

Blum are thrilled to be exhibiting for the first time at CDW 2024. A global manufacturer of innovative furniture fittings, combined with our passion for anthropology, means improving the quality of living spaces for today and future generations.

Founded in 1952, BLUM have been inspiring innovative furniture with their inspirational fitting solutions. A market leader in manufacturing motion technologies, hinges, runners, lift systems and pocket doors, BLUM are a global influence on improving the quality of our living spaces. We are also passionate anthropologists, ergonomists, and gerontologists, we understand the needs of today's consumers, watching and monitoring patterns of behaviour in the built environment and changing demographic trends. Taking an active approach to our impact on the planet also meets the needs of future generations. BLUM continually stays in motion to move ideas forward.

Come and visit us at 1 Dallington Street to be inspired by our solutions and experts in the field of Aging, Ergonomics, Gerontology and AI.
