra international accreditation, identified as coming from sources that offer higher standards of energy use and waste generation.

# HAVWOODS RETURNS POLICY

## LEFTOVER GOODS

If you have any unused packs left over after fitting we can accept these back for credit, subject to the following conditions:

- Goods must be returned within 30 days from date of delivery (subject to our terms & conditions).
- A 20% restocking fee applies.
- You are responsible for returning the goods to us at our Carnforth Warehouse at your expense. Original delivery cost is non-refundable. Refunds will be issued within 14 days of receipt of material into our warehouse.
- Any returned goods must be unopened, no partial packs will be accepted.
- Goods must be in their original, "as new" condition and with original packaging. Any packs returned in a damaged condition or not packaged correctly cannot be credited.
- Handed products must have an equal quantity of Left and Right hands.
- Please note that unfortunately we cannot accept products which are specials or bespoke, made to your specifications (including wooden profiles) or non-stock items especially brought in for your order.
- Any bespoke or non-stock items remaining at our warehouse which are part of a call-off order will be invoiced 14 days after the end of the contract.
- Before returning any goods, a return order number must be obtained from the Havwoods Sales Department. Please write this number, together with the names of both sender and recipient, clearly on each unit being returned.

## GOODS ARRIVED DAMAGED OR SHORT DELIVERED

- Any deliveries with damaged or missing goods should be accepted but must be signed for accordingly (i.e. "damaged" or "short delivered"). Phrases such as "unchecked" will not be accepted.
- Photographs should be taken of any damaged goods at the point of accepting deliveries and forwarded with your claim.
- All damaged or missing goods must be reported to the Havwoods Sales Department within 4 days, and a replacement will be sent out to you at the earliest available delivery date.
- If you notice a problem after signing for delivery, then please contact us within 4 days to arrange a replacement. Photographic evidence of any damaged goods must be provided.
- You will not normally be expected to return the damaged packs to us. After your claim has been accepted by us please dispose of the items safely.
- We do advise you to check your packs upon delivery to avoid any unnecessary delays if there is a problem with the delivery.

## FAULTY GOODS

- If the products arrive with a manufacturing fault, please contact our customer services telephone line: 01524 737000 or email us: [info@havwoods.co.uk](mailto:info@havwoods.co.uk). If you call us we will try to sort out your complaint while you are on the phone. If this is not possible the advisor will agree a course of action with you, in line with our terms and conditions.

## CHANGING YOUR MIND

- Subject to our terms and conditions, and in line with the Consumer Contracts Regulations 2013, you have 14 days after the day you (or someone you nominate) receives the order, (or where the order is split into several deliveries over different days, 14 days after the date of the last delivery) to notify us that you wish to cancel the order.
- Please note bespoke or special order products (including wooden profiles) cannot be returned for credit.
- To cancel an order please contact our customer services telephone line: 01524 737000 or email us: [info@havwoods.com](mailto:info@havwoods.com).
- You must return the products to us as soon as reasonably practicable and in any event within 30 days of delivery.
- The product must not have been removed from their packaging or in any way handled, modified, or installed (such that they are no longer in a saleable condition).
- If you cannot arrange carriage yourself, we can collect the complete order from the address to which they were delivered, on your behalf. Such collection will be at your cost, and at your risk.

**NB Warranties only applicable to floors installed with Havwoods fixing products and maintained with Havwoods maintenance products, unless otherwise stated.**

### Description & Material Specification

Any samples, drawings, images, descriptive matter, or advertising produced by us and any descriptions or illustrations contained in our catalogues, websites or brochures are produced for the sole purpose of giving an approximate idea of the products described in them. They shall not form part of the contract or have any contractual force. The images of the products are for illustrative purposes only. Although we have made every effort to display the colours accurately, we cannot guarantee that the print of this brochure will accurately reflect the colour of the products. Your products may vary from those images shown within.

Please note that Havwoods Ltd Terms and Conditions of Sale, as displayed at [www.havwoods.com/uk](http://www.havwoods.com/uk), apply to all transactions. All prices are per square metre unless otherwise stated. Offers subject to withdrawal without notice. All coverages quoted are only approximate. All prices are subject to Havwoods standard Terms and Conditions, as displayed at [www.havwoods.com/uk](http://www.havwoods.com/uk). E.&O.E.
