sixteen3 Unveils **Milo Recycled Edition**: A Sustainable Table Design in Collaboration with **Smile Plastics**

sixteen3 is proud to announce the launch of the **Milo Recycled Edition**. This exciting update to the Milo table range is the result of a collaboration with **Smile Plastics**, a leading specialist in recycled plastic materials. This update represents the fusion of innovative design and environmental responsibility, integrating Smile Plastics' recycled plastic sheets as a new sustainable tabletop option in the Milo range.

At **sixteen3**, we believe that exceptional design can coexist with sustainable practices. The **Milo Recycled Edition** embodies this belief, offering a captivating and architecturally inspired table design with a significantly reduced environmental impact. By utilizing Smile Plastics' recycled plastic sheets, derived from post-consumer waste, we give new life to discarded materials and transform them into a stunning and durable tabletop surface.

Customers have the choice of two of Smile Plastics' surfaces, each showcasing its own unique properties and story. These materials demonstrate the beauty and potential of recycled plastics, proving that sustainable design can be both visually appealing and functional.

The Milo Recycled Edition tables feature a lightweight yet sturdy steel structure, perfectly complemented by the eye-catching tabletop made from Smile Plastics' recycled materials. This combination results in a visually striking and environmentally responsible furniture piece that adds creativity, intrigue, and purpose to any interior space.

By pushing the boundaries of design and advocating for the possibilities of recycled materials, we aim to inspire positive change in the industry. The Milo Recycled Edition allows customers to make an informed choice, selecting furniture that aligns with their values and contributes to a healthier planet.

For more information about the Milo Recycled Edition and other sustainable furniture offerings from **sixteen3** please visit our website at sixteen3.co.uk.
