

AMALFI & POSITANO – THE ULTIMATE IN SOPHISTICATED INDULGENCE

Craftsmanship and the epitome of luxury are at the very heart of these two new collections from Artisan Luxury Flooring, offering the ultimate in sophisticated indulgence while being durable and easy to maintain. These ranges are created from a fusion of modern and innovative performance yarns that are handwoven on traditional looms.

Amalfi and **Positano** are both made from the same superior grade nylon yarn, which is inherently durable and resilient. This handmade process allows us to create beautiful textures and shine that can only be achieved from this age-old weaving craft, that has been passed down from generation to generation

Amalfi – a handwoven heavy cut pile velvet, looks and feels like silk but is durable and easy to maintain. Fashioned in nine stunning natural tones and colours, this glamorous floorcovering sets a new standard in luxury interior finishes.

Positano – a handwoven tip sheared velour, couples with Amalfi in the same stunning complimentary colourways. This unique process creates a suave antique look that reflects light evoking a viscose or Tencel finish but without any of the limitations of these delicate fibres.

Amalfi and Positano are available in 5m width in nine beautiful colours. These urbane designs create a cosmopolitan, sumptuous range of floorcovering with enviable eye-catching designs.

Both create stunning interiors with a lavish look; from luxury residential apartments to high end hospitality. Sophisticated & lavish ranges that are sure to turn heads.

Despite the luxury look and feel, both Amalfi and Positano are manufactured to withstand heavy footfall. They are heavy domestic (Class 23) and general commercial (Class 32) wear rating and hold fire classification cfl-S1.
