

CMD New London Showroom.

The team at CMD are excited to inform you that we have moved to a new showroom in London. After 18 years at 99 Charterhouse Street, Clerkenwell, our last day was Friday 17 March, and the doors to our new showroom, located at London House, 115 Golden Lane, London, EC1Y 0TJ, are now open.

Stephen Roberts, Sales Director commented, 'We are really excited to have moved into our fantastic new showroom London House. It's a totally different space to Charterhouse Street and as we continue to evolve as a business, we wanted something fresh and innovative both for the CMD team to work in and also for our clients to visit. This new space will also showcase some exciting new product developments in the coming months and we will of course mark it with a launch event in due course, however all are welcome to drop in anytime either by appointment or otherwise, you will be guaranteed a warm welcome.'

Our showroom opening times remain the same - Monday to Friday, 9am to 5pm - so why not book an appointment with your dedicated Sales Account Manager.

London House is a 7-minute walk from Old Street tube station but can also be reached from Barbican and Farringdon tube stations.

CMD are a British manufacturer founded in 1984. We create solutions to meet the challenges of integrating power and AV/data access for people working in offices and commercial spaces. We provide a total product range from underfloor powertrack and power hub power distributions systems, floor boxes, workstation power and AV/data modules to monitor arms, CPU supports and cable management solutions that are designed to be quick and easy to install and adaptable for contractor, client, and end-user.
