

BRILLIANTLY BESPOKE

BY HAVWOODS

Transforming ideas into realistic propositions, Havwoods' superior Bespoke wood flooring concept offers consumers and designers the opportunity to create state-of-the-art wall and floor solutions in a composition and style of their choice. Offering more than the standard boards, these sublime panels can be tailored to fit any specified scheme, residential or commercial.

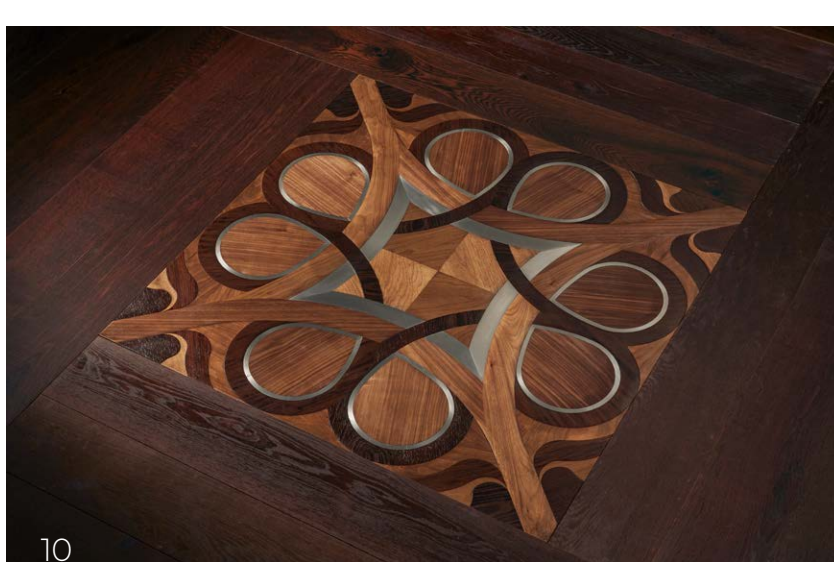

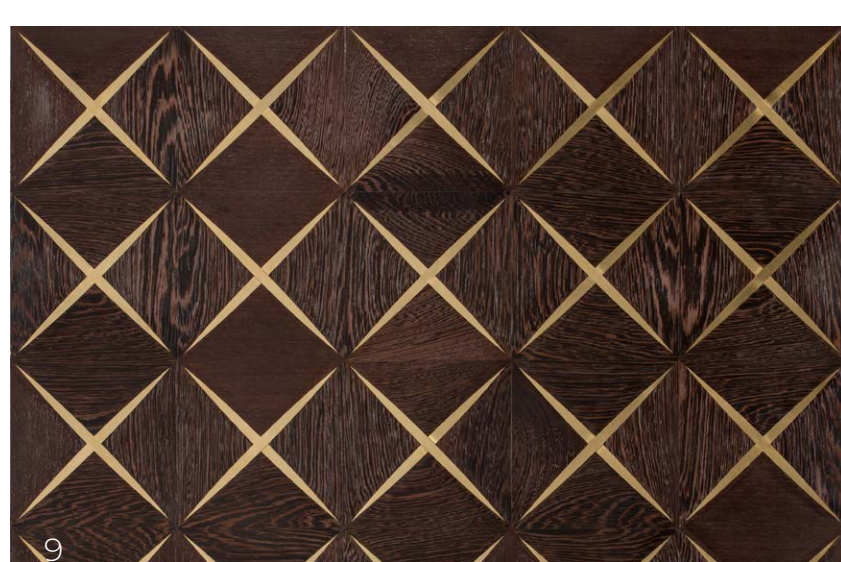

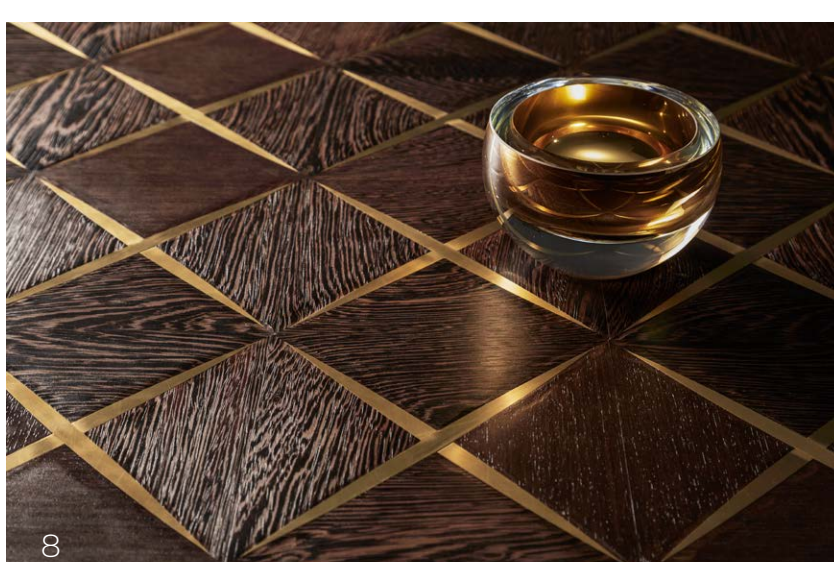

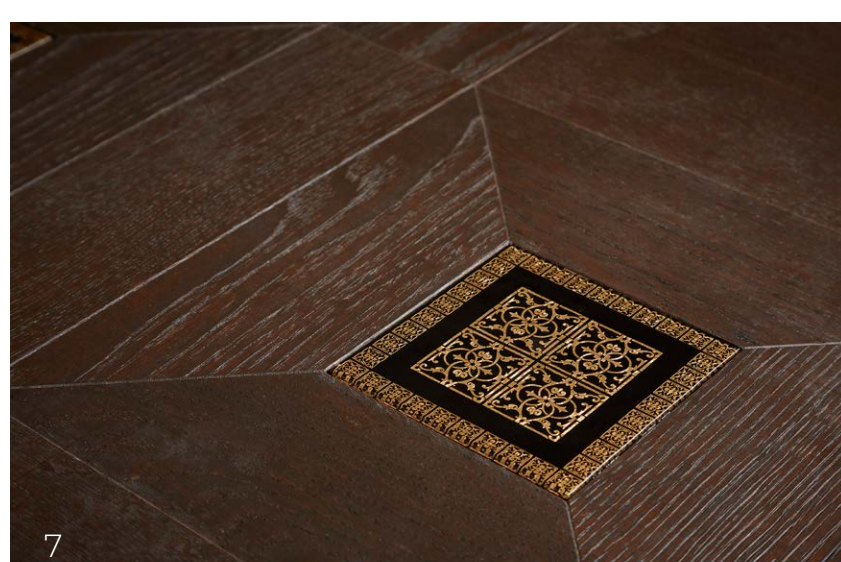

From intricately-designed parquet patterns to exquisite inlaid sections of brass and steel, each distinct product can be used across an entire floor for dramatic effect, or introduced as a single feature when positioned with coordinating planks from Havwoods' engineered range of products. Whether it's making an immediate statement with a unique pattern in the hallway or adding character to a living or working area, an intricate flooring design instantly elevates any space, complementing an array of interior styles.

Achieving complex patterns on-site is often a labour-intensive task, however the Bespoke service produces desired patterns at the mill as fully engineered panels, making it a far quicker and more practical process.

Not only is Havwoods' Bespoke concept limited to only floors, the innovative designs can be installed anywhere - from walls and ceilings to doors and furniture surfaces. The Havwoods team works closely with every customer to refine the primary characteristics of the product and to meet their specific needs, no matter the size of the project.

Renowned as a leader in its field, Havwoods' unparalleled expertise and depth of knowledge sets it apart as the UK's prevailing wood flooring brand. With its ever-expanding international portfolio, Havwoods makes it a priority to look after its customers with their wood flooring journey, providing outstanding consultation services and an incredible range of flooring products, catering for both the residential and commercial markets.
