

Florence in Oyster and Onyx - Spark & Bell

Illuminate your space with eco-conscious elegance using the 'Florence' Wall Light, crafted from recycled CD cases for a sustainable twist. This innovative fixture boasts a central circular illumination surrounded by flowing curves, capturing the eye with its graceful design.

Choose from two stunning options: the 'Oyster' variant features a clear and white speckled pattern, allowing soft, inviting light to pass through, while the 'Onyx' option offers deep black details for added drama.

Handmade with care in our Brighton workshop by the Spark & Bell team, each 'Florence' light is a testament to quality craftsmanship and artisanal design. Embrace sustainability without compromising on style with this radiant addition to your decor.

Elevate your space responsibly and beautifully with the 'Florence' Wall & Pendant Light, where recycled brilliance meets timeless elegance.
