# BOB Corner & BOB Split

**BOB CORNER.** When the wavy rolling form of the BOB sofa system encounters a corner, a hairpin bend might not be enough. It is now possible to build BOB with sharp 90-degree corners as well as soft corners. BOB Corner will also allow for plant arrangements, and similar breaks to be inserted.

**BOB SPLIT.** When you want to go in different directions at the same time. There are projects where you don't want to turn left or right but both ways at the same time. BOB Split works as an offshoot so you don't have to choose.
