# Moodbord

A place for creativity & inspiration. A table filled with all sorts of things, and at the same time perfectly clean. Display merchandise in a shop, menus in a restaurant, inspirational items in an Architect's office, or all kinds of memorabilia. Moodbord brings order and creativity together in exact craftsmanship inspired by vintage retail sales counters. Moodbord is made from cross-laminated pinewood that is sturdy, strong, and with a distinct character. It can be dyed in many colours and the double-sided modules can be joined together to any length desired.
