HAVWOODS

Wood that Works.

Cover and Inside Cover Images: Teddington Residential (HW3001)
Architect: Boundary Space Architects Photography: Calvert Studios

Wood for all surfaces

At the Surface Design Show in February, many of you discovered that Havwoods is no longer just about wood flooring.

We started expanding our wood surface offering in 2023 and this year continue on that journey. The warmth and the natural look and feel of timber is desirable not only on floors but also on walls and ceilings, and we are proud to be able to offer you many stunning solutions on these both for commercial and residential applications.

I also wanted to share with you that Havwoods have recently achieved the ISO14001 certification, an internationally agreed and recognised standard for Environmental Management Systems. By implementing ISO14001 we demonstrate our commitment to reducing environmental impact by mitigating risk, ensuring compliance with regulations, and reinforcing good governance practices. We are very proud of this commitment as well as our other environmental accreditations. To learn more please visit our website.

Collections

14 Colossal
Immense dimensions with these super-long and super-wide boards.

114 Gold Leaf
Beautiful unfinished and prefinished solid construction wood flooring.

18 Handgrade Premier
High-quality sculptured boards of the grandest scale.

118 Boutique
A unique collection of popular classics and limited-edition choices.

28 Relik
Genuine reclaimed products wearing their history upon their surface.

122 Havwoods Bespoke
When standard products won't do, our bespoke options are literally endless.

32 Henley
Textured surfaces created by a variety of processes for beautiful visual effect.

130 Magna
Magnetic-backed wood flooring for commercial use.

44 Venture Plank
Our flagship collection of high-quality planks with our thickest top layer.

134 Beyond the floor
Wood cladding, veneers, acoustic and decorative panels.

72 Italian Collection
Stunning shades in more narrow planks, with matching herringbone and chevron.

162 Elevate your floor
Profiles will add the right finishing touch and a luxurious look to your project.

86 V Collection
Exceptional value in our most cost-effective design conscious styles.

174 Install and protect
Everything you need to love and care for your wood floor installation.

94 Pureplank
A vibrant collection of sustainable click-system products.

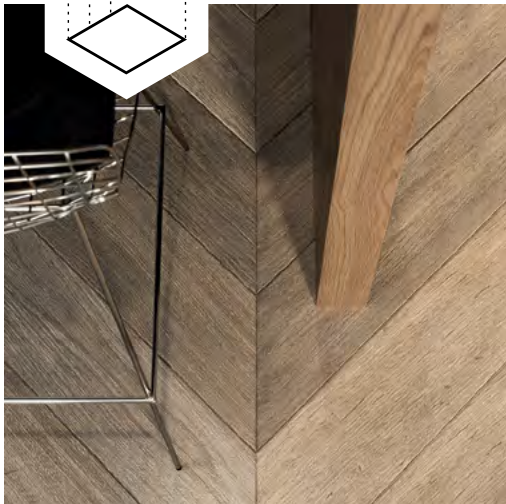

180 Making the grade
Explore all our key features, grading, patterns and surface finishes.

108 H Collection
Our latest flooring range is designed to meet the tightest project budgets.

Home Consultation

Now available to book by calling:
01524 737000
or visiting:
[Havwoods.com/homeconsultation](https://www.havwoods.com/homeconsultation)

Experience a Havwoods luxury design consultation in one of our five showrooms.

Our experienced team is there to guide you through to the best wood flooring options for your project, while you enjoy a cup of our finest coffee and a chocolate brownie. Large product panels in the showrooms allow you to imagine how your final project will look. Our story wall is there too to help you understand the different shades, grades, designs and finishes.

Services to suit your needs

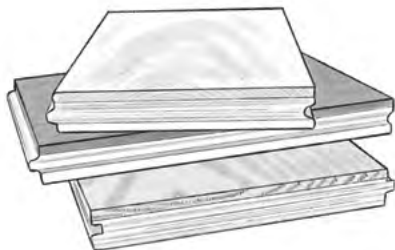

Take advantage of our services available for you. They have been designed to help you select the perfect product for your project.

Showroom experts

With 5 showrooms across the country, why not discuss your flooring requirements with one of our design consultation experts.

Free next day sample service

Order your samples online or contact our team and we'll dispatch your chosen samples for free (you might even receive a little treat to brighten your day).

Inspirational website

Visit our website today to see all our products, order samples online, access technical information and product inspiration.

Virtual appointments

If you are unable to make it to one of our showrooms in-person then our virtual appointments are available Monday-Friday. Book online today.

Home consultations

If you are looking for a more intimate design consultation experience, then our home consultation may be available to you.

Dedicated transport fleet

We love to ensure that our customers receive the best possible service from first contact to the point of delivery to site.

Local expertise with global infrastructure

We can support projects of all sizes both locally and across the world with unrivalled product and service consistency.

Join us at **clerkenwell** 21-23 **design week** may

Tone and texture

This year our Clerkenwell Design Week's overall product theme is Tone and texture, which promises to inspire you with wood surface designs for floors, walls and ceilings!

There truly are so many new wood surface products to experience that we don't know where to begin, you will need to see them for yourself! Drinks and canapé are served daily, and the Prosecco van outside the showroom will treat you to a glass of fizz!

Havwoods in three locations

At this year's festival you will find us in three locations. Our doors to the showroom on Great Sutton Street will be open for you to visit and pick up samples, and our Routemaster Bus will welcome you for a coffee at Brewhouse Yard with CPDs presented on the top deck of the bus daily. We will be hosting three fabulous talks at Design Fields – please look out for more details on these!

A festival not to miss

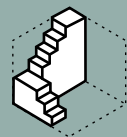

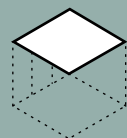

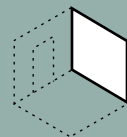

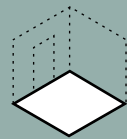

Clerkenwell Design Week, the UK's leading design festival, returns 21-23 May 2024 for its 13th edition!

In this festival you get to explore a range of curated exhibitions, 150+ showrooms, engaging installations, topical talks, hundreds of programmed events, fringe activities from local practices and tantalising deals across the area's most popular eateries and bars.

HW88105 Galway

Wood that tells a story.
Wood that Works.

Handgrade Premier

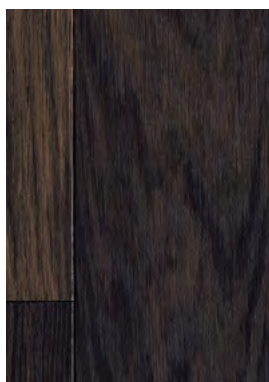

Our Handgrade range has been reimagined with large format planks in a stunning selection of new finishes.

Bog Oak

Like a time traveller's treasure, Bog Oak flooring bears the weight of history in its every grain.

Born from ancient trees that once thrived in peat bogs, this wood has been preserved and transformed over centuries. Its deep, ebony hues are complemented by intricate patterns, a testament to the passage of time and the resilience of nature.

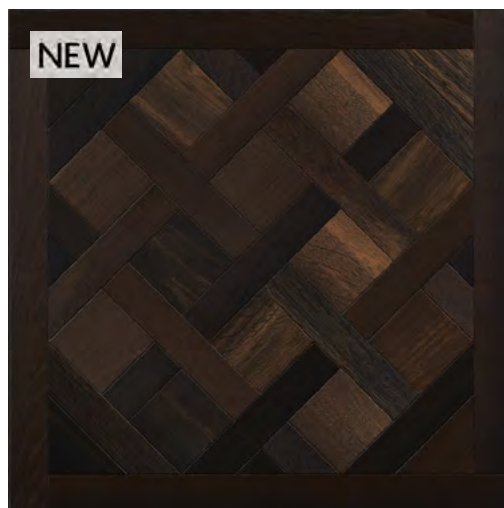

Bog Oak

HW8702

| Thickness | 20/5mm |
| Width | 180mm |
| Length | 1500-3000mm |
| Grade | Prime |

Shrunk-Face Oak

Shrunk face oak is the result of letting mother nature sculpt the surface in a natural and unique form.

This longer drying process produces depth variation around the stand out features of the Oak such as around knots and shakes. As this process is not 'man-made' it allows for an organic yet subtle finish, soft to the touch but full of character

Shrunk Face Oak

HW8706

Multi Layered Engineered European Oak; Brushed 1-Strip Pattern; Hardwax Oiled Finish; Tongue & Groove; 4-Sided Bevelled Edge; FSC® Certified

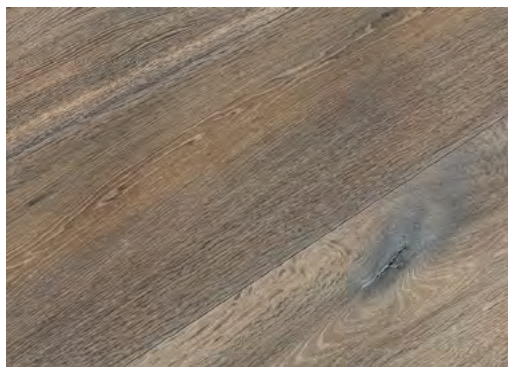

| | |
|-----------|-------------|
| Thickness | 20/5mm |
| Width | 250-350mm |
| Length | 2000-4000mm |
| Grade | Rustic |

Forest Oak

From the forest to the floor we use the most intriguing cuts of *Quercus Robur*.

From the Latin meaning 'Strong Oak' when a tree reaches full maturity it is harvested to benefit from the longest lengths and wide boards. We don't discriminate in this grading, there will be natural knots and checks of all sizes to bring out the natural beauty of this collection.

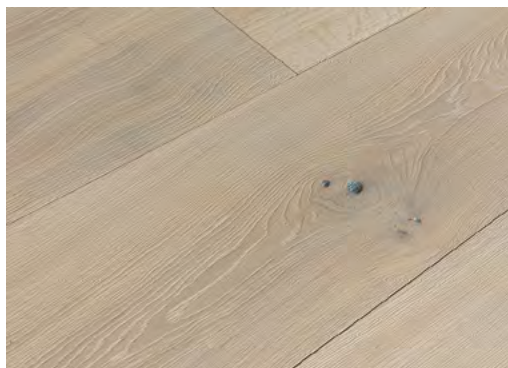

Tawny

HW8690

3-Layered Engineered European Oak;

Hand-textured Oak

Crafted with meticulous care, Hand-textured Oak flooring is a testament to the artistry and skill of human hands.

Every plank tells a story of craftsmanship, with its gentle undulations and carefully carved details. Each touch leaves a lasting impression, resulting in a floor that exudes character and warmth, inviting you to walk upon a masterpiece.

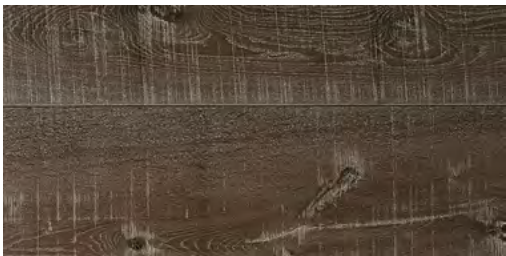

Galway

HW88105

Length 2000-3900mm
Grade Rustic

Milled Oak

Milled Oak flooring is a celebration of nature's precision.

Each plank is crafted with utmost precision and care, resulting in a smooth, flat surface that showcases the wood's natural beauty. The clean lines and consistent texture make it a versatile choice, capable of seamlessly integrating into a variety of interior designs, from rustic to contemporary.

Ash

Like a breath of fresh air, Ash flooring brings a lightness and natural elegance to any space.

Its pale, creamy tones are imbued with a subtle grain pattern, creating a sense of tranquility and simplicity. The smooth texture of Ash adds a touch of refinement, making it a versatile option that can brighten up both traditional and modern interiors.

| | Grade | Select |

Walnut

With its rich, chocolate-brown hues, Walnut flooring exudes a sense of opulence and sophistication.

The wood's natural grain patterns create a tapestry of intricate swirls and knots, adding depth and character to each plank. As light dances upon its surface, Walnut evokes a sense of timeless luxury, making it a statement piece in any room.

Mappin & Webb

With over 245 years' experience in the world of silver and fine jewellery, Mappin & Webb is an internationally recognised company which is synonymous with expert craftsmanship, excellence and all things truly British.

For the new showroom in Davy Gate, York, Mappin & Webb worked with architects Mark Pinney Associates to unveil the brand's new contemporary visual identity for the first time with an open plan sales area, designated watch and jewellery areas and two private VIP areas – as well as a bar.

The brief was to create a new concept that was both sophisticated and luxurious, to highlight Mappin & Webb's iconic collection of watches and jewellery. To complement the neutral colour palette, elegant lighting, flowing silhouettes and high-quality natural finishes, Havwoods' Amazon Character 260mm 1-Strip flooring from the Venture Plank collection was specified for the project.

The naturally warm undertones of the planks work perfectly with the soft curves of the bespoke, frameless glass display tanks and mirrored finishes, helping to reflect light into the space. The way the planks are laid helps to create a natural walkway, guiding customers through the showroom, which creates natural zones and space, without compromising on the open-plan design.

An engineered board made of European Oak, the planks are perfectly designed to suit commercial spaces with heavy footfall thanks to their durability, low maintenance and long lifespan.

Teddington Residential

A contemporary-meets-traditional masterpiece, the owners of this spacious home embarked on a journey to transform it into a property which harmoniously blends old and new.

With striking period features including high ceilings, intricate cornicing and panelling, a soft, monochrome interior has been implemented throughout. From the industrial ground floor extension with Crittal windows and doors to the soft grey walls and sculptural furniture, this home is a complement to modern living.

Havwoods flooring was chosen and used throughout the main areas of the property including the open-plan kitchen diner, living room, bedrooms, upstairs landing, cinema room and home gym. The Fendi Prime Herringbone flooring provides plenty of character with interesting graining that varies from plank to plank, along with cooler grey undertones which perfectly accompany the wall colour – especially in the bedroom which puts lavender centre-stage.

Downstairs, black and charcoal play a prominent role in the design, from the kitchen cabinetry to the sofa and dining chairs. The lighter colouring of the flooring allows the colour scheme to pop, whilst pairing with the other natural materials including the marble worktops and wooden dining table.

HW16009 Columba

Wood that is versatile.
Wood that Works.

Italian Collection

Both functional and aesthetically striking, the small format blocks and narrow planks inject character throughout the space.

Wandsworth Common

This opulent Central London home in Wandsworth is magnificently spacious and bright, with large bay windows overlooking the neighbouring park.

The homeowners renovated the property with the aim to complement the original features of the home, whilst incorporating modern materials that could keep up with their busy lifestyle.

Havwoods flooring was chosen for the master bedroom and main living spaces, using two different products: Fontaine Character 180mm 1-Strip upstairs and Columba Prime 70mm Block downstairs. In the master bedroom, the sage green walls enhance the views while the Fontaine Character boards naturally draw the eye across from the entry to the natural light which floods through the windows. The flooring continues into the upstairs corridor, where the detailed wood border has been added to zone the landing and the staircase.

Columba Prime in an on-trend Block pattern is used throughout most of the downstairs. In the open-plan kitchen diner, the flooring naturally separates the space from the black and white checkboard flooring in the hallway. A neutral colour scheme of cream and white is paired with a soft blue island and dark wood furniture. The light-coloured flooring adds a welcome contrast to

the space, while its hardwearing properties are ideal for a high-traffic room.

In the cosy living room, the Columba Prime boards provide a timeless solution. Packed with character, the unique furniture and rich colour palette of blue and rust sit beautifully against the flooring which offers natural warmth.

Wood that is sustainable.
Wood that Works.

Pureplank

Offering a breadth of sustainably
certified timber in plank,
herringbone and chevron.

Caister Close

A spacious residential property in Hemel Hempstead, Havwoods' Bandal Character flooring was chosen and installed throughout the hallway, staircase, study and bedrooms for this busy family home.

With the same board used throughout, the result is a seamless space that effortlessly flows from one room to the next. The neutral tones are perfectly suited to the property's airy and spacious aesthetic, whilst the engineered construction makes it the ideal choice for easy maintenance and high foot traffic spaces.

The light-coloured flooring has been paired with neutral walls in the bedrooms, which continues into the hallway where the planks have also been used on the stairs. The stairs have been finished with intricate metal detailing and LED lighting which highlights the natural beauty of the wood, as well as being a practical addition for walking at night. In the cosy living room, the Columba Prime boards provide a timeless solution. Packed with character, the unique furniture and rich colour palette of blue and rust sit beautifully against the flooring which offers natural warmth.

Bespoke

When standard products won't do,
our Bespoke service delivers unlimited
solutions for your needs.

Nantucket Residence

This newly renovated property, located on the highly coveted island of Nantucket, stands out with its unique attention to detail. Designed by Mark Cutone Architecture, the compound setting boasts superb finishes and specifications that leave no aspect overlooked. Arabescato marble is repeated throughout the space providing both continuity in design and a striking persona all of its own.

By opting for a customized option, they were able to select the specifics that aligned with their aesthetic preferences. Customization allows for greater control over the material selection and ensures that the floor not only meets the homeowners' visual expectations but also meets their functional needs, such as durability and resistance to wear and tear.

Upon entering the Great Room, the homeowners were captivated by the dramatic 19' voluminous ceilings, serving as an absolute showstopper. The open space with high ceilings presented an opportunity to enhance the perceived length and spaciousness of the area. By opting for custom wood floorboards with a width of 7 1/2" instead of 4 3/4" and length of 6", they strategically leveraged the power of visual perception to create the illusion of an elongated room. The longer boards create uninterrupted lines that stretch across the space, drawing the gaze towards the farthest points of the room. This effect not only makes the area appear more expansive but also adds a sense of elegance and sophistication.

When standard products won't do

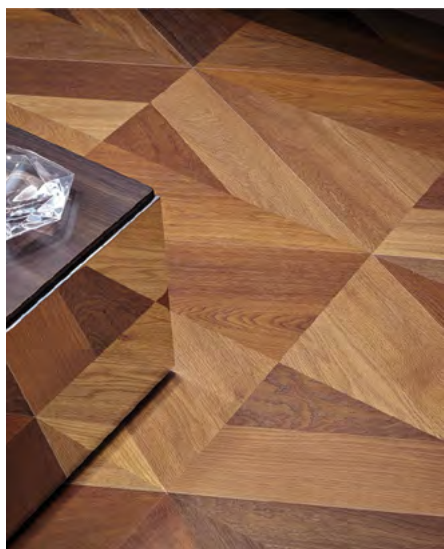

Sometimes your requirements cannot be filled by our standard products. While our range is extensive, at the same time, we understand occasionally you need something more. We are proud to be able to fulfill your bespoke wood flooring requirements.

You can have your ideal floor of any size, colour or pattern. You may start with one of our standard products or even an external option that is giving you the overall look you are after. Our team can then work with you to refine the primary characteristics of the product to meet your exact needs.

We may be able to modify:

- Width or length of the planks
- Thickness of the product to meet desired build-up
- Grading of the top layer
- Certification requirements
- Specific patterns or matching planks
- Custom design panels
- Surface texture and finish

Bespoke patterns, panels & designs

If you would like to opt for something truly unique then we can make the pattern of your dreams a reality. No matter the shape or complexity of design we will work with you to deliver a practical, yet impactful wood flooring solution.

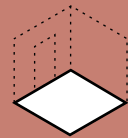

If your project requires additional levels of accreditation then this is something we can offer on many of our products including FSC® (FSC-C009500), PEFC™ (PEFC/16-37-1417) or Cradle-to-Cradle™ Certified products.

Please note due to the production process involved in creating your perfect wood floor there is a minimum order level (approx. 100m²) and a slightly longer delivery times compared to stock items.

MG13/1640/180 Rhyl

Wood that is accessible.
Wood that Works.

Magna

Magna raised access flooring is perfect for workspaces and commercial areas where access to underfloor services is required.

Magna® Herringbone

Magna® Classic & V Pro

Magna[®] raised access flooring

Magna raised access flooring is the perfect solution for workspace and other commercial areas where there's a requirement to access the underfloor services.

Magna flooring reduces downtime for refurbishments and is significantly faster and easier to install than using glue or underlay. The flooring can be sanded and maintained just like any other Havwoods' flooring. Individual planks or entire areas can be removed and replaced exceptionally easily thanks to the magnetised system which carries a lifetime guarantee.

Beyond the Floor

The design flexibility of timber makes it a perfect material choice for any interior surface.

Elegante veneers

Meticulously milled in the rolling countryside of the Pesaro e Urbino province of central Italy, our new Elegante Veneers offer 3 dimensional beauty in intricate patterns that can add beauty and intrigue to any vertical surface.

These 3 dimensional veneers are offered in a range of different surface styles:

Fresato
(Milled)

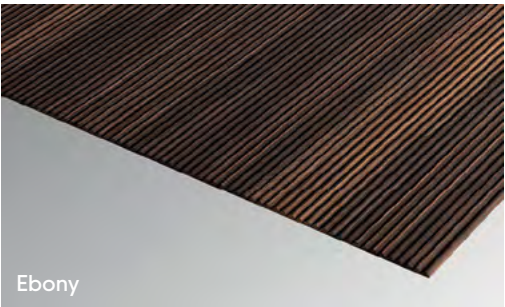

Costato
(Ribbed)

Ondato
(Wave)

With the 3130mmx1220mm veneer sheets offered in 3 constructions:

- 0.3mm wooden sheet
- 15mm rigid backing
- 5mm flexible baton support backing (specific patterns).

Flexible in installation, flexible in shape and flexible in style, these stunning new surface finishes will adorn the most glamorous of spaces.

Rustic cladding & veneers

Translate the impact of rustic wood to vertical surfaces with our collection of solid cladding and veneer boards.

Milled to twenty first century tolerances, the result is a board that is effortlessly easy to install and designed to create a feature in any space. Customers will require a suitable finish to complement these products to enable a suitable level of fire resistance under British Building regulations.

HW22506 Black

Wood that has special powers.
Wood that Works.

Hushwood Acoustics

Hushwood® is the new name in wood
acoustic solutions for commercial and
residential projects

Hushwood Fiber

This acoustic panel product is suitable for both walls and ceilings. It is composed from 100% natural materials using wood fibre, cement and water.

The result is a unique looking 25mm thick panel that also has fire and acoustic ratings suitable for use in both residential and commercial applications.

We offer a choice of 4 monochrome colours as standard, but it can also be special ordered in any RAL tone. These colour options, combined with a selection of shapes and sizes ensures that the design options are endless. All Hushwood Fiber acoustic tiles

are also FSC® Certified.

Key benefits:

Ecology

A natural material

Aesthetics

A wide choice of textures, shapes and hues

Health

A breathable, anti-allergenic material promoting a healthy environment

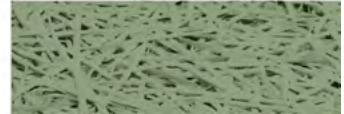

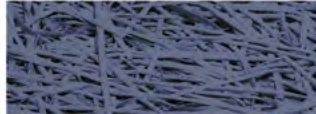

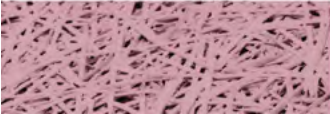

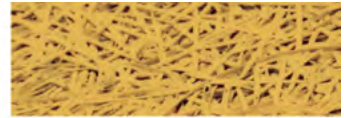

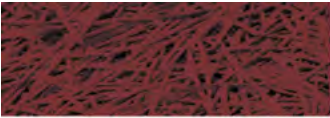

Long-Lasting

Does not become deformed, does not lose its properties over time

Acoustics

An effective sound insulation and absorption material

Just some of the RAL colours available for special order

Hushwood Flute

Designed to improve sound quality as well as interior aesthetics. These lightweight panels are easy to install, and when combined with a batten and mineral wool substructure can achieve a high level of sound absorption.

Key benefits:

Lightweight

Easy to position and attach

Aesthetics

Four elegant tones

Rapid

Easy to install in any room

Acoustics

An effective sound insulation and absorption material

PurePanel

Purepanel is suitable for a range of interior applications including custom cabinetry and stunning fabrication.

Pre-finished décor panels & veneers

Havwoods PurePanel® pre-finished décor panels and veneers are perfect for designers, architects and joiners who wish to create stylish and unique interiors in both commercial and residential applications.

Our PurePanel® boards and veneer sheets are incredibly versatile and ready to use, offering huge time and cost savings, whilst still offering the distinctive look and feel only available from real wood. Coloured to compliment some of our most popular floor colours, the mixmatching technique and industrial processing of PurePanel® also guarantees consistent colours and quality.

Matching PureEdge banding available and touch up pens are also available on request.

Purepanel 3D

Taking all the core elements of our standard Purepanel, hardwood veneers with MDF or Plywood core and elevates them to a new dimension. 3-Dimensional deep textures, geometric raised surfaces and organic shapes combine with smoked and natural real wood veneers to create truly unique panels. Applications can include Furniture, cabinetry, wall and ceiling covering, and interior doors.

Wood that is beautiful.
Wood that Works.

Making the grade

With such an extensive product range it is important to understand the key product features.

Here are the five typical flooring grades you will find.

Prime

Prime grade has few, if any knots, and these will be of minimal size; there will also be a minimal amount of sapwood and filler, if any at all. The colour of the filler is intended to complement the natural structure of the wood, where features such as knots contrast with the surrounding timber, and it may vary from batch to batch.

There will be a relatively small amount of colour variation in the timber itself.

Select

Select grade will have a mix of almost prime boards with other planks which have more knots of a limited size.

Expect some variation in tone from heartwood and sapwood as well as small checks (cracks across the growth ring). There will be some filled elements, such as broken knots. The colour of the filler is intended to complement the natural structure of the wood, where features such as knots are in contrast to the surrounding timber, and it may vary from batch to batch.

Classic

Classic Grade floors show the natural variation of timber without allowing some of the more characterful features in more rustic grades.

Planks with very few knots will be mixed with some planks containing larger knots or checks (cracks across the growth ring) which may be filled. Variation between tone from heartwood and sapwood can be expected but is controlled. The colour of the filler is intended to complement the natural structure of the wood, where features such as knots are in contrast to the surrounding timber, and it may vary from batch to batch.

Character

Character grade will include both heartwood and sapwood and allows a wider range of colour variation.

Knots are larger and you should expect checks (cracks across the growth ring) and possibly some end shake (cracks between the rings). The colour of the filler is intended to complement the natural structure of the wood, where features such as knots are in contrast to the surrounding timber, and it may vary from batch to batch.

Rustic

Known as either natural or rustic grade this allows a virtually limitless size and number of knots. Heartwood will be used, there will be colour variation, sapwood and filler; you should also expect checks (cracks across the growth ring) and possibly some end shake (cracks between the rings).

The colour of the filler is intended to complement the natural structure of the wood, where features such as knots are in contrast to the surrounding timber, and it may vary from batch to batch.

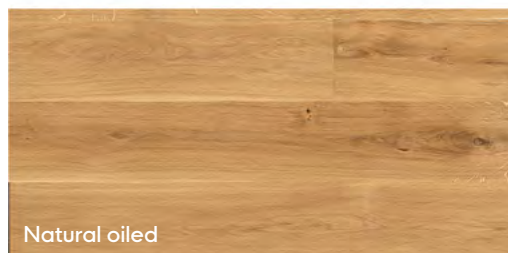

Timber products often include enhanced natural characteristics.

Sapwood

Sapwood is the living part of the tree through which water and sap flow. It is always lighter in colour than the heartwood and certain fuming, smoking and colouring processes emphasise the sapwood since it doesn't react to such treatments to the same degree. (The effect of these treatments on planks containing sapwood is shown left)

By definition sapwood contains more moisture, however this is no cause for concern since all Havwoods' timber has been carefully dried and its stability is ensured when supplied in an engineered form.

Knots & fillers

A knot is either the base of a side branch or a dormant bud around which the grain flows.

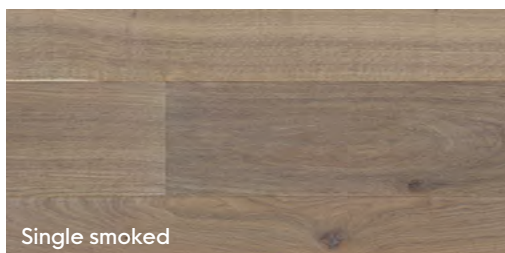

A knot is sometimes replaced by filler and this may be of various colours: Grey, brown and black are shown here.

Medullary rays, checks & shakes

These white, ribbon-like medullary rays are an indication that the plank has been crafted from quarter-sawn timber.

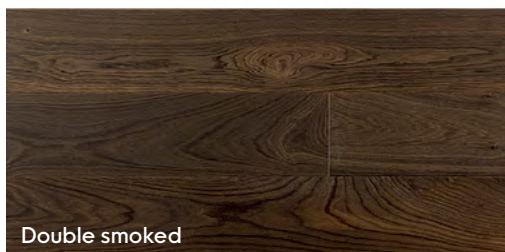

Checks and shakes usually occur at the end of a board and may be cut off.

Smoking & Firing

Smoking and fuming are essentially the same and refer to a process whereby the hardwood is exposed to ammonia gas for 24 (single) or 48 (double) hours. The colouration is surface deep only.

Unlike staining, smoking reacts to the chemical composition of the individual plank, so the ultimate shade will vary. This variation is considered an asset, however if you prefer a more even tone we suggest you consider choosing stained rather than smoked wood.

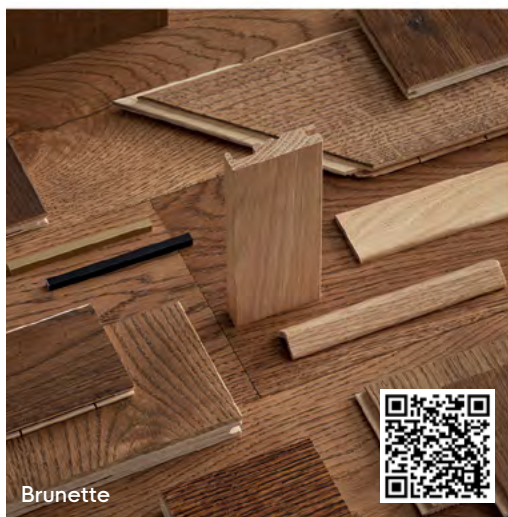

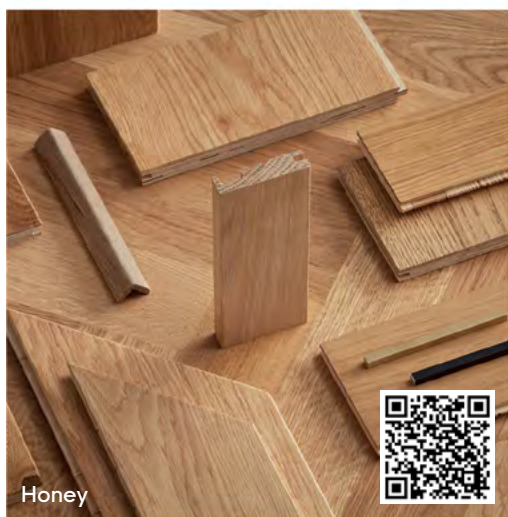

Fired products are treated in a vacuum, sometimes for several weeks, and the dark colour runs throughout the lamella providing a genuine visual alternative to tropical hardwoods.

Our intuitive colour groups allow product selection with ease.

Pattern plays a pivotal role in the appearance of any floor.

1 Plank

This is sometimes known as plank, strip or boards and is available in a variety of different lengths and widths. Each offering a unique look and feel.

2 Herringbone

This traditional parquet style remains as on trend today, as it always has. The blocks may be laid in single or double patterns, or if they are the correct proportion alternate pattern options.

3 Chevron

One of the more visually impressive patterns combines geometric angles with directional flow. Our chevron pattern floors have a 45° angled point, and the alternating rows deliver a stunning two-tone aesthetic.

4 Versailles

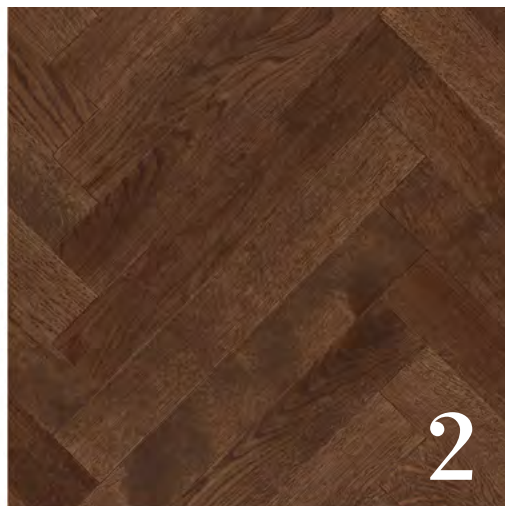

Owing its name to the fabulous Palace de Versailles, one of the world's great building projects, the Versailles design consists of squares held together by what appears to be an interwoven mesh of wood strips, all within a wood frame.

5 Mansion Weave

A more complex and endless pattern, mansion weave is particularly effective in larger rooms.

6 Bespoke

If you are looking for something a bit different, then we have a host of panel and pattern variations that can be produced to order.

Your choice of finish will affect the overall sheen, durability and maintenance.

Unfinished

Allowing you to be the artist, this is a completely natural surface, without treatment. It's up to you to finish how you wish. Unfinished timber can include different grades of character so all you have to do is re-sand the surface once installed and create using the blank canvas.

Lacquered

This is normally a polyurethane coating that covers the pores of the wood and forms a hard, resilient surface, protecting it from dirt and moisture ingress. A good quality lacquer will protect a wooden floor for anything from 12 months to 6 years, depending upon the amount of foot traffic.

Oiled

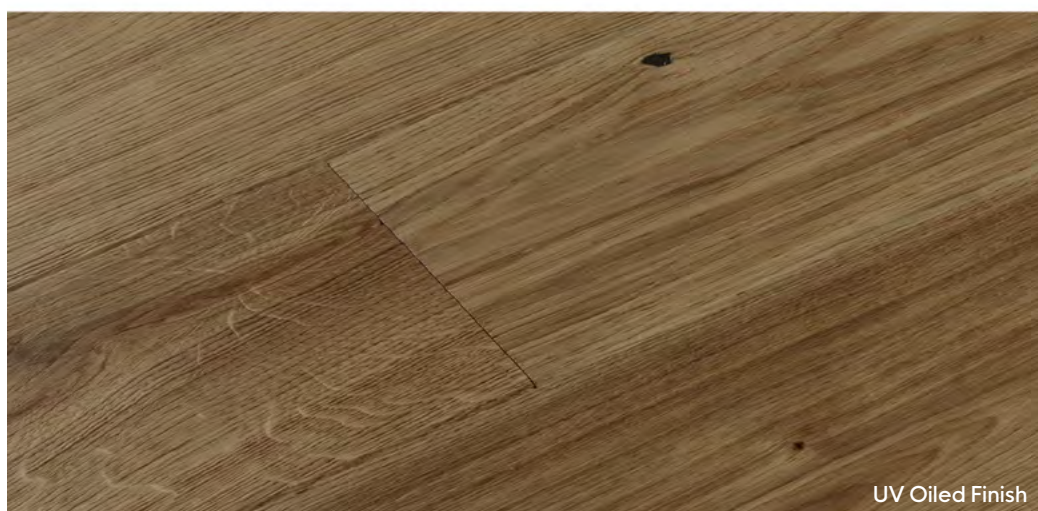

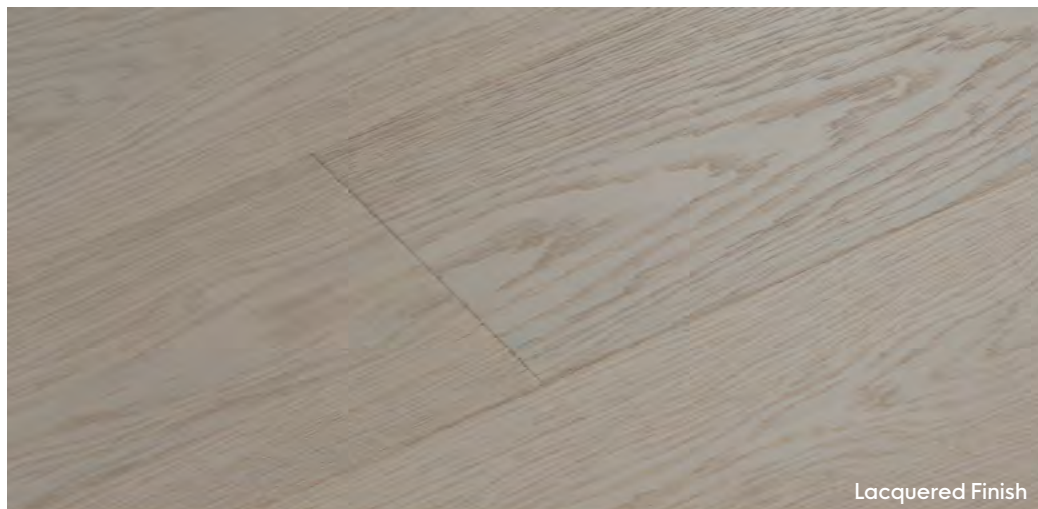

Oil penetrates deep into the wood and brings out the true beauty of both the color and grain, as well as providing protection for the floor. In addition to providing a natural look, oiled floors lend themselves to being spot repaired in the event of surface damage.

UV Cured Hardwax Oil

Combining the wear advantages of a lacquer with the subtlety of oil, this finish is micro-porous, water-repellent, dirt-, wear-, and stain-resistant against wine, beer, cola, coffee, tea, fruit juices and milk. It will not crack, flake, peel or blister.

Valour UV Cured Hardwax Oil

Valour is a film-forming oil that allows the surface to be layered like a lacquer but retains the appearance and characteristics of an oil. It provides increased scratch and impact resistance and offers the hardest wearing oiled finish in our range.

Solid and Engineered constructions each offer unique structural properties.

Solid T&G

Traditional solid hardwood flooring, not suitable for use over underfloor heating.

3-Layer Engineered Click

Hardwood top layer with a softwood core, and balancing back pull layer. Supplied with a click-system profile.

Multi-Layer Engineered T&G (19–21mm nominal)

Hardwood top layer with a marine ply engineered backing. Suitable for use with underfloor heating and can be used as a structural floorboard.

(P) Multi-Layer Engineered T&G (19–21mm nominal)

Hardwood top-layer with a Eucalyptus and Poplar ply engineered backing. Suitable for use with underfloor heating and can be used as a structural floorboard.

Multi-Layer Engineered T&G (10–14mm nominal)

Hardwood top-layer with a marine ply engineered backing. Suitable for use with underfloor heating but cannot be used as a structural floorboard.

(P) Multi-Layer Engineered T&G (10–14mm nominal)

Hardwood top-layer with a Eucalyptus and Poplar ply engineered backing. Suitable for use with underfloor heating but cannot be used as a structural floorboard.

3-Layer Engineered T&G

Hardwood top-layer with a softwood core, and balancing back pull layer. Supplied with a tongue and groove profile.

2-Layer Engineered T&G

Hardwood top-layer with a softwood backing made from individual staves to aid stability and must be fully bonded to the subfloor.

We

Havseal™ recognises

take it

responsibly sourced products

further

Havseal™ is our own seal of approval taking even further measures ensuring sustainable and responsible procurement within our supply chain. The Havseal™ seal of approval is awarded to those products that exceed the already high standards needed to ensure entry into our portfolio. Not only do we consider the origin, the legality and sustainability of each of the products, but we also take into account the energy that goes into production of the product, the chemical content of the product as well as the mill's commitment to re-using its waste.

The Gold Seal is awarded to the products coming from mills that show an extreme passion and proactive approach to ecological benefits such as reusable heating for local communities, the powering of wind turbines, financing the re-introduction of animals into the forest areas and commitments to replanting forest and woodland areas such as the Forest Stewardship Council®, FSC®.

The Green Seal award is given to the products that offer extra international accreditation, identified as coming from sources that offer higher standards of energy use and waste generation.

Havwoods Returns Policy

Leftover Goods

If you have any unused packs left over after fitting we can accept these back for credit, subject to the following conditions:

- Goods must be returned within 30 days from date of delivery (subject to our terms & conditions).
- A 20% restocking fee applies.
- You are responsible for returning the goods to us at our Carnforth warehouse at your expense. Original delivery cost is non-refundable. Refunds will be issued within 14 days of receipt of material into our warehouse.
- Any returned goods must be unopened, no partial packs will be accepted.
- Goods must be in their original, "as new" condition and with original packaging. Any packs returned in a damaged condition or not packaged correctly cannot be credited.
- Handed products must have an equal quantity of Left and Right hands.
- Please note that unfortunately we cannot accept products which are specials or bespoke, made to your specifications (including wooden profiles) or non-stock items especially brought in for your order.
- Any bespoke or non-stock items remaining at our warehouse which are part of a call-off order will be invoiced 14 days after the end of the contract.
- Before returning any goods, a return order number must be obtained from the Havwoods Sales Department. Please write this number, together with the names of both sender and recipient, clearly on each unit being returned.

Goods Arrived Damaged Or Short Delivered

- Any deliveries with damaged or missing goods should be accepted but must be signed for accordingly (i.e. "damaged" or "short delivered"). Phrases such as "unchecked" will not be accepted.
- Photographs should be taken of any damaged goods at the point of accepting deliveries and forwarded with your claim.
- All damaged or missing goods must be reported to the Havwoods Sales Department within 4 days, and a replacement will be sent out to you at the earliest available delivery date.
- If you notice a problem after signing for delivery, then please contact us within 4 days to arrange a replacement. Photographic evidence of any damaged goods must be provided.
- You will not normally be expected to return the damaged packs to us. After your claim has been accepted by us please dispose of the items safely.
- We do advise you to check your packs upon delivery to avoid any unnecessary delays if there is a problem with the delivery.

Faulty Goods

If the products arrive with a manufacturing fault, please contact our customer services telephone line: 01524 737000 or email us: info@havwoods.co.uk. If you call us we will try to sort out your complaint while you are on the phone. If this is not possible the advisor will agree a course of action with you, in line with our terms and conditions.

Changing Your Mind

Subject to our terms and conditions, and in line with the Consumer Contracts Regulations 2013, you have 14 days after the day you (or someone you nominate) receives the order, (or where the order is split into several deliveries over different days, 14 days after the date of the last delivery) to notify us that you wish to cancel the order.

- Please note bespoke or special order products (including wooden profiles) cannot be returned for credit.
- To cancel an order please contact our customer services telephone line: 01524 737000 or email us: info@havwoods.com.
- You must return the products to us as soon as reasonably practicable and in any event within 30 days of delivery.
- The product must not have been removed from their packaging or in any way handled, modified, or installed (such that they are no longer in a saleable condition).
- If you cannot arrange carriage yourself, we can collect the complete order from the address to which they were delivered, on your behalf. Such collection will be at your cost, and at your risk.

NB Warranties only applicable to floors installed with Havwoods fixing products and maintained with Havwoods maintenance products, unless otherwise stated.

Delivery Rates

All orders over £1,000 delivered free on a 3–4 day service, to standard destination UK mainland.

All next day deliveries £50.00 kerbside only, due to the nature of the products these may not come off on a tail lift, please ensure enough labour is on site to accept the delivery as this may require handballing from the side of vehicle.

Please note: Kerbside is closest kerb to the side of the vehicle, and does not include driveway or onto the property.

These rates apply to UK Mainland. POA for non-Mainland and Scottish Highlands. Above deliveries are kerbside only. Due to the nature of the products, some may not be offloaded using a tail lift and will have to be manual handled from the vehicle. Please ensure suitable labour is at the delivery point to offload your delivery.
