

Precision and RCL to Showcase World-Class Spotlights and Downlights at Clerkenwell Design Week

London, UK – Precision and RCL are thrilled to announce their participation in this year's Clerkenwell Design Week, taking place in the heart of London's design district. Visitors to the Light design area will have the exclusive opportunity to explore some of the world's finest spotlights and downlights, brought to you by these industry-leading brands.

As innovators in lighting design and technology, Precision and RCL are set to illuminate the event with their cutting-edge collections. Attendees will experience firsthand the exceptional quality, versatility, and innovation that our products bring to any space. From sleek, precision-engineered spotlights to versatile and dynamic downlights, our showcase is designed to inspire and excite.

Event Details:

- **Location:** House of Detention, 12 Sans Walk, EC1R 0AS
- **Dates:** 21st-23rd May
- **Booth:** P10

"We are excited to exhibit to Clerkenwell Design Week and to share our passion for luminaire design with the design community," said Matthew Nourse, Technical Sales, at Precision and RCL, "This year, we are bringing a selection of our finest products that highlight the innovation and quality that Precision and RCL are known for. We look forward to welcoming everyone to our stand and to inspiring new ideas and projects."

Clerkenwell Design Week is renowned for showcasing the best in international design, attracting architects, designers, and creative minds from around the globe. Light is dedicated to lighting solutions and innovations, is the perfect backdrop for Precision and RCL to display their mastery in luminaire design.
